Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Qualitative feedback from the SUTE student survey and conversation with the Unit Coordinator over phone/email and/or via zoom

Feedback

Most of the DST students showed concerns on workshop scheduling (1-3 pm) . They mentioned that scheduling workshops in evening so that more students can attend and it would be useful

Recommendation

Schedule live workshops for the DST students in the evening from 6 - 8 pm.

Feedback from Qualitative feedback from the SUTE student survey and conversation with the Unit Coordinator over phone/email and/or via zoom

Feedback

The students generally expressed the satisfaction with teaching, support, resources, and assignments. They appreciated that the teaching staff is enthusiastic and engaged. They mentioned that the majority of resources provided were very useful and relevant. They appreciated that the lecturer went above and beyond to engage and offer support to students. However, there were some errors in the early weeks for practice quizzes but these were minor issues. Students also asked to add some examples in the weekly workshop slides to further elaborate the key theoretical concepts.

Recommendation

Online practice quiz links need to be checked before Week 1. Test and run the online quiz by UC and at least one member of the teaching team from the discipline. Moodle resources and the lecture slides need to be updated. The weekly workshop plan needs to be updated for a 2-hrs workshop. Student-centred activities and some real-world case examples should be added to the PowerPoint slides.

Feedback from Qualitative feedback from the SUTE student survey and conversation with the Unit Coordinator over phone/email and/or via zoom

Feedback

The student generally expressed their satisfaction with made up assignment cases, but he/she think it could be done with a real world example to add another level of sophistication to it.

Recommendation

Revisit the Assessment 3 guidelines and the case. Use some real-world contemporary cases or news articles from HR-related magazines for A3.

2 PORTFOLIO (45%)

Assessment Type

Portfolio

Task Description

This assessment requires students to prepare a portfolio. A portfolio can be seen as both a product and a process:

- As a product, it holds the work records and documents you have produced during the unit and represents an edited collection of your learning achievements.
- As a process, it enables you to monitor your own learning systematically, reflect on your learning performance, present a coherent account of your achievements, and obtain feedback on your learning.

This individual assessment task should be 1500 words (+/- 10%) and accounts for 45% of the marks for this unit. The portfolio comprises **six (6) parts**.

Part 1 - Short Answer Question (600 words) - Significance of Recruitment and Selection - Critically discuss the significance of recruitment and selection to organisations today.

Part 2 - Position Description (300 words) - Interview a person known to you who is employed as a graduate employee and based on the analysis for his/her current job role prepare a position description.

Part 3 - Resume (300 words) - Assuming that you will soon graduate from CQUniversity, prepare your resume to apply for a "HR Recruitment Consultant" or a similar position recently advertised on www.seek.com.au. You must search for an actual job advertisement. You may use a preferred resume format.

Part 4 - Resume self reflection (300 words) - Justify your choice of resume format used in Part 3 above.

Part 5 - References (not included in the word count) - Integrate a minimum of eight (8) recent peer reviewed scholarly references. These references are to back up your analysis provided in Part 1 and Part 4.

Part 6 - Appendices (not included in the word count) - You should include the following appendices; (a) interview questions and responses used in Part 2 above, and (b) a copy of the advertisement referred to in Part 3 above.

Important: Before commencing this task, carefully read the detailed assessment task and marking rubric available on the unit Moodle site.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
