HLTH13031 Population Health Epidemiology

Term 1 - 2022

Profile information current as at 28/11/2021 07:21 pm

All details in this unit profile for HLTH13031 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit explores the importance and role of epidemiology as an approach to both public health and clinical practice. You will be able to use evidence from epidemiological investigations, to understand the distribution of health outcomes in populations and understand the influence of factors that determine this distribution. The critical function of epidemiology will be reviewed including areas of anticipated needs, identified risk conditions, definition of priorities and the use of available resources for planning and administering health care services.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Personal reflection and discussion

Feedback

Revision of materials and assessments.

Recommendation

In addition to the proposed revision of the alignment and weighting of the assessment items in this unit, the unit contents need to change. The current Unit Coordinator concurs with the previous unit coordinator "that it is possible for students to pass the unit without displaying mastery of some fundamental concepts" in epidemiology. A revision of the unit content and alignment with the course outcomes will be undertaken over the 2021 T3 period, to take effect from 2022 T1.

Tutorial

Recommendation

Although tutorials are scheduled, many students do not attend them. It might be useful to offer drop in tutorial sessions so more resources can be directed at helping students online on Moodle and one on one support where needed.
