## Term 1 - 2019

Profile information current as at 14/05/2024 08:21 pm

All details in this unit profile for MDWF13005 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

### General Information

#### Overview

This capstone unit will consolidate relevant knowledge and values acquired throughout the midwifery course thereby facilitating your transition to practicing as a midwife. You will evaluate the breadth and types of maternity services available and explore the role of the midwife in supporting a woman's informed choice. You will also learn the importance of continual professional development, for your own professional development and for the care you will provide to women and their families. This unit is to be undertaken in conjunction with Midwifery Practice 4.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

#### Offerings For Term 1 - 2019

- Online

#### Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

#### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Unit evaluation

##### Feedback

I enjoyed the blog posts. Having them fortnightly was also good and gave me enough time to contribute. I enjoyed the concept of this unit. The assessment tasks were good and I found the content interesting. The information provided to me will help me as a registered midwife. The availability of our course co-ordinator

##### Recommendation

Continue to provide interesting and relevant information and student support.

#### Feedback from Unit evaluation

##### Feedback

I frequently had trouble accessing the group discussion, which was an issue that was attempted to be fixed in the first few weeks of term. I was still able to access it however it was through a different pathway. There was difficulty accessing the information from the zoom sessions regarding the assessment tasks. There was no notification for the news forum. The clarity of essay questions compared to the rubric expectations I really struggled with the discussion forums. I just found them so subjective and not structured. They felt a little pointless to be honest, which resulted in me putting in minimal effort. I regret this to some degree based on my grades but I would much rather put in effort for an essay that helps me learn rather than banter about airy topics.

##### Recommendation

Improve the delivery of the online discussion and the support/direction for accessing the online discussion. Tighten up the wording of each weekly discussion topic and provide topics that are relevant and applicable to senior midwifery students who are preparing to enter into graduate employment.

## Unit Learning Outcomes

### On successful completion of this unit, you will be able to:

1. Evaluate the breadth and types of available maternity services .
2. Appraise the role of the midwife in supporting woman's informed choice.
3. Articulate the key values associated with a commitment to ongoing professional midwifery development.

### NMBA Midwife Standards for Practice

Standard 1: Promotes evidence-based maternal health and wellbeing.

Standard 2: Engages in respectful partnerships and professional relationships.

Standard 3: Demonstrates the capability and accountability for midwifery practice.

Standard 4: Undertakes comprehensive assessments.

Standard 5: Develops plans for midwifery practice.

Standard 6: Provides safe and quality midwifery practice.

Standard 7: Evaluates outcomes to improve midwifery practice.

## Assessment Tasks

### 1 MDWF13005 Transition to Autonomous Practice Assessment One: Online Group Discussion

#### Assessment Type

Group Discussion

#### Task Description

Task Description:

You are required to participate in an online group discussion via the Moodle subject discussion forum, which will be directed by the Unit Coordinator. The online activities will require you to participate in a group discussion on 3 (three) set weeks over the term that is based on topics in your study guide. Marks will be awarded as per the marking rubric. Give your professional opinion and write a discussion, using professional and academic dialogue that is supported by evidence. Each online submission is due by the Friday of that week at 11:45pm AEST.

The Online Discussion will occur on weeks: 3, 5 and 7

Individual online submission is due by the Friday of the corresponding week at 11:45pm AEST.

Length of Post/Discussion: 300-350 words

**Objectives:** This assessment relates to learning outcomes:

1. Evaluate the breadth and types of maternity services
2. Examine the role of the midwife in supporting woman's informed choice.
3. Demonstrate commitment to ongoing professional midwifery development

**Total weighting 30%**

**Week 3 Topic:** Midwives are regulated under legislation to complete 20 hours of Continuing Practice Development annually.

Comment on this requirement, acknowledging the variety of Midwifery practice settings in Australia and discuss how you plan to achieve this requirement to maintain your Midwifery registration each year.

**Week 5 Topic:** *"...supporting the physical recovery from pregnancy and birth, as well as the psychological, emotional and social changes that occur following birth and aid the transition into motherhood."*

Reference: Dixon, L. & Schmied, V. (2015). Supporting women becoming mothers. In Pairman, S., Pincombe, J., Thorogood, C & Tracy, S. Midwifery: Preparation for Practice, 3<sup>rd</sup> Edition, p. 730. Elsevier Australia.

Discuss the quote above, reflecting on your support and education of women and outline differences (if any) you have found in the care you provided to your continuity of care women compared to other women you have birthed.

**Week 7 Topic:** 'Documentation and record keeping are essential to record the provision of safe and effective care for women and their babies and are an integral part of midwifery practice... Documentation should occur at the time that care is provided. Notes written in retrospect should be identified as such'.

Reference: Midwifery Council, Te Tatau o te Whare Kahu, 2018, p1.

Comment on this quote, discussing the requirements of midwifery documentation and your ability to maintain accurate contemporaneous documentation of your Midwifery practice.

Contribution to the online group discussion is to add to the designated questions being posed in the study guide and to contribute to the discussion generated by your colleagues. Simply stating 'yes I agree with previous statements' will not be considered to be contributing to the discussion. If you are citing from other work in your post you will be required to reference this using APA 6<sup>th</sup> edition style.

Assessment Due Date: Each post will be due on the Friday of that week by 2355hrs AEST and final submission is due Week 10 on Friday the 24<sup>th</sup> of May 2019 by 11:55 PM AEST

The Unit Coordinator will collate your responses and complete the final submission.

Written Assessment

**Task Description**

**Objectives:** This assessment item relates to the Course Learning Outcomes:

1. Evaluate the breadth and types of maternity services
2. Examine the role of the midwife in supporting woman's informed choice

### 3. Demonstrate commitment to ongoing professional midwifery development

#### **Instructions to students:**

You are required to write an essay that demonstrates your understanding of the concepts learnt throughout this course. You are expected to use an academic approach to answer all components of this assessment. Using this approach, you will need to demonstrate that you have researched the relevant issues present. You are required to read widely and analyse the information that you gather, ensuring that it is applicable, evidence-based and up-to-date.

#### **Assessment: Essay**

'Midwifery care is centred on promoting and protecting birth as a normal physiological process. For most birthing women, the totality of their care falls within the scope of midwifery practice. There are occasions, however, when the complexity of a woman's experience may require that she also have some input from other midwifery colleagues or other healthcare professionals. (Miller and Dahlen, 2015 p. 429).

Discuss the above statement in relation to the transition to practice from a student midwife to a registered midwife working in a midwifery led continuity model of care.

#### **Your written essay needs to include a discussion that:**

- Includes an analysis of sustaining midwifery practice within a multidisciplinary collaborative team
- Incorporates the Nursing and Midwifery Board of Australia (NMBA): Midwifery Standards for Practice (2018) and the National Midwifery Guidelines for Consultation and Referral 3<sup>rd</sup> Edition, Issue2
- Underlines the requirement of professional accountability to incorporate and embed evidence into midwifery practice and how this may be achieved as a registered midwife providing continuity of care

#### **Assessment Criteria**

#### **Please Note:**

- A title page is required for this assignment - including your name, student number, due date, word count and coordinator's name.
- An introduction, conclusion and reference list is also required this assessment.
- A 10% leeway on either side of the word limit will be accepted. The word count will be measured from the first word of the introduction to the last word of the conclusion. The reference list is not included in the word count.
- It is an expectation that the references used will be recent journal articles, five years or less since publication and reference books are to be no older than ten years, unless seminal works. Correct referencing is to be utilised throughout the body of work.
- Referencing: American Psychological Association referencing style is a requirement. Poor referencing is unacceptable at this level of study.

- For more information on the APA referencing style please visit: CQUniversity Library site - click on students and then referencing.
- Plagiarism detection software - Turnitin will be utilised to evaluate assignments. Please refer to the course profile for further information regarding Turnitin.

**Specific expectations:** Before commencing the assessment you are required to read the marking criteria sheet for this assessment (see below)

For assessment extension requests - please go to the Assignment Extension Request tool bar on the MDWF20011 Moodle page.

Submission of the assessment is via Moodle, if you experience problems with submission, please contact the CQU helpdesk on (07) 493099233 or (toll free) on 1300 666.

### 3 MDWF13005 Transition to Autonomous Practice Written Assessment 3

**Assessment Type**

Written Assessment

**Task Description**

**Objectives:** This assessment item relates to learning outcomes:

1. Evaluate the breadth and types of maternity services
2. Examine the role of the midwife in supporting woman's informed choice.
3. Demonstrate commitment to ongoing professional midwifery development

**Instructions to students:**

You are required to write an essay that demonstrates your understanding of the concepts learnt throughout this course. You are expected to use an academic approach to answer all components of this assessment. Using this approach, you will need to demonstrate that you have researched the relevant issues present. You are required to read widely and analyse the information that you gather, ensuring that it is applicable, evidence-based and up-to-date.

**Assessment: Essay**

Consider the statement below in relation to your experience of providing continuity of care as a student midwife.

'There is substantial evidence that midwifery-provided continuity of care has beneficial effects on other outcomes, such as reduced anxiety, a greater sense of control, reduced use of drugs for pain relief in labour, reduced likelihood of the need for newborn resuscitation, and greater satisfaction with antenatal, intrapartum and postnatal care. (Grigg, 2015, p.566).

**Your written essay needs to include a discussion that:**

- Provides a reflection, using Bass's Holistic Reflection model (2017), on the perinatal outcomes for two women you cared for and discusses how your midwifery practice has evolved from your first continuity of care experience to your most recent.
- Provides examples where you have incorporated evidence into your practice within the continuity of care model
- Outlines the elements of professional relationship building between women and midwives and what you have learnt from this experience.

**Assessment Criteria****Please Note:**

- A title page is required for this assignment - including your name, student number, due date, word count and coordinator's name.
- An introduction, conclusion and reference list is also required this assessment.
- A 10% leeway on either side of the word limit will be accepted. The word count will be measured from the first word of the introduction to the last word of the conclusion. The reference list is not included in the word count.
- It is an expectation that the references used will be recent journal articles, five years or less since publication and reference books are to be no older than ten years, unless seminal works. Correct referencing is to be utilised throughout the body of work.
- Referencing: American Psychological Association referencing style is a requirement. Poor referencing is unacceptable at this level of study.
- For more information on the APA referencing style please visit: CQUniversity Library site - click on students and then referencing.
- Plagiarism detection software - Turnitin will be utilised to evaluate assignments. Please refer to the course profile for further information regarding Turnitin.

**Specific expectations:**

Before commencing the assessment you are required to read the marking criteria sheet for this assessment (see below)

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
