

LOGS12005 *Balance Demand and Supply*

Term 1 - 2020

Profile information current as at 04/05/2024 03:39 am

All details in this unit profile for LOGS12005 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

An initial understanding and later, mastery of inventory management, incorporating inventory policy, planning and control is fundamental to success of the supply network for an organisation. Inventory control is addressed in year 1 of the course. This unit addresses inventory planning and optimisation and is presented in year 2 of the course. To understand the value of inventory planning for a business, students will critically evaluate and develop an understanding concerning the value and liability of inventory to a business. Based on the concepts of complexity in the supply network of a business, students critically examine inventory planning at the organisation level, taking account of various strategies and objectives of a business. The unit develops analytical prescriptive skills for considering options when planning the optimum amount and location of inventory to support an organisation's strategic objectives. The unit then takes a departure from the theoretical underpinnings and asks the students to put what they have learned into action by taking part in a number of rounds of the Supply Chain simulation game called 'The Fresh Connection' (<https://www.thefreshconnection.biz/education/>)

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Unit Profile Content (Overview)

Recommendation

The introduction of "The Fresh Connection" Game would support the Learning Outcomes of this Unit. If licencing of the game is not possible, then the Unit profile wording should be reviewed.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Assess and discuss the role of inventory within an organisation.
2. Compare and contrast the various options concerned with planning and storing inventory.
3. Critically analyse the inventory planning and optimisation processes available; together with where and how they may be utilised.
4. Evaluate the potential benefits and costs from implementing and using different approaches to inventory planning.
5. Consider the planning challenges and the role of inventory planners in addressing these challenges.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
