

MDWF13006 Midwifery Practice 4

Term 1 - 2024

Profile information current as at 13/05/2024 05:28 pm

All details in this unit profile for MDWF13006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This clinical placement unit is the final of four that provides you with midwifery clinical experience. In this capstone unit, you will be required to integrate and apply knowledge, concepts and skills learned throughout the course. The learning experiences will provide you with the opportunity to demonstrate your ability to practice at the level of a competent beginning midwife. The clinical practicum component of this unit will require you to complete a minimum of 224 hours in addition to Continuity of Care Experiences (COCE).

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2024

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Anonymous feedback provided to the student representative.

Feedback

Feedback was provided stating that university staff presence seemed more prominent at some sites and was absent at other sites.

Recommendation

Due to resource constraints, it is not possible to regularly attend rural sites which are considerably distant from the locations in which the course staff reside. The midwifery practice unit coordinators decided that moving forward, at the mid-point of each term, the unit coordinator will personally offer each student the opportunity to schedule a one-on-one Zoom meeting at a time that suits them.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate safe, effective, collaborative midwifery care and the use of digital health and emerging technologies at the level of a beginning registered midwife.
2. Critically reflect on clinical learning, midwifery practice, and continuity of care experiences (COCE) to enhance practice
3. Apply midwifery knowledge, cultural safety, and inclusivity to the care of Aboriginal and Torres Strait Islander women and their families
4. Demonstrate professional midwifery competence at the level of a graduate midwife based upon the Nursing and Midwifery Board Australia (NMBA) Midwife Standards for Practice (2018) requirements.

The proposed changes to learning outcomes and the unit will meet the following:

The draft ANMAC Midwifery Education Standards (2020).

Standard 1: Safety of the public.

Standard 3: Program of study.

Standard 4: Student experience.

Standard 5: Student assessment.

NMBA Midwife Standards for Practice (2018).

Task Description

MDWF13006

MIDWIFERY PRACTICE 4

Assessment 1 - Case study

Type: Case Study

Due date: 23:55 (AEST), Friday 5th April 2024 (Week 5)

Weighting: 40%

Length: 2000 words +/- 10% (excluding reference list)

Unit Coordinator: Rachelle Chee

Learning Outcomes Assessed

- Demonstrate safe, effective and collaborative midwifery care at the level of a beginning registered midwife.
- Apply midwifery knowledge, cultural safety, and inclusivity to the care of Aboriginal and Torres Strait Islander women and their families.

Aim

The aim of this assessment is for you to construct a woman-centred and culturally safe care plan for an Aboriginal woman who presents to a hospital for assessment and care.

Instructions

In this assessment, you are required to examine a fictional case study and construct a care plan for an Aboriginal woman who presents to the birth suite for assessment. You are required to assess the woman's current presentation and her pregnancy health record to construct a culturally safe midwifery care plan.

Please follow the steps below to complete your assessment task.

1. Access the case study "Kara Perry case study" and the associated file located on the MDWF13006 Moodle site in the tile 'Assessments'.
2. Provide a brief introduction outlining the aim of your assessment (approximately 200 words).
3. Describe and provide the rationale for your midwifery care plan for Kara (approximately 1000 words). Include clinical assessment and care, collaboration, and referral in your response.
4. Identify and discuss the ways that culturally safe midwifery and collaborative care should be provided to Kara for her current and future pregnancies (approximately 600 words).
5. Provide a concise conclusion summarising the main concepts in your assessment (approximately 200 words).

Literature and references

In this assessment use at least 10 contemporary references (<5 years) sourced from the CQUniversity library in this assessment to support your discussion. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing or the Australian Association of Social Workers. Websites such as Stat Pearls, Life in the Fastlane, and Wikipedia are unsuitable for this assessment task. Lecture notes are not suitable for this assessment task.

Requirements

- Use a conventional and legible size 12 font, such as Times New Roman, with 2.0 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers at the top right side of each page in a header.
- Write in the third-person perspective.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online APA Referencing Style Guide.
- The word count is considered from the first word of the introduction to the last word of the conclusion. The word count excludes the reference list but includes in-text references and direct quotations.

Resources

- You can use unit-provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
- We recommend that you access your discipline-specific library guide: the Nursing and Midwifery Guide
- You may like to manage your citations and reference list. Information on how to use academic referencing software (EndNote) is available at the CQUniversity Library website should you wish to learn how to use it.
- For information on academic communication please go to the Academic Learning Centre Moodle site. The Academic Communication section has many helpful resources including information for students with English as a second language.
- Submit a draft before the due date to review your Turnitin Similarity Score before making a final submission. Instructions are available here.

Submission

Submit your assessment via the unit Moodle site in Microsoft Word format only.

Marking Criteria

Refer to the marking rubric on the Moodle site for more detail on how marks will be assigned.

Assessment Due Date

Week 5 Friday (5 Apr 2024) 11:55 pm AEST

Please submit the assessment via the submission point on the MDWF13006 Moodle site.

MIDWIFERY PRACTICE 4

Assessment 2 – Portfolio

Type: Portfolio

Due date: 23:55 AEST, Friday 31st May 2024 (Week 12)

Weighting: 60%

Length: N/A. Each journal entry should be approximately 400 words, however, labour and birth reflections can be longer (approximately 600 words)

Unit Coordinator: Rachelle Chee

Learning Outcomes Assessed

1. Demonstrate safe, effective and collaborative midwifery care at the level of a beginning registered midwife.
2. Reflect on clinical learning, midwifery practice and continuity of care experiences (COCE) to enhance practice.

Aim

The aim of this assessment is to provide you with the opportunity to reflect on your practice of ten COCE women recruited in term 3.

Reflective practice is a key element that contributes to the Nurses and Midwives Board of Australia's Midwife Standards for Practice (2018). It is through reflective processes that both students and registered midwives can identify and explore diverse values, beliefs, learning needs, and sociocultural structures.

Instructions

To facilitate your reflective skill development, you are required to complete a reflective piece of writing for each of the COCE women you recruited in term 3. You must ensure that you have recruited enough COCE women to meet the required total of 10 complete COCEs by the end of the term.

A reflective journal is a way of thinking in a critical and analytical way about your clinical experience. It involves looking at a situation, assessing what you have learned from it, what you could have done differently, realising new approaches to your care, and ultimately, how you felt about the whole experience. As a student midwife, it shows how different aspects of your work interconnect and can be very useful for identifying gaps in knowledge and ethical dilemmas or situations that need further thought. Reflective writing is more personal than other kinds of academic writing and is an exploration of events not just a description of them.

Please use the framework below to structure each reflective journal entry. To keep consistency

1. Description

What is it? What happened? Why am I talking about it?

2. Interpretation

What is important and relevant? Look through your description and try to find words or phrases that require further exploration. Include the rationale for what was done or why it was done. Where there is controversy about what was done or found, provide the rationale and sources of evidence for both sides of the argument. How can it be explored and explained using contemporary theories?

3. Outcome

What have I learned from this? How will it influence my future work?

Please note that you must use the template provided on the MDWF13006 Moodle page.

Literature and references

In this assessment, use at least 1 contemporary reference (<5 years) for each journal entry sourced from the CQUniversity library in this assessment to support your reflection. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing or the Australian Association of Social Workers. Websites such as Stat Pearls, Life in the Fastlane, and Wikipedia are unsuitable for this assessment task. Lecture notes are not suitable for this assessment task.

Requirements

- Each COCE woman must have their own individual journal in Word Document format.
- Each COCE woman must be de-identified within the journal.

- Each journal entry in the portfolio must adhere to the template provided on the MDWF13006 Moodle page.
- Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 1.5 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers on each page in a footer.
- You may write in the first-person perspective.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online APA Referencing Style Guide.

Resources

- You can use unit-provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
- We recommend that you access your discipline-specific library guide: the Nursing and Midwifery Guide.
- You may like to manage your citations and reference list. 4. Demonstrate professional midwifery competence at the level of a graduate midwife based upon the Nursing and Midwifery Board Australia (NMBA) Midwife Standards for Practice (2018) requirements.

Aim

The aim of this assessment is to aid you in consolidating your midwifery knowledge and the application of theory to practice for ensuring safe and effective care is received by the women and infants in your care. This assessment aims to provide you with the opportunity to demonstrate competent midwifery clinical practice that meets the requirements of the Nursing and Midwifery Board of Australia's Midwife Standards for Practice (2018).

Instructions

A minimum of 224 hours of professional practice experience is required for the completion of this unit. This professional practice experience will allow you to consolidate knowledge and skills acquired throughout the unit. You are required to meet the clinical requirements listed below and these requirements need to be documented within your Student Clinical Experience Record Book. Please note that successful completion of this unit is not merely completing requisite clinical hours and skills but also demonstrating midwifery novice competency based upon the NMBA requirements and professional behaviour as per relevant CQUniversity policies.

Please follow the steps below to complete your assessment task:

1. Complete all requirements for your remaining Continuity of Care Experience (COCE) women.
2. Complete 224 hours of professional practice experience plus COCE hours.
3. Complete the term 4 formative AMSAT, summative AMSAT, and the Record of Clinical Hours with your preceptor/facilitator/educator via the SONIA online platform by the specified due date.
4. Schedule an appointment with your preceptor/facilitator/educator to complete the Total hours of experience gained (page 134), Total mandatory experiences gained (page 135), and the End of course declaration of competence form (page 136) in the Student Clinical Experience Record Book.

Submission

Submit your Record of Continuity of Care Experiences to SONIA as a pdf. All other formats will be returned for resubmission.

Complete and submit your AMSATs and Record of Clinical Hours via the SONIA platform.

Scan and submit the Total hours of experience gained, Total mandatory experiences gained, and the End of course declaration of competence form to the Moodle submission point.

Marking Criteria

The required professional practice experience will be reviewed by the midwifery educator/manager in conjunction with the unit coordinator.

Assessment Due Date

Please access and complete your documents via the sonia platform.

Return Date to Students

Verification of documents will be completed 2 weeks following the due date.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
