

MDWF13003 Midwifery Practice 3

Term 3 - 2022

Profile information current as at 02/05/2024 09:27 am

All details in this unit profile for MDWF13003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This clinical placement unit is the third of four that provides you with midwifery clinical experience. You will apply your knowledge of highly complex physiological and psychosocial factors that impact upon the childbearing continuum. In addition to this, you will employ midwifery knowledge, cultural safety, and inclusivity in the care of marginalised groups such as women experiencing substance misuse, and/or incarceration, refugee and immigrant women, or members of the Lesbian, Gay, Bisexual, Transgender, or Queer (LGBTQ+) community. The clinical practicum component of this unit will require you to complete a minimum of 224 hours in addition to Continuity of Care Experiences (COCE).

Offerings For Term 3 - 2022

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 12-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 25 hours of study per week, making a total of 300 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

SUTE via DataSmart dashboard

Recommendation

No student feedback comments were in the SUTE that was available in the DataSmart dashboard. There appear to be only 2 respondents to the SUTE survey who have rated clear unit requirements and unit relevance to degree at 100% and all other components were rated as 50%. This unit is in teach out mode and this is the final offering, therefore a new Midwifery Practice 3 unit will replace this version.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Critically evaluate the consequences of physiological and socio-cultural complexities upon the physical, social and emotional wellbeing of women across the childbearing continuum
2. Apply midwifery knowledge, cultural safety, inclusivity, and digital health and emerging technologies to the care of women from marginalised groups.
3. Demonstrate midwifery knowledge of regional, national, and global maternal health priorities and translate these into practice
4. Employ midwifery knowledge, cultural safety, and inclusivity in the care of Aboriginal and Torres Strait Islander women and their families
5. Critically reflect on clinical learning related to your continuity of care experiences (COCE) to enhance practice
6. Demonstrate developing midwifery competence based upon the Nursing and Midwifery Board Australia (NMBA) Midwife Standards for Practice (2018) requirements.

The proposed changes to learning outcomes and the unit will meet the following:

The draft ANMAC Midwifery Education Standards (2020).

Standard 1: Safety of the public.

Standard 3: Program of study.

Standard 4: Student experience.

Standard 5: Student assessment.

This clinical placement unit is the third of four that provides you with midwifery clinical experience. The focus of this unit is on the role of the midwife in complex childbearing. You will be involved in the provision of care of the woman and her family throughout pregnancy, birth, and the postnatal period. The practical application of different models of care will be explored with an emphasis on best practice. The clinical practicum component of this unit will require a minimum of 224 hours to be completed in addition to Continuity of Care Experiences (COCE). This unit is to be studied in conjunction with the units Foundations of Midwifery 3 and Midwifery Practice for Aboriginal & Torres Strait Islander Families.

It is a requirement that students check their student email account at least once per week as per the CQU Student Email Account Policy and Procedure.
- All students must adhere to the CQUniversity student clinical placement policy. All students must follow the correct notification procedures if they are absent from clinical placement and supply a medical certificate for missed shifts and also a medical clearance to return to placement if required as outlined in the policy.

Assessment Tasks

1 Critical Review

Assessment Type

Critical Review

Task Description

Assessment 1 - CRITICAL REVIEW

Type: Critical review

Due date: 23:55 (AEST) Friday 6th January 2023 (Week 7)

Weighting: 40%

Length: 2000

Unit Coordinator: Rachelle Chee

Aim

In this assessment, you are required to examine a fictional report outlining a case of maternity care which resulted in an adverse outcome for a fictional family – Penny and Olivia Smith. This report is written in a similar fashion to a coroner's report. The aim of this assessment is to review the antenatal, intrapartum, and postpartum facts provided by the report, examine the midwifery care throughout, and give recommendations for current evidence-based midwifery actions that may have changed the outcome for baby Olivia.

Instructions

You are reading the Adverse Outcome Report and writing an essay which addresses the following tasks:

Please follow the steps below to complete your assessment task.

- Identify** and **critically analyse** the midwifery elements of Penny and Olivia Smith's care which contributed to the adverse outcome.
- Describe** the appropriate elements of midwifery care which may have prevented the adverse outcome. Utilise current evidence, guidelines, and regulatory standards to **justify** your recommendations.

Literature and references

In this assessment use at least 10 contemporary references (<5 years) to support your discussion. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing or the Australian Association of Social Workers.

Requirements

- Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 1.5 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers on each page in a footer.
- You may write in the first-person perspective.
- Use formal academic language.

5. Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online [APA Referencing Style Guide](#).
6. The word count is considered from the first word of the introduction to the last word of the conclusion. The word count excludes the reference list but includes in-text references and direct quotations.

Resources

1. You can use unit provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
2. We recommend that you access your discipline specific [library guide](#): the [Nursing and Midwifery Guide](#);
3. We recommend you use EndNote to manage your citations and reference list. More information on how to use EndNote is available at the [CQUniversity Library website](#).
4. For information on academic communication please go to the [Academic Learning Centre Moodle site](#). The [Academic Communication section](#) has many helpful resources including information for students with English as a second language.
5. Submit a draft before the due date to review your Turnitin Similarity Score before making a final submission. [Instructions are available here](#).

Submission

Submit your assessment via the unit Moodle site in Microsoft Word format only.

Marking Criteria

Refer to the marking rubric on the Moodle site for more detail on how marks will be assigned.

Learning Outcomes Assessed

1. Critically evaluate the consequences of physiological and socio-cultural complexities upon the physical, social and emotional wellbeing of women across the childbearing continuum
2. Apply midwifery knowledge, cultural safety, inclusivity, and digital health and emerging technologies to the care of women from marginalised groups.

Task Description

Assessment 2 - Portfolio

Type: Reflective journals

Due date: Friday 10th February 2023 23:55 (Exam Week)

Weighting: 60%

Length: N/A. Each journal entry should be approximately 400 words however labour and birth reflections can be longer.

Unit Coordinator: Rachelle Chee

Aim

The aim of this assessment is to allow you to demonstrate reflective practice.

Reflective practice is a key element that contributes to the Nurses and Midwives' Board of Australia's Midwife Standards for Practice (2018). It is through reflective processes that both students and registered midwives can identify and explore diverse values, beliefs, learning needs and sociocultural structures.

Instructions

To facilitate your reflective skill development, you are required to complete a reflective piece of writing for each of the three (3) recruited 'continuity of care experience' (COCE) women you recruited in term 2, AND for each of your four (4) newly recruited COCE women in term 3. If you have already completed more than the recommended COCEs thus far, you will need to recruit a minimum of two (2) COCEs in term 3 (as long as this brings your total to 10 by then end of term 4).

A reflective journal is a way of thinking in a critical and analytical way about your clinical experience. It involves looking at a situation, assessing what you have learnt from it, what you could have done differently, realising new approaches to your care and ultimately, how you felt about the whole experience. As a student midwife it shows how different aspects of your work interconnect and can be very useful for identifying gaps in knowledge and ethical dilemmas or situations that need further thought. Reflective writing is more personal than other kinds of academic writing and is an exploration of events not just a description of them.

Please use the framework below to structure each reflective journal entry.

1. Description

What is it? What happened? Why am I talking about it?

2. Interpretation

What is important and relevant? Look through your description and try to find words or phrases that require further exploration. Include the rationale for what was done or why it was done. Where there is controversy about what was done or found, provide the rationale and sources of evidence for both sides of the argument. How can it be explored and explained using contemporary theories?

3. Outcome

What have I learned from this? How will it influence my future work?

Please note that you must use the template provided on the MDWF13003 moodle page.

Literature and references

In this assessment, use at least 1 contemporary reference (<5 years) for each journal entry. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing or the Australian Association of Social Workers.

Requirements

- Each COCE woman must have their own individual journal in Word Document format.
- Each COCE woman must be de-identified within the journal.
- Each journal entry in the portfolio must adhere to the template provided on the MDWF13003 Moodle page
- Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 1.5 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers on each page in a footer.
- You may write in the first-person perspective.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online APA Referencing Style Guide.

Resources

- You can use unit provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
- We recommend that you access your discipline specific library guide: the Nursing and Midwifery Guide; Social Work and Community Services Guide.
- We recommend you use EndNote to manage your citations and reference list. More information on how to use EndNote is available at the CQUniversity Library website.
- For information on academic communication please go to the Academic Learning Centre Moodle site. The Academic Communication section has many helpful resources including information for students with English as a second language.

3 Professional Practice Placement

Assessment Type

Professional Practice Placement

Task Description

Assessment 3 – Professional Practice Placement

Type: Formative AMSAT, summative AMSAT & Record of Clinical Hours submission

Due date:

Formative AMSAT 2355 (AEST) **Friday 23rd December 2022** (Week 6)

Summative AMSAT & Record of Clinical hours 2355 (AEST) **Friday 17th Feb 2023** (Exam week)

Weighting: Pass/Fail

Length: No word count

Unit Coordinator: Rachelle Chee

Aim

The aim of this assessment is to aid you in consolidating your midwifery knowledge and the application of theory to practice for ensuring safe and effective care is received by the women and infants in your care. This assessment aims to provide you with the opportunity to demonstrate competent midwifery clinical practice that meets the requirements of the Nursing and Midwifery Board of Australia's Midwife Standards for Practice (2018).

Instructions

A minimum of 224 hours of clinical practice experience is required for the completion of this unit. This clinical experience will allow you to consolidate knowledge and skills acquired throughout the unit. You are required to meet the clinical requirements listed below and these requirements need to be documented within your Student Clinical Experience

Record Book. Please note that successful completion of this unit is not merely completing requisite clinical hours and skills but also demonstrating midwifery novice competency based upon the NMBA requirements and professional behaviour as per relevant CQUniversity policies.

Please follow the steps below to complete your assessment task:

1. Recruit four Continuity of Care Experience (COCE) women (in addition to those recruited in term 2) and attend episodes of antenatal care with the women. You may or may not have participated in the experience of your COCEs' births and postnatal care.
2. Complete 224 hours of clinical practice experience **plus** COCE hours.
3. Complete the term 3 formative AMSAT, summative AMSAT and the Record of Clinical Hours with your preceptor/facilitator/educator via the SONIA online platform by the specified due date.

Submission

Submit your Record of Continuity of Care Experiences to SONIA as a pdf. All other formats will be returned for resubmission.

Complete and submit your AMSATs and Record of Clinical Hours via the SONIA platform.

Marking Criteria

The required clinical experience will be reviewed by the midwifery educator/manager in conjunction with the unit coordinator.

Learning Outcomes Assessed

6. Demonstrate developing midwifery competence based upon the Nursing and Midwifery Board Australia (NMBA) Midwife Standards for Practice (2018) requirements

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
