General Information

Overview

This capstone unit provides you with a choice of a domestic placement, social innovation project, international study tour, or workplace simulation. Placement opportunities available during Terms 1 and 2 are domestic placements, social innovation projects, and workplace simulations. Domestic placements will be facilitated by the Unit Coordinator and Work-Integrated Learning (WIL) team, or you may instead submit a placement that you have identified for approval. Social innovation projects will enable you to engage with pressing social issues and contribute to real-world outcomes. The workplace simulation will support the development of your practical legal skills (including advocacy, drafting, client interviewing, negotiating, file management, and problem solving) in the context of a simulated legal workplace. The content of the simulation may vary annually. In Term 3, the only placement option available is an international study tour, facilitated by CQUGlobal, to an international location in conjunction with an external partner organisation. International study tours will require you to pay for travel and accommodation; these costs may be offset by government scholarships such as the New Colombo plan. Prior to and during your placement, you will study cultural competencies, ethical responsibilities, and practical skills necessary to support your placement work. This capstone unit will enable you to apply your knowledge to legal problems in real-life environments. You will undertake legal and academic analysis, integrate reflecting thinking into your work, and present your ideas orally and in writing.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
