General Information

Overview

In your final year of study, you are transitioning from student to independent practitioner. Nearing completion of your tertiary studies to begin a career in your selected profession is a huge learning milestone. This transition phase of your learning journey is also a starting point for another learning journey, that is your continuing development as a professional. To support your transition, you will critically reflect on your progress in developing the knowledge, skills and judgement to meet the national registering body's Professional Capabilities and on your clinical practice in adhering to the Shared Code of Conduct of registered health professionals. You will apply clinical decision-making, evidence-based practice and risk management to the analysis and discussion of clinical incidents and near misses. You will further develop your ability to advance your profession through peer support and education.
