MEDI12006 *Imaging Procedures 2* Term 2 - 2026

Profile information current as at 05/12/2025 01:26 pm

All details in this unit profile for MEDI12006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Imaging Procedures 2 will build upon your foundation knowledge and skills developed in Imaging Procedures 1. On completion of this unit, you will be able to perform routine radiographic examinations of all regions of the body on an ambulant adult. You will demonstrate high levels of patient care and radiation safety. You will expand your image evaluation skills to encompass all regions of the body enabling you to assess radiographs for quality and to determine if an image is diagnostic. You will apply your understanding of the relationship between the beam, patient and image receptor and how it impacts on image appearance to determine strategies to improve imaging outcomes for all regions of the body. You will develop your skills as a reflective practitioner, to gain greater self-awareness and make progress toward a self-directed continued professional development habit. You will be introduced to additional areas of radiographic practice, including mammography, bone mineral densitometry and dental imaging. This unit includes a large element of clinical simulation to enhance readiness for clinical placement.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback.

Feedback

Use of 2 minute warning timer in practical assessments was appreciated and helped students manage their time.

Recommendation

Investigate the feasibility of including a 2 minute warning timer for all practical assessments.

Feedback from Staff observation.

Feedback

Students were not utilising the full 1.5 hours of weekly independent practice labs, with some students leaving after as little as 30 minutes.

Recommendation

Reiterate to students the importance of the weekly independent practice labs to consolidate learning and to prepare for practical assessment tasks.

Feedback from Student feedback, Unit Coordinator reflection.

Feedback

Some students did not appear to understand the accreditation requirements within assessment tasks.

Recommendation

Emphasise to the students that the assessment tasks are aligned with the professional standards set by the registration body as part of accreditation requirements.
