

MATH40252 *Technical Mathematics for University*

Term 1 - 2021

Profile information current as at 26/05/2022 10:19 pm

All details in this unit profile for MATH40252 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Technical Mathematics for University is designed to follow on from Intermediate Mathematics for University. The completion of both Intermediate Mathematics for University and Technical Mathematics for University will prepare you for first year tertiary mathematics in applied science and engineering. The unit will provide you with knowledge of various mathematical topics, including algebra techniques; trigonometric functions, ratios, and graphs; plane and analytical geometry; introductory vectors and introductory calculus.

Details

Career Level: *Non-award*

Credit Points: 6

Student Contribution Band: 7

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Students need to complete MATH40228 Intermediate Mathematics for University to enrol in this unit

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2021

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Non-award unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Assessment Overview

1. **Written Assessment**

Weighting: Pass/Fail

2. **Written Assessment**

Weighting: 30%

3. **Written Assessment**

Weighting: 30%

4. **Examination**

Weighting: 40%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Evaluation

Feedback

Tutorial questions are useful for practicing concepts

Recommendation

Retain tutorial sheets and associated videos, and increase the number and variety of questions.

Feedback from Unit Evaluation/ Student Feedback

Feedback

Textbook has some errors and inconsistencies

Recommendation

Update the textbook to rectify the issues.

Feedback from Unit Evaluation

Feedback

Moodle videos were helpful, but lecture videos were not as helpful.

Recommendation

Review the lecture and tutorial videos to ensure efficient content coverage.

Feedback from Unit Evaluation

Feedback

Feedback from module tests and assignments helped identify areas for further study

Recommendation

Continue with formative, pass/fail module tests.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Reflect on formative assessment to improve mathematical comprehension
2. Analyse information using mathematical techniques
3. Communicate mathematical solutions logically and clearly
4. Use mathematical concepts and techniques including algebra techniques; trigonometric functions, ratios, and graphs; plane and analytical geometry; introductory vectors and introductory calculus
5. Apply appropriate mathematical techniques
6. Develop solutions to applied mathematical problems.

Rockhampton , QLD , Australia

Binding: Spiral

Additional Textbook Information

The textbook for Technical Mathematics for University (TMU) is available on the unit Moodle site; however, we strongly advise you to print out your own copy. You may like a hard copy to complete activities and take notes. The textbook cannot be purchased from the CQUniversity Bookshop. Your Access Coordinator will provide you with advice on printing options.

IT Resources

You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- Computer - ability to access study materials, including instructional videos & scan and upload assessment
- Microsoft Office or similar

Referencing Style

All submissions for this unit must use the referencing style: [Harvard \(author-date\)](#)

For further information, see the Assessment Tasks.

Schedule

Week 1 - 08 Mar 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|------------------------------|---------|------------------------------|
| Additional Topics in Algebra | ALGX | |

Week 2 - 15 Mar 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|------------------------------------|---------|--|
| Trigonometric Functions and Ratios | TRFN | ALGX Module Test: Due Week 2 Monday (15 March 2021) 11:45pm AEST |

Week 3 - 22 Mar 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|------------------------------|
|--------------|---------|------------------------------|

| | | |
|-----------------------------------|------|--|
| Graphs of Trigonometric Functions | TRGR | TRFN Module Test: Due Week 3 Monday (22 March 2021) 11:45pm AEST |
|-----------------------------------|------|--|

Week 4 - 29 Mar 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|-------------------|---------|---|
| Analytic Geometry | AGEO | TRGR Module Test: Due Week 4 Monday (29 March 2021) 11:45pmAEST |

Week 5 - 05 Apr 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|-------------------------|---------|--|
| Introduction to Vectors | VECT | AGEO Module Test: Due Week 5 Tuesday (6 April 2021) 11:45pm AEST |

Vacation Week - 12 Apr 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|------------------------------|
|--------------|---------|------------------------------|

Week 6 - 19 Apr 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|--|
| Revision | | VECT Module Test: Due Week 6 Monday (19 April 2021) 11:45pm AEST |

Week 7 - 26 Apr 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|------------------------------|---------|--|
| Introductory Differentiation | DIFF | Assignment 1 Due: Week 7 Tuesday (27 Apr 2021) 11:45 pm AEST |

Week 8 - 03 May 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|------------------------------|---------|------------------------------|
| Introductory Differentiation | DIFF | |

Week 9 - 10 May 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|-----------------------------|---------|--|
| Introduction to Integration | INTG | DIFF Module Test: Due Week 9 Monday (10 May 2021) 11:45pm AEST |

Week 10 - 17 May 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|-----------------------------|---------|------------------------------|
| Introduction to Integration | INTG | |

Week 11 - 24 May 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|---|
| Revision | | INTG Module Test: Due Week 11 Monday (24 May 2021) 11:45pm AEST |

Week 12 - 31 May 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|--|
| Revision | | Assignment 2 Due: Week 12 Monday (31 May 2021) 11:45 pm AEST |

Review/Exam Week - 07 Jun 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|------------------------------|
|--------------|---------|------------------------------|

Exam Week - 14 Jun 2021

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|--|
| | | Examination: The date and time of the examination will be available through MyCQU approximately six weeks before the examination period. |

Assessment Tasks

1 Module Tests

Assessment Type

Written Assessment

Task Description

You will complete seven modules in MATH40252 (from the Technical Mathematics for University textbook). At the conclusion of each module, you must complete the corresponding Module Test. The tests are available on the MATH40252 Moodle site and must be submitted via Moodle. The Module Tests are formative and are completed as assignments - no supervision is required. The purpose of the Module Tests is to help you and your Lecturer monitor your progress throughout the term, allowing you to identify any concepts that require further review. The tests also provide a basis for communication between you and your Lecturer/Unit Coordinator. You must achieve an average of 50% across the seven Module Tests in order to be awarded a PASS for this Assessment Item. You must also PASS this Assessment Item in order to be eligible to PASS MATH40252, provided all other conditions are met.

Assessment Due Date

Module Tests are due on the Monday of the week specified in the Unit Profile Schedule. A more detailed version of this schedule can be found in the TMU Unit Guide located on the unit Moodle site.

Return Date to Students

The Module Tests will be marked and returned within 10 days of the test due date or submission date, whichever is later. Your tests will be returned via the unit Moodle site.

Weighting

Pass/Fail

Minimum mark or grade

You must achieve an average of 50% across the seven Module Tests in order to be awarded a PASS for this Assessment Item. You must PASS this Assessment Item in order to be eligible to PASS MATH40252.

Assessment Criteria

Marks for each question will be allocated for the following:

- using appropriate setting out
- showing all correct steps in the solution
- answering the question asked, where appropriate
- finding the correct answer.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

Each module test must be uploaded as a single pdf document via the unit Moodle site for MATH40252. Full details are provided on the unit Moodle site.

Learning Outcomes Assessed

- Reflect on formative assessment to improve mathematical comprehension
- Analyse information using mathematical techniques
- Communicate mathematical solutions logically and clearly
- Use mathematical concepts and techniques including algebra techniques; trigonometric functions, ratios, and graphs; plane and analytical geometry; introductory vectors and introductory calculus
- Apply appropriate mathematical techniques
- Develop solutions to applied mathematical problems.

Graduate Attributes

- Self Management
- Communication
- Problem Solving
- Ethical Practice

2 Assignment 1

Assessment Type

Written Assessment

Task Description

Assignment 1 is a non-supervised assignment and must be completed individually. This assignment is compulsory and covers the first 5 modules of the unit: ALGX, TRFN, TRGR, AGEO and VECT. Assignment 1 will be made available at the end of Week 3 on the unit Moodle site.

Assessment Due Date

Week 7 Tuesday (27 Apr 2021) 11:45 pm AEST

Return Date to Students

Assignment 1 will be marked and returned within 2 weeks of the due date or date submitted, whichever is later, and will be returned via the unit Moodle site.

Weighting

30%

Assessment Criteria

Marks for each question will be allocated for the following:

- using appropriate setting out
- showing all correct steps in the solution
- answering the question asked, where appropriate
- finding the correct answer.

- Communicate mathematical solutions logically and clearly
- Use mathematical concepts and techniques including algebra techniques; trigonometric functions, ratios, and graphs; plane and analytical geometry; introductory vectors and introductory calculus
- Apply appropriate mathematical techniques

- Develop solutions to applied mathematical problems.

Graduate Attributes

- Self Management
- Communication
- Problem Solving
- Ethical Practice

3 Assignment 2

Assessment Type

Written Assessment

Task Description

Assignment 2 is a non-supervised assignment and must be completed individually. This assignment is compulsory and covers the modules DIFF and INTG. Assignment 2 will be made available at the end of Week 8 on the unit Moodle site.

Assessment Due Date

Week 12 Monday (31 May 2021) 11:45 pm AEST

Return Date to Students

Assignment 2 will be marked and returned within 2 weeks of the due date or date submitted, whichever is later, and will be returned via the unit Moodle site.

Weighting

30%

Assessment Criteria

Marks for each question will be allocated for the following:

- using appropriate setting out

Closed Book

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
