Term 2 - 2023

Profile information current as at 26/03/2023 11:17 pm

General Information

Overview

This unit builds upon the basic microbiological concepts learned in first year and applies them to an environmental context. In this unit you will learn about the various microbial groups and develop a sound understanding of their relevance and importance in both natural and industrial environments. This unit has a very applied and practical focus, covering both field and laboratory microbiological methods. You will learn and apply practical skills which also include employability skills in the area of microbiology.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Have your say button

Feedback
Students preferred having the online test spread into three throughout the term.

Recommendation
The online tests will remain separate and spread out.

Feedback from Have your say button

Feedback
Students loved the practical aspects of the unit.

Recommendation
The residential school will remain an important part of the unit, and will mostly stay as is.

Feedback from Have your say button

Feedback
Some students stated there were too many assessment pieces.

Recommendation
The assessment pieces will be evaluated to see if reducing the number of parts is possible.
