

MATH11246 *Essentials of Applied Mathematics*

Term 1 - 2020

Profile information current as at 04/05/2024 03:23 am

All details in this unit profile for MATH11246 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

Corrections

Unit Profile Correction added on 06-05-20

Due to the university's COVID-19 response, the exam in this unit will be replaced with a 24 hour take-home exam.

Passing criteria: 50% of the available marks on the assessment

More details will be available in Moodle. Learning outcomes assessed will be unchanged.

General Information

Overview

In this unit, you will apply essential mathematical concepts, processes and techniques to develop mathematical descriptions and models for problems in sciences, engineering, business and other disciplines. You will learn and apply the properties of linear, quadratic, exponential and logarithmic rules in appropriate settings, use trigonometric rules to solve relevant problems. You will also practise effective communication of results, concepts and ideas using mathematics as a language in a way that demonstrates a clear, logical and precise approach.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 7

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Anti-requisite: MATH11160

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2020

- Online
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Written Assessment**

Weighting: 25%

2. **Written Assessment**

Weighting: 25%

3. **Examination**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from In class, by email, through Moodle

Feedback

Many students had difficulty in applying basic math operations, which was assumed prerequisite knowledge.

Recommendation

Consider adjustments to coverage of all math units for education students to increase the teaching time in introductory mathematics.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate foundation mathematics skills with emphasis on those areas applicable to multiple disciplines
2. Formulate and analyse simple mathematical models
3. Apply theory to practical problems drawn from a range of disciplines
4. Solve unfamiliar problems using foundation mathematics techniques
5. Communicate results, concepts and ideas in context using mathematics as a language.

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Schedule

Week 1 - 09 Mar 2020

Module/Topic	Chapter	Events and Submissions/Topic
Review: Numbers and operations	Chapter 1.1 (textbook) Week 1 reading material	Read Chapter 1.1 or Week 1 reading material; Complete exercise 1.1 in textbook; Try exercises in Week 1 reading material.

Week 2 - 16 Mar 2020

Module/Topic	Chapter	Events and Submissions/Topic
Review: Algebraic expressions and operations	Chapter 1.2 (textbook); Week 2 reading material	Read Chapter 1.2 in textbook or Week 2 reading material; Complete 1.2 exercises; Try exercises in Week 2 reading material.

Week 3 - 23 Mar 2020

Module/Topic	Chapter	Events and Submissions/Topic
Review: Factoring algebraic expressions	Chapter 1.3-1.4 (textbook); Week 3 reading material	Read Chapter 1.3 -1.4 in textbook or Week 3 reading material; Complete 1.3-1.4 exercises; Try exercises in Week 3 reading material.

Week 4 - 30 Mar 2020

Module/Topic	Chapter	Events and Submissions/Topic
Review: Equations	Chapter 1.5 (textbook); Week 4 reading material	Read Chapter 1.5 in textbook or Week 4 reading material; Complete 1.5 exercises; Try exercises in Week 4 reading material.

Week 5 - 06 Apr 2020

Module/Topic	Chapter	Events and Submissions/Topic
Review: Introduction to trigonometry	Chapter 2.1 (textbook); Week 5 reading material.	Read Chapter 2.1 in textbook or Week 5 reading material; Complete 2.1 exercises in textbook; Try exercises in Week 5 reading material. Assignment 1 Due: Week 5 Wednesday (8 Apr 2020) 11:00 pm AEST

Vacation Week - 13 Apr 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Mid-Term Break

Week 6 - 20 Apr 2020

Module/Topic	Chapter	Events and Submissions/Topic
Review: Trigonometric functions for any angles	Chapter 2.2.1 (textbook); Week 6 reading material.	Read Chapter 2.2.1 in textbook or Week 6 reading material; Complete Question 1-7 in exercise 2.2 in textbook; Try exercises in Week 6 reading material.

Week 7 - 27 Apr 2020

Module/Topic	Chapter	Events and Submissions/Topic
Review: Trigonometric identities	Chapter 2.2.2 (textbook); Week 7 reading material.	Read Chapter 2.2.2 in textbook or Week 7 reading material; Complete Question 8-9 in exercise 2.2 in textbook; Try exercises in Week 7 reading material.

Week 8 - 04 May 2020

Module/Topic	Chapter	Events and Submissions/Topic
Functions: Solving oblique triangles	Chapter 2.3-2.4 (textbook); Week 8 reading material.	Read Chapter 2.3-2.4 in textbook or Week 8 reading material; Complete exercise 2.3 in textbook; Try exercises in Week 8 reading material.

Week 9 - 11 May 2020

Module/Topic	Chapter	Events and Submissions/Topic
Introduction to inequalities	Chapter 3.1-3.2 (textbook); Week 9 reading material.	Read Chapter 3.1-3.2 in textbook or Week 9 reading material; Complete exercise 3.1 and 3.2 in textbook; Try exercises in Week 9 reading material.

Week 10 - 18 May 2020

Module/Topic	Chapter	Events and Submissions/Topic
Introduction to functions and graphs	Chapter 4.1 (textbook); Week 10 reading material.	Read Chapter 4.1 in textbook or Week 10 reading material; Complete exercise 4.1 in textbook; Try exercises in Week 10 reading material.

Week 11 - 25 May 2020

Module/Topic	Chapter	Events and Submissions/Topic
Special functions and inverse functions	Chapter 4.2 (textbook); Week 11 reading material.	Read Chapter 4.2 in textbook or Week 11 reading material; Complete exercise 4.2 in textbook; Try exercises in Week 11 reading material. Assignment 2 Due: Week 11 Wednesday (27 May 2020) 11:00 pm AEST

Week 12 - 01 Jun 2020

Module/Topic	Chapter	Events and Submissions/Topic
Unit review and examination preparation		

Review/Exam Week - 08 Jun 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Exam Week - 15 Jun 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Assessment Tasks

1 Assignment 1

Assessment Type

Written Assessment

Task Description

This is an individual assignment.

This assignment is to test student's learning outcomes in basic algebra reviewed in Weeks 1-4. The assignment details are provided on the Moodle website.

Assessment Due Date

Week 5 Wednesday (8 Apr 2020) 11:00 pm AEST

Return Date to Students

Week 7 Wednesday (29 Apr 2020)

It is envisaged that feedback and solutions will be available in two weeks, or as soon as the process is completed.

Weighting

25%

Assessment Criteria

The final mark is out of 25. Questions are awarded the full marks allocated if they are error-free, partial marks if there are some problems, and no marks if not attempted or contain so many errors as to render the attempt to be without value. To ensure maximum benefit, answers to all questions should be neatly and clearly presented and all appropriate working should be shown. Assignments will receive NO marks if submitted after the solutions are released.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

Submit one PDF file through MATH11246 Moodle website.

Learning Outcomes Assessed

- Demonstrate foundation mathematics skills with emphasis on those areas applicable to multiple disciplines
- Formulate and analyse simple mathematical models
- Communicate results, concepts and ideas in context using mathematics as a language.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Ethical practice

2 Assignment 2

Assessment Type

Written Assessment

Task Description

This is an individual assignment.

This assignment is to test student's learning outcomes in triangles, trigonometric identities and basic geometry and inequalities, absolute equations and inequalities covered in Weeks 5-10. The assignment details are provided on the

Moodle website.

Assessment Due Date

Week 11 Wednesday (27 May 2020) 11:00 pm AEST

Return Date to Students

Review/Exam Week Wednesday (10 June 2020)

It is envisaged that feedback and solutions will be available prior to sitting the standard examination.

Weighting

25%

Assessment Criteria

The final mark is out of 25. Questions are awarded the full marks allocated if they are error-free, partial marks if there are some problems, and no marks if not attempted or contain so many errors as to render the attempt to be without value. To ensure maximum benefit, answers to all questions should be neatly and clearly presented and all appropriate working should be shown. Assignments will receive NO marks if submitted after the solutions are released.

Examination

Outline

Complete an invigilated examination.

Date

During the examination period at a CQUniversity examination centre.

Weighting

50%

Length

180 minutes

Minimum mark or grade

50% (25 marks or higher out of the 50 marks available in the exam)

Exam Conditions

Open Book.

Materials

Dictionary - non-electronic, concise, direct translation only (dictionary must not contain any notes or comments).
Calculator - all non-communicable calculators, including scientific, programmable and graphics calculators are authorised

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
