Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE data

Feedback

The reflections in the current format are pointless. I suggest reflecting on a set number of clinical experiences per term. I think this would be more helpful to learning.

Recommendation

This comment refers to assessment tasks which require students to reflect on their continuity of care experiences in the Midwifery Practice 1, 2, 3, & 4 units. The students believe this task to be very demanding and they may thus benefit from the provision of further reflective writing resources or tutorials which provide instruction on how to complete this task with enhanced efficiency.
