General Information

Overview

Foundation Mathematics is designed to provide you with foundation concepts, rules and methods of elementary mathematics. The main aim of this unit is to provide the foundations of mathematics, which are necessary to develop a unified body of knowledge. You will apply number and algebra concepts to solve problems. You will select appropriate mathematical methods to investigate and solve problems, and interpret the results. Mathematics will be used as a language to communicate results, concepts and ideas in context. You will document solutions to problems in a way that demonstrates a clear, logical and precise approach.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from 2022 Engineering Curriculum Review

Feedback

For consistency across first year engineering mathematics units, the final examination will be changed to restricted open book.

Recommendation

Update the final examination to restricted format with students permitted to take in their workbooks developed during the term.

Feedback from Unit Coordinator's observation

Feedback

Students who consistently followed the weekly activities progressed well.

Recommendation

Continue to offer a positive, supported learning experience.
