Assessment Tasks

1 New trends or emerging trends in channel management

Assessment Type

Group Work

Task Description

Task Description

As you will be working in groups of three for this assessment, the Unit Co-ordinator will assign you to a group as soon as possible. Your group can choose any business or organization operating in Australia. It can be a company that you work for, have worked for previously, one you want to work for, or one that you own. For example, you can choose Malaysian Airlines as the organisation. You may want to focus on how airlines sell seats on their planes through direct online sales or third party retailers such as travel agents, or discount flight outlets selling last minute flights. Alternatively, it can be Energizer a fast moving consumer goods (FMCG) organisation, that sells batteries, chargers and flashlights. Try to find a company using new channels to distribute its product to the customer in order to determine the effectiveness of these new channels based on meeting sales objectives.

Each group is required to research channel management of the organisation's products. Discuss the current channel or the channel management strategies it uses and report on your findings in a structured business report format with a 1,000 word limit. Groups must use peer-reviewed journals and support their findings with at least 10 academic references.

Use the following learning outcomes to guide the content for this assessment:

Recall and define key logistics functional areas and their value to markets and customers.

- **Investigate the concepts of logistics integration and trade-offs and their value to markets and customers.**
- **Critically analyse the concept of organisations routes to market and how effectively they fulfil sales objectives.**

Important: You need to get approval from the unit coordinator about your chosen company before you start working on your assessment.

The format for Assessment 1 will be as follows:

- 1. Title page with all group member names as shown in Moodle, student IDs, word count for sections 4 to 9**
- 2. Executive summary (one page)**
- 3. Table of contents**
- 4. Brief introduction of the organisation and products**
- 5. Description of the channels and strategies the organisation uses.**
- 6. How do the channel management strategies of your chosen organisation differ to those of one main competitor?**
- 7. Identify one or two key channel management issues that the organisation must address.**
- 8. Recommendations for your chosen organisation.**
- 9. Conclusion.**
- 10. Reference list using APA formatting.**
- 11. Appendices - only if absolutely essential.**

Note that word count (1,000 words) applies from sections 4 to 9.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
