

HLTH12028 Health Promotion Strategies

Term 2 - 2023

Profile information current as at 27/04/2024 07:31 am

All details in this unit profile for HLTH12028 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit builds on the student's understanding of health promotion by focusing on best practice strategies. These strategies will cover a range of circumstances and settings, including brief individual interventions to the development of national health promotion policy. It is recognised that effective health promotion initiatives generally use a combination of strategies and skills that are founded on theory and research.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student unit evaluation

Feedback

Increase the live tutorial time to allow more questions from students

Recommendation

Allocate a portion of time during each live session for student questions.

Feedback from Student unit evaluation

Feedback

Include more real-world applications of unit content to the assessment

Recommendation

Review the final assessment item for 2023, and incorporate more real-world application of the unit content to the case example tasks.

Feedback from Unit coordinator reflection

Feedback

Continue with regular check-ins via the Moodle news forum to ensure students are aware of upcoming assessments, live sessions and assessment supports available

Recommendation

Regularly communicate with students via the Moodle news forum on upcoming unit milestones and supports available for assessment completion to help maintain student engagement across the term.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Evaluate the principles underlying best practice in health promotion in relation to strategies
2. Distinguish between various health promotion strategies
3. Locate, critically evaluate and utilise information in the development of effective health promotion strategies
4. Recommend culturally appropriate strategies to be applied in a variety of settings, including schools, workplaces, health service organisations and entire communities
5. Argue the most appropriate strategy, or mix of strategies, for addressing a health related issue, including mental, emotional, social or physical health issues
6. Determine the most appropriate methods, policies and resources to support the planning and implementation of health promotion strategies.

3 Written Assessment 2

Assessment Type

Written Assessment

Task Description

Health Promotion Program Proposal Report (40%)

Word limit: 2,000 words

For this assignment, you can choose to address one of the four described topics - details provided on the unit Moodle site.

You are required to develop a health promotion program for delivery in your community. You will submit a report providing details of the following:

1. Justification statement
2. Needs assessment plan
3. Overview of health promotion strategies included in the program
4. Evaluation plan

This assessment is to be written as a report. A report outline is provided on the unit Moodle site.

Peer collaboration: Students may voluntarily work in pairs for this assignment task. Students will need to identify, on the cover page, the sections of the report that each student has completed. From this information, 10% of your marks for this assignment will be allocated to your contribution to the assessment. Each pair member will receive a copy of the marked assignment and the grade.

Students can submit this assignment as a pair or individually if optional paired work has not been chosen.

Assessment Due Date

Assessment Criteria

Your report will be marked according to: explanation of justification; description of needs assessment plan; overview of strategies used in the program; description of evaluation plan; quality of evidence. Students who have worked as a pair will also be marked on their individual contributions to the assignment. The individual component is the section/s of the report that each student in the pair has completed. The individual component for each student in the pair will be marked according to the adequacy and quality of contribution.

Please refer to Moodle site for more information.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
