## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from On-campus teachers, markers

**Feedback**

Students fail to develop skills to answer legal questions, and rely too heavily on having an answer that they can copy.

**Recommendation**

It is necessary to continue to emphasise written answer practice in class and to provide every opportunity for such practice. This should be the subject of regular communications by teaching staff to students in class. The unit provides many problem-solving podcasts as well as other learning materials that can assist in such practice. Students must have opportunities for practice in class and must be made to understand that assessments require learning and thinking, not just copying from sources.

#### Feedback from Student feedback

**Feedback**

Similar to above, students report wanting more examples of answers.

**Recommendation**

Teachers need to be instructed to spend a lot of time in class working through example answers. However, to ensure that students are developing skills rather than just copying, they should not be given written examples that they will simply copy. Students need to be trained to answer questions that they have not seen before by emphasising reasoning skills rather than rote answers.

The video presentation must endeavour to present the outcomes of the research in a user-friendly way suitable for understanding by a client who has no knowledge of the law. ## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
