Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE and emails

Feedback

Due to the timing of submission of part B of the drafting portfolio (week 11) and the reflection task (week 12), feedback on part B of the drafting portfolio is not received until after the reflection task is submitted. Although students may use feedback received on the online test and part A of the drafting portfolio (and feedback received from peers and the unit coordinator on documents submitted to MS Teams) to construct their reflection, some were concerned about the fact that feedback on part B could not be provided before submission of the reflection.

Recommendation

As part B is focused on the materials covered in the second half of the unit, it is not possible for its submission date to be brought forward to allow for sufficient time for the unit coordinator to mark part B prior to the submission of the reflection. As students are frequently asked throughout both parts of the portfolio to reflect on their draft documents, and identify where their skills are improving and those aspects that require improvement, it is recommended that the reflection task be removed as a standalone assessment task and that reflection be emphasised in the portfolio criteria instead.

Feedback from SUTE, workshops, emails

Feedback

Students appreciate the opportunity to receive feedback on a weekly basis from the unit coordinator and their peers on their draft documents via MS Teams

Recommendation

The unit coordinator should continue to provide feedback on all drafts posted on MS Teams prior to the workshop and identify other ways to reiterate the importance of engaging in a 'drafting community' to ensure students receive feedback from multiple sources on their work.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Communicate effectively in writing, including the appropriate usage of grammar, syntax and punctuation.
2. Apply principles of plain English drafting, principles of interpretation, and drafting conventions to create legal documents that comply with the client's instructions and the objectives of the document.
3. Reflect critically on written work and provide comprehensive feedback to others through a peer review process.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
