## General Information

### Overview

In this unit you will study the HR functions, operations, policies and practices that are applicable to the transference of employees for work purposes from one country to another. The unit is designed to raise, study and analyse the issues that will challenge a HR practitioner who is tasked with employing and deploying employees (particularly managerial employees) in different organisational settings in different countries. HRMT20025 International Human Resource Management is an advanced unit that builds upon and applies the knowledge that students have obtained in HRMT20024 Managing Human Resources to managers and employees working in international organisations in a number of countries. The complexities of working in global organisations require more advanced skill levels from human resource (HR) managers.
