General Information

Overview

This unit offers a broad overview of Indigenous Australian health. It begins by examining Indigenous Australian identity and the health status of Aboriginal and Torres Strait Islander peoples prior to colonisation. This is contrasted with the impacts on Indigenous Australian identity from earlier indifferent practices of governance, to formal government policies of protectionism/segregation, assimilation and self-determination and their profound effects on the health of Aboriginal and Torres Strait Islander peoples. The unit then overviews Indigenous Australian health in the current context, exploring Aboriginal community-controlled health services, Torres Strait Islander health services, primary health care services, differences between Indigenous Australian men's and women's health, health promotion and research, and Indigenous Australian models of health care.

Assessment Tasks

1 Academic Essay

Assessment Type

Written Assessment

Task Description

Choose one topic from the list below (or negotiate an alternative topic with your Unit Coordinator), and write a 1000-1200 word academic essay.

1. Discuss the health of Australian Aboriginal people prior to the arrival of non-Indigenous people in Australia.
2. Discuss the health of Torres Strait Islanders prior to the arrival of the first missionaries. You may wish to compare and contrast the varied dietary patterns that existed throughout Torres Strait.
3. Discuss the historical impacts of colonisation on the health of Aboriginal and Torres Strait Islander people.
4. Discuss the health of Aboriginal people in remote and homeland Aboriginal communities. What are the major factors at work here? If you wish, you can use an example in your discussion.
5. Discuss the health of Aboriginal Australians in rural communities. You may use an example from a rural community if you wish.

In your response, present a balanced coverage of the arguments in relation to the topic. No matter how passionate you may be about your topic, remember that you must write objectively and without emotion. You will need to research widely and reference accurately. You should include at least 4-6 sources in your reference list, but more is always better. You are required to use the Harvard style of referencing.

Remember that this is an academic essay and therefore should be properly presented with an introduction, the body of the essay (or the main discussion), a conclusion, and a reference list. Use 1.5 or double line spacing, a clear font such as Times New Roman 12 or Arial 11 and include page numbering.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
