## General Information

### Overview

Informed practice is fundamental to safe practice in midwifery care and ethical decision making. Informed practice requires you to review evidence for its relevance to best practice. In this unit, you will apply skills to search for evidence, critically review contemporary research and other evidence, and critique current policies relevant to midwifery practice.

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from SUTE Feedback

**Feedback**

I quite enjoyed this course. I just feel that the requirements of clinical placement and my work hours impeded on my ability to actually focus on preparing for the assignments.

**Recommendation**

Students will be encouraged to start preparing their assessment tasks earlier in the unit. The assessment Zoom sessions will be held earlier in the term to allow for this.

#### Feedback from SUTE Feedback

**Feedback**

I found reaching 2'500 word limits very challenging and would suggest a reduction in word count.

**Recommendation**

Due to the 50% weighting of the two assessment tasks a word count of 2500 was deemed appropriate. For the next offering, additional complexity will be added to the case study options enabling further exploration.

#### Feedback from SUTE Teacher Evaluation for MDWF12004

**Feedback**

Tanya is awesome. Very empathetic and caring nature that shines through and makes learning enjoyable. Thanks Tanya.

**Recommendation**

To continue to ensure that the students feel well supported during the unit.
