General Information

Overview

This elective unit builds upon knowledge acquired in LAWS11061 Contracts A and LAWS11062 Contracts B. Topics have been selected that are relevant first to the nature of specific legal relationships. These are bailments, sale of goods, business organisations and agency. Secondly topics have been selected that are relevant to the application of commercial rules. These are rules, mainly statutory, found in consumer protection, restrictive trade practices, credit law, electronic commerce and guarantees. Commercial law in legal practice essentially is about finding the correct solution to a specific legal problem. Currently and in the future this requires correct diagnosis and the primary purpose of this unit is to teach you the process of diagnosis, using the topics as common examples.
