

MEDI14005 *Medical Imaging Clinical Practicum*

Term 1 - 2024

Profile information current as at 15/05/2024 01:48 am

All details in this unit profile for MEDI14005 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This is the capstone unit of the Bachelor of Medical Imaging course. In this unit you will consolidate your technical and behavioural skills to practice holistically as a radiographer. You will demonstrate the ability to work both autonomously and as an effective team member across a range of work environments and procedure areas, operating at the level expected for entry to practice as a registered practitioner.

Details

Career Level: *Undergraduate*

Unit Level: *Level 4*

Credit Points: 24

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.5

Pre-requisites or Co-requisites

Pre-requisites: MEDI14006 Medical Imaging Clinical Placement 4 MEDI14001 Transition to Independent Practice

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2024

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 24-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 50 hours of study per week, making a total of 600 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Professional Practice Placement**

Weighting: Pass/Fail

2. **Learning logs / diaries / Journal / log books**

Weighting: Pass/Fail

3. **Practical Assessment**

Weighting: Pass/Fail

4. **Practical Assessment**

Weighting: Pass/Fail

5. **Practical Assessment**

Weighting: Pass/Fail

6. **Reflective Practice Assignment**

Weighting: Pass/Fail

Assessment Grading

This is a pass/fail (non-graded) unit. To pass the unit, you must pass all of the individual assessment tasks shown in the table above.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator reflection

Feedback

New assessment criteria (in Assessment 2 and Assessment 5) reduced the number of assessments being returned to students due to inaccuracies or incompleteness. This allowed for more efficient marking and timely feedback to students.

Recommendation

Continue to include the new assessment criteria for Assessments 2 and 5 in future offerings to support efficient marking and timely feedback to students.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Behave professionally using appropriate interpersonal skills in accordance with CQUniversity's graduate attributes and the profession's Code of Conduct
2. Practice in a safe manner with regards to yourself, patients and others
3. Employ sound clinical reasoning and critical reflection to practice
4. Operate as an effective Medical Imaging team member, including accepting autonomy where granted
5. Plan and perform imaging examinations effectively and efficiently whilst ensuring the needs of the patients are met
6. Achieve entry to practice technical proficiency in general radiography and two other core areas of practice.

This unit is mapped to the Medical Radiation Practice Board of Australia's Professional Capabilities for medical radiation practitioners:

- Domain 1: Medical radiation practitioner: capabilities 1, 2, 4, 5, 6, 7, 8
- Domain 1A: Diagnostic radiographer: capabilities 1, 2, 3
- Domain 2: Professional and ethical practitioner: capabilities 1, 2, 3, 4
- Domain 3: Communicator and collaborator: capabilities 1, 2
- Domain 4: Evidence-informed practitioner: capabilities 1, 2
- Domain 5: Radiation safety and risk manager: capabilities 1, 2, 3, 4

Schedule

Week 1 of Clinical Placement - 22 Apr 2024

Module/Topic	Chapter	Events and Submissions/Topic
Standard start date for MEDI14005 is Monday 22nd April 2024.		
Clinical Placement Week 1 - Week beginning 22nd April.		Complete Week 1 logbook.

Week 2 of Clinical Placement - 29 Apr 2024

Module/Topic	Chapter	Events and Submissions/Topic
Clinical Placement Week 2 - Week beginning 29th April.		Complete Week 2 logbook and upload within 3 days of the last rostered shift for the week.

Week 3 of Clinical Placement - 06 May 2024

Module/Topic	Chapter	Events and Submissions/Topic
Clinical Placement Week 3 - Week beginning 6th May.		Complete Week 3 logbook.

Week 4 of Clinical Placement - 13 May 2024

Module/Topic	Chapter	Events and Submissions/Topic
Clinical Placement Week 4 - Week beginning 13th May.		First GAPA to be uploaded within 3 days of the last rostered shift for the week. Complete Week 4 logbook and upload within 3 days of the last rostered shift for the week.

Week 5 of Clinical Placement - 20 May 2024

Module/Topic	Chapter	Events and Submissions/Topic
Clinical Placement Week 5 - Week beginning 20th May.		Complete Week 5 logbook.

Week 6 of Clinical Placement - 27 May 2024

Module/Topic	Chapter	Events and Submissions/Topic
Clinical Placement Week 6 - Week beginning 27th May.		Complete Week 6 logbook and upload within 3 days of the last rostered shift for the week.

Week 7 of Clinical Placement - 03 Jun 2024

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Clinical Placement Week 7 - Week beginning 3rd June.

Complete Week 7 logbook.

First reflection to be uploaded by 4pm AEST Monday of Week 7.

Week 8 of Clinical Placement - 10 Jun 2024

Module/Topic **Chapter**

Events and Submissions/Topic

Clinical Placement Week 8 - Week beginning 10th June.

Second GAPA to be uploaded within 3 days of the last rostered shift for the week.

Complete Week 8 logbook and upload within 3 days of the last rostered shift for the week.

First Holistic Assessment in General Radiography to be uploaded within 3 days of the last rostered shift for the week.

Week 9 of Clinical Placement - 17 Jun 2024

Module/Topic **Chapter**

Events and Submissions/Topic

Clinical Placement Week 9 - Week beginning 17th June.

Complete Week 9 logbook.

Week 10 of Clinical Placement - 24 Jun 2024

Module/Topic **Chapter**

Events and Submissions/Topic

Clinical Placement Week 10 - Week beginning 24th June.

Complete Week 10 logbook and upload within 3 days of the last rostered shift for the week.

Week 11 of Clinical Placement - 01 Jul 2024

Module/Topic **Chapter**

Events and Submissions/Topic

Clinical Placement Week 11 - Week beginning 1st July.

Complete Week 11 logbook.

Second reflection to be uploaded by 4pm AEST Monday of Week 11.

Week 12 of Clinical Placement - 08 Jul 2024

Module/Topic **Chapter**

Events and Submissions/Topic

Clinical Placement Week 12 - Week beginning 8th July.

Third GAPA assessment to be uploaded within 3 days of the last rostered shift for the week.

Complete Week 12 logbook and upload within 3 days of the last rostered shift for the week.

Week 13 of Clinical Placement - 15 Jul 2024

Module/Topic **Chapter**

Events and Submissions/Topic

Clinical Placement Week 13 - Week beginning 15th July.

Complete Week 13 logbook.

Week 14 of Clinical Placement - 22 Jul 2024

Module/Topic **Chapter**

Events and Submissions/Topic

Clinical Placement Week 14 - Week beginning 22th July.

Complete Week 14 logbook and upload within 3 days of the last rostered shift for the week.

Week 15 of Clinical Placement - 29 Jul 2024

Module/Topic **Chapter**

Events and Submissions/Topic

Clinical Placement Week 15 - Week beginning 29th July.

Complete Week 15 logbook.

Week 16 of Clinical Placement - 05 Aug 2024

Module/Topic	Chapter	Events and Submissions/Topic
Clinical Placement Week 16 - Week beginning 5th August.		<p>Final GAPA assessment to be uploaded within 3 days of the last rostered shift for the week.</p> <p>Complete Week 16 logbook and upload within 3 days of the last rostered shift for the week.</p> <p>Final Holistic Assessment in General Radiography to be uploaded within 3 days of the last rostered shift for the week.</p>

Week 17 of Clinical Placement - 12 Aug 2024

Module/Topic	Chapter	Events and Submissions/Topic
Clinical Placement Week 17 - Week beginning 12th August.		<p>If required, complete Week 17 logbook and upload within 3 days of the last rostered shift for the week.</p>

Term Specific Information

This unit is a 16 week full-time clinical placement with 5 leave days, commencing on Monday 22nd April 2024, which is Week 7 of the standard Term 1 calendar. Full attendance of this clinical placement is 16 weeks. Some students may have placement start/end dates that differ from the standard scheduled start/end dates of the placement.

You will have been allocated a specific clinical site (or sites) to attend for the placement. The clinical site/s will provide the range and quantity of imaging procedures to support your achievement of the unit requirements. You will be rostered by your clinical supervisor to attend at a variety of shift times and in a variety of work areas within the site/s. During this placement student rosters may not be standard Monday – Friday, but may include evening and night shifts, weekend work, compressed weekly rosters and scheduled leave days. Because of these factors, assessment due dates are expressed relative to the individual student's roster and week of placement, not expressed in calendar days.

You will require regular computer and internet access, use of Microsoft office software and document scanning technology in order to complete assessment requirements. Clinical sites do not provide computer or internet access, so it is your responsibility to provide your own and ensure the regular access needed to upload your assessment files by the submission due dates.

Regular feedback will be provided by the unit coordinator and other academic support staff throughout the duration of the clinical placement. Please use the Q&A and Discussion Forums to keep in touch and if required, you can directly contact the unit coordinator via email or phone, or you may request a Zoom meeting in any week to discuss your progress.

The Unit Coordinator for this clinical placement unit is - Lauren MacDonald. The preferred method of contact is via email - l.macdonald@cqu.edu.au. Alternatively contact can be via phone - (07) 49407818.

Assessment Tasks

1 Assessment 1 - Placement Attendance

Assessment Type

Professional Practice Placement

Task Description

Staff workplace attendance and the ability to participate in rosters are critical to the success and morale of a medical imaging team, and therefore the quality of patient care provided by that team.

This unit is part of a professionally accredited course with significant Work Integrated Learning components. For this unit you must attend 16 weeks of full-time clinical placement or the equivalent number of days through an approved

alternative scheduling arrangement. The placement location(s) and timing have been arranged by the course in order to provide sufficient learning and assessment opportunities for you to meet the unit learning outcomes.

Your rostering, including daily start and end times, is determined by the clinical supervisor of the allocated placement site. The roster depends on the scheduling of imaging procedures that are relevant to your educational requirements, the typical hours of operation of the clinical facility and availability of sufficient supervision. You should not expect the roster to be modified to suit your personal life.

You are required to achieve 100% attendance. This is defined as attending all hours relative to the quantity of time that you have been rostered by your clinical supervisor to achieve 16 weeks of full-time placement, minus any absence that is **approved by both your clinical supervisor and unit coordinator**. You are not required to attend on any public holidays that fall within your rostered weeks, nor are you required to make up those days. You are not permitted to work extra shifts back to back in order to reduce the duration of the clinical placement.

If you need to be absent for a part or full day of placement, you must inform both your clinical supervisor and unit coordinator as soon as possible, preferably in advance of the missed time. There are **five (5) allocated personal leave days** during this placement. You have the flexibility to use the five personal leave days as a single week-long block or as a combination of single or multiple days. If you use any leave days in Weeks 1-16, then you will attend into your 17th scheduled week. If you have not used any leave in Weeks 1-16, then Week 16 is your final week of the placement. Personal leave days may only be taken with the explicit approval of your clinical supervisor, and any leave days taken will add to the length of your clinical placement. Your personal leave days must be used for missed time due to illness, injury, caregiver responsibilities or other personal reasons for missing placement. Use the leave application form on the unit Moodle site to seek the approval of your clinical supervisor and upload the completed form to Moodle.

All unapproved absences must be made up. Any time to be made up is to be scheduled at the convenience of the clinical site. This may result in extension of the work day or work week. Note that not all facilities have extended hours of operation, so opportunities to make up time are site-dependent. If you attend outside of your normally rostered hours (eg. late day, evening or weekend), you must still be under direct supervision and working within your scope of practice, and the caseload anticipated by your supervisor must be such that the time would provide useful learning experience.

For any time missed beyond the five personal leave days, you may apply for special consideration of the missed time to the unit coordinator by providing supporting documentation. This may impact the quantity of time you are required to make up. Note that only in exceptional circumstances will any missed time be waived.

You will document your attendance relative to your rostered time each week in the weekly logbook file. The record must be accurate and complete. You must include any episodes of absence including scheduled leave days, lateness or early departure in the comments section.

Assessment Due Date

Document weekly attendance in log book and upload within 3 calendar days of the last rostered shift of every second week of placement.

Return Date to Students

Weekly attendance will be reviewed by the unit coordinator, who will follow up within 5 working days of the log upload on any absences or incomplete attendance records.

Weighting

Pass/Fail

Minimum mark or grade

Pass

Assessment Criteria

To obtain a score of 'Pass' for this assessment, you must:

- complete 100% attendance as defined above,
- have documented all attendance accurately and completely in your weekly log, and
- have submitted your log book within 3 days of the last rostered shift of every second week of the placement.

At the end of the scheduled 17 weeks of placement, if you have not met the 100% attendance requirement (16 weeks) AND you have documented, justifiable grounds for your absence, you will be provided additional scheduled time to make up the time you have missed. This scheduled make up time may not be immediately following the scheduled placement,

and/or may not be at the same placement site, depending on clinical availability.

At the end of the scheduled 17 weeks of placement, if you have not met the 100% attendance requirement (16 weeks) AND you do not have documented justifiable grounds for the absence, you will score a 'Fail' for this assessment item.

Submission

Online

Learning Outcomes Assessed

- Behave professionally using appropriate interpersonal skills in accordance with CQUniversity's graduate attributes and the profession's Code of Conduct
- Operate as an effective Medical Imaging team member, including accepting autonomy where granted
- Plan and perform imaging examinations effectively and efficiently whilst ensuring the needs of the patients are met
- Achieve entry to practice technical proficiency in general radiography and two other core areas of practice.

2 Assessment 2 - Clinical Logbook

Assessment Type

Learning logs / diaries / Journal / log books

Task Description

The clinical logbook serves as a record of your depth and breadth of experience attained during the placement and will be a useful tool as you apply for employment. It demonstrates the degree of progression of your skill development within and across procedure types. You should use this record to inform your reflection on learning and in formulating weekly learning goals that will support achievement of the unit learning outcomes.

You must record in the electronic log tool (the Excel spreadsheet file provided on the unit Moodle site) a weekly listing of every imaging procedure in which you participate. Your level of involvement in each procedure is to be categorised as observed, assisted or performed, using the definitions provided. There are no minimum or maximum target numbers for any category of involvement, nor are there target numbers for any examination type.

- **Observed:** You have watched the radiographer(s) carry out the procedure, and your involvement in the case has been limited to an occasional task directly assigned by someone else.
- **Assisted in:** You have been an integral member of the imaging team that is led by a radiographer, and you have carried out many tasks to support the completion of the procedure. You may have carried out all imaging tasks but were provided significant guidance and direction by your supervising radiographer.
- **Performed:** You have planned and carried out the imaging procedure with occasional guidance, assistance and/or direction provided by your supervising radiographer.

For general radiographic procedures, you must also categorise the patient by type:

- **Basic:** The patient has no significant limitation in their ability to carry out your instructions, and procedure involves only standard views/projections that do not require significant customisation to the patient's condition.
- **Complex:** The patient's condition is such that you must significantly modify your approach (patient care and/or technical tasks) to carrying out the procedure relative to the requirements for a 'basic' patient. This includes patients with minor traumatic injuries.
- **Paediatric:** The patient is a child who is young enough to require you to modify your approach (patient care and/or technical tasks) to carrying out the procedure relative to a 'basic' patient.
- **Trauma:** The patient has major traumatic injury/injuries requiring significant modification to your approach (patient care and/or technical tasks).

All procedure information is to be recorded in such a way as to maintain patient confidentiality.

You must also log other clinical learning activities. This includes facility induction and orientation, any meetings, image critique sessions or other feedback/learning activities with your clinical supervisor or other clinical educator. If you are attending a different facility to the one that you attended for MEDI14006, the facility induction and orientation must be completed by your second day of placement and logged in your logbook. If you have not completed a site

induction/orientation by the end of the second day of placement, see your clinical educator/site supervisor and contact your unit coordinator to advise.

In addition to noting imaging procedures and holistic assessments, your logbook must have a minimum of 3 notation entries each week. This could include documentation of other clinical learning activities or explanation of types of x-rays, scans, patients, scenarios or helpful tips that you encountered throughout the week.

The weekly log is a multi-sheet Excel workbook with built-in calculations to track your progress during the unit. You must follow the log instructions provided on the unit Moodle site and within the log in order to ensure that tracking calculations are correct. You must use Microsoft Excel for data entry and save the file in its native Excel file format. This same master file must be updated weekly, so that each submission is a cumulative record of all weeks containing a running tally of examinations and assessments.

Even though you will be recording your weekly attendance and imaging examinations under the relevant week within the logbook, you will only be required to upload the logbook fortnightly, within 3 calendar days of the last rostered shift of every second week of placement.

It is your responsibility to ensure that you have regular access to the technology needed to complete the spreadsheet each week. If you have a technical issue or personal circumstances that prevents you from being able to accurately complete and upload your file by the standard due dates, you MUST inform your unit coordinator by the due date and provide just cause. If you miss the due date more than twice without just cause, OR if your logbook is returned to you for correction due to inaccuracies or incompleteness more than twice, you will fail this assessment task.

Assessment Due Date

Logbook must be uploaded to the unit Moodle site within 3 calendar days of the last rostered shift of every second week of placement.

Return Date to Students

The unit coordinator will follow up within 5 working days of upload for any log entries that require further information or discuss any areas of concern.

Weighting

Pass/Fail

Minimum mark or grade

Pass

Assessment Criteria

The logbook is graded on a Pass/Fail basis. The logbook is assessed for accuracy and completeness of information entered and on timeliness of submissions.

Should any week's upload have noticeable gaps, errors or omissions, you will be given one week to correct and resubmit the week's log.

To obtain a score of 'Pass' for this assessment, you must:

- ensure that your logbook is complete and accurate in regards to your attendance, your participation in imaging examinations, assessments you have attempted, as well as supervisor meetings and/or other educational activities,
- ensure the integrity of the file format of the logbook is maintained, and
- meet the stated standards of documentation completeness and timeliness, such that you have no more than two incidents in total of incompleteness or lateness.

Submission

Online

Learning Outcomes Assessed

- Behave professionally using appropriate interpersonal skills in accordance with CQUniversity's graduate attributes and the profession's Code of Conduct

- Employ sound clinical reasoning and critical reflection to practice
- Operate as an effective Medical Imaging team member, including accepting autonomy where granted
- Achieve entry to practice technical proficiency in general radiography and two other core areas of practice.

3 Assessment 3 - Holistic Assessment in Other Procedure Area

Assessment Type

Practical Assessment

Task Description

At this stage in your professional education, as a close-to-graduating radiographer, your performance should be consistent and holistic in nature, taking into account the needs of the patient and the wider care team.

During this practicum, you are required to attain entry-to-practice skills in two (2) additional areas within the scope of practice of a general radiographer. These can be any two (2) from the list below, according to what is available at the facility you are attending for the practicum. You will need to consult with your clinical supervisor to determine two (2) suitable areas of practice and to arrange your roster to attain several weeks of experience in each.

Areas of practice:

- Basic computed tomography including contrast examinations, but not including angiography examinations
- Basic fluoroscopic guidance procedures, not including theatre imaging
- Imaging procedures that require a team approach and complex imaging requirements (this may include, but is not limited to, the resuscitation area, major trauma, or highly involved patient needs)
- Theatre fluoroscopic imaging
- Interventional radiography
- Mammography

If there are extenuating circumstances at the clinical facility that limit your ability to access imaging procedures to undergo assessments, then you must discuss this with your clinical supervisor AND contact the unit coordinator in a timely manner.

These assessments are designed to offer an overview of your performance over time rather than the "snapshot" performance assessments used in previous clinical units.

You must achieve a level of "competent" in both areas of practice. If any area of practice falls below this level, you must complete a remediation plan detailing how you intend to improve your performance in the required area/s. This remediation plan must be submitted to and approved by your clinical supervisor and unit coordinator within one calendar week of the assessment.

You are strongly advised to complete both of these assessments by Week 12 in order to allow time for the development, approval and implementation of a remediation plan if needed. Within the remaining 3 weeks of your clinical placement, the area/s of practice in need of remediation must be re-assessed.

You must ensure that each completed assessment form has **all required information**, including the name, dated signature and MRPBA registration number of your assessor, as well as your dated signature. (Note that both your signature and your assessor's signature must be done on a hard copy document. Digital signatures are not accepted.) If you submit an incomplete form, you will be provided with feedback and will need to resubmit the completed form within one week. This is the case whether you have passed or failed the assessment.

If a radiographer other than your clinical supervisor completes the assessment, it is your responsibility to ensure that your supervisor knows the outcome of each attempted assessment and that they are provided with the original of the completed assessment form. Your supervisor will provide you with a copy of the completed assessment form. You will then scan it and upload each form into the unit Moodle site using the link provided. The form for each assessment, whether passed or not, must be uploaded into Moodle.

You are required to log these assessments in Section 4 of your relevant weekly logs, including the procedure type, assessment date and a brief summary of the assessment feedback.

This is a pass/fail assessment item. In the absence of an approved assessment extension, if you have not met all of the minimum criteria for achieving a score of 'Pass' on this assessment, you will receive a Fail grade for the unit.

Assessment Due Date

Each completed assessment form must be uploaded within 3 days of the last rostered shift of the week in which the assessment was done. The final date for completing and submitting all forms is Tuesday of the last week of placement.

Return Date to Students

The unit coordinator will review the uploaded assessment forms and provide feedback within 5 working days of submission of each item.

Weighting

Pass/Fail

Minimum mark or grade

Pass

Assessment Criteria

The Holistic Assessment in Other Procedure Area assesses the attributes required to perform imaging tasks in two different areas of practice, as listed in Task Description, beyond general x-ray imaging throughout your final clinical placement.

The assessor will score your observed holistic performance of listed attributes for each different area of practice using the scores of: progressing; consolidating; competent; independent practitioner. The score descriptors and attributes are detailed on the assessment form.

Attributes assessed:

- Team-work
- Degree of independence in completing routine tasks
- Clinical reasoning
- Effective imaging procedural knowledge and skill
- Protocol use
- Image evaluation
- Patient care
- Ability to use time efficiently
- Logical work-flow.

To obtain a score of 'Pass' in this assessment, you must:

- complete 2 holistic assessments in other procedure areas as detailed in the Task Description and the Assessment Criteria,
- ensure the documentation of each completed assessment form is complete as detailed in the Task Description above,
- upload each assessment form within 3 days of the last rostered shift of the week in which the assessment was completed, and
- attain a minimum score of "competent" in all attributes in both of your assessments.

Learning Outcomes Assessed

- Behave professionally using appropriate interpersonal skills in accordance with CQUniversity's graduate attributes and the profession's Code of Conduct
- Practice in a safe manner with regards to yourself, patients and others
- Employ sound clinical reasoning and critical reflection to practice
- Operate as an effective Medical Imaging team member, including accepting autonomy where granted
- Plan and perform imaging examinations effectively and efficiently whilst ensuring the needs of the patients are met
- Achieve entry to practice technical proficiency in general radiography and two other core areas of practice.

4 Assessment 4 - Holistic Assessment in General Radiography

Assessment Type

Practical Assessment

Task Description

At this stage in your professional education, as a close-to-graduating radiographer, your performance should be consistent and holistic in nature, taking into account the needs of the patient and the wider care team.

At weeks 8 and 16 of your placement, your clinical supervisor, or a supervising radiographer who has been delegated this role, will assess your holistic performance in general imaging examinations using the assessment form provided on the unit Moodle site.

These assessments are designed to offer an overview of your performance over time rather than the "snapshot" performance assessments used in previous clinical units.

At week 8 - You should achieve a minimum level of "competent" in all attributes. If any attributes fall below the required level, you must complete a remediation plan detailing how you intend to improve your performance in the required attribute/s. This remediation plan must be submitted and approved by both your clinical supervisor and the unit coordinator by the end of week 10. During week 12, the attribute/s in need of remediation must be re-assessed.

The assessments in week 8 and 12 (if required) are formative but you should aim for a level of "competent" if you are to succeed in the final summative assessment in week 16.

At week 16 - In order to successfully complete this unit, you must demonstrate all marking rubric attributes as "competent" or higher.

You need to ensure that each completed assessment form has **all required information** including the name, dated signature and MRPBA registration number of your assessor, as well as your dated signature. (Note that both your signature and your assessor's signature must be done on a hard copy document. Digital signatures are not accepted.) If you submit an incomplete form, you will be provided with feedback and will need to resubmit the completed form within one week. This is the case whether you have passed or failed the assessment.

If a radiographer other than your clinical supervisor completes the assessment, it is your responsibility to ensure that your supervisor knows the outcome of each attempted assessment and that they are provided with the original of the completed assessment form. Your supervisor will provide you with a copy of the completed assessment form. You will then scan it and upload each form into the unit Moodle site using the link provided. The form for each assessment, whether passed or not, must be uploaded into Moodle.

You are required to log these assessments in Section 4 of your relevant weekly logs, including the assessment date and a brief summary, plus the overall score of each assessment.

This is a pass/fail assessment item. In the absence of an approved assessment extension, if you have not met all of the minimum criteria for achieving a score of 'Pass' on this assessment, you will receive a Fail grade for the unit.

Assessment Due Date

Each completed assessment form must be uploaded within 3 days of the last rostered shift of the week in which the assessment was completed.

Return Date to Students

The unit coordinator will review the uploaded assessment forms and provide feedback within 5 working days of submission of each item.

Weighting

Assessment Criteria

The Holistic Assessment in General Radiography assesses the attributes required to perform general x-ray imaging tasks throughout your final clinical placement.

The assessor will score your observed holistic performance of listed attributes using the scores of: progressing; consolidating; competent; independent practitioner. The score descriptors and attributes are detailed on the assessment form.

Attributes assessed:

- Degree of independence when performing routine imaging examinations
- Clinical reasoning
- Protocol use
- Effective general imaging knowledge and skill
- Image evaluation
- Patient care
- Time efficiency during imaging
- Logical work-flow.

To obtain a score of 'Pass' for this assessment you must:

- ensure the documentation of each completed assessment form is complete as detailed in the Task Description above,
- upload each assessment form within 3 days of the last rostered shift of the week in which the assessment was completed, and
- attain a minimum score of "competent" in all attributes for the assessment completed in week 16.

Submission

Online

Learning Outcomes Assessed

- Behave professionally using appropriate interpersonal skills in accordance with CQUniversity's graduate attributes and the profession's Code of Conduct
- Practice in a safe manner with regards to yourself, patients and others
- Employ sound clinical reasoning and critical reflection to practice
- Operate as an effective Medical Imaging team member, including accepting autonomy where granted
- Plan and perform imaging examinations effectively and efficiently whilst ensuring the needs of the patients are met
- Achieve entry to practice technical proficiency in general radiography and two other core areas of practice.

5 Assessment 5 - Global Assessment of Professional Attributes

Assessment Type

Practical Assessment

Task Description

Clinical placement occurs in the professional workplace. As a clinical student, you are provided access to that workplace on the condition that you demonstrate behaviours and attributes of a healthcare professional, present a positive image to the clinical facility's staff and clients and comply with the site's policies. As a student in a regulated healthcare profession in Australia, you are also required to be working towards consistent compliance with the Professions' Code of Conduct. As a CQUniversity student you must also meet the General Behavioural Requirements of the Student Behavioural Misconduct Procedure and refrain from Misconduct as described in that Procedure.

Assessment Process:

Your clinical supervisor will be working in the imaging areas with you, directly observing your day to day performance, and/or obtaining feedback from supervising radiographers who are doing so. These observations and collected feedback relate to your demonstrated knowledge, skills and behaviour over a span of time. This is not limited to a particular procedure or patient case. The observations and feedback are then used to complete the Global Assessment of Professional Attributes (GAPA) form provided on the unit Moodle site.

There are 4 main sections to the GAPA form:

- Section 1: initiative and communication
- Section 2: responsibility and demeanour
- Section 3: overall technical knowledge and skill
- Section 4: adherence to site policies

In each section, there are multiple observable behaviours that are required. For most behaviours, it is expected that you are aiming toward consistent performance but are still developing toward entry to practice level. These behaviours are categorised as non-critical.

There is one critical behaviour: adhering to site policies. It is expected that all students, right from their first placement, are capable of full and ongoing compliance with site policies. This critical behaviour 'Adheres to site policies regarding privacy, confidentiality, use of mobile devices and use of social media' is scored separately using the following scale:

- Full compliance
- One incident of non-compliance
- More than one incident of non-compliance

A student who is non-compliant on a single occasion will receive a warning from the supervising radiographer or clinical supervisor. This incident will be considered behavioural misconduct. This warning may be issued initially in verbal form or in writing. The clinical supervisor will inform the unit coordinator (UC) of the situation. The Head of Course will then lodge a formal report of behavioural misconduct. This will be addressed separately from the scoring of the GAPA.

Any student who violates site policy more than once during a placement unit (whether violation of the same or a different policy as previously) will fail the GAPA. This will result in a Fail grade for the unit. This repeated behaviour is considered Serious Misconduct and thus will also be dealt with under the procedure of the Student Behavioural Misconduct.

Your assessor will score your performance based on how frequently and to what extent you demonstrate each of the listed behaviours. Your assessor is also encouraged to provide comments to expand on the scoring feedback. Your clinical supervisor (or designated assessor) will meet with you after completing each assessment to discuss it with you. This is your opportunity to get clarification on any score or comment on the assessment.

Timing of Assessment:

This assessment occurs four times during the placement. The first occurs at the end of Week 4, the second at the end of Week 8, and the third at the end of Week 12. The fourth and final GAPA assessment occurs toward the end of Week 16 (or the final week of your placement).

It is your responsibility to ensure that you remind your clinical supervisor at least a week prior to the assessment that it needs to be done and book a meeting with them toward the end of the week that the assessment is due. This gives your supervisor the opportunity to collect feedback and to designate an alternate assessor if they will not be available.

Formative and Summative Use of the GAPA assessment:

The first three GAPAs are formative, meaning their function is to provide you and your unit coordinator with formal documented feedback on your performance, but there are no minimum required scores related to your final grade for Section 1, 2 and 3. You are expected to use that feedback to reflect on your performance, develop an action plan to address any areas of performance that are not yet at the target level for this placement, and use the remaining weeks to achieve those targets. For any behaviour that you score well on for these initial GAPAs, it is expected that you will continue to meet that level of performance or surpass it for the remainder of the placement.

The end-of-placement GAPA is summative, in that its primary use is to evaluate and document your performance relative to the stated performance targets (the minimum required scores listed in the Assessment Criteria section below). Your final overall score in this assessment depends on where you stand relative to those performance targets.

Self-assessment:

For all GAPAs, prior to meeting with your supervisor, you must also use the assessment tool to self-assess your behaviours. Complete the form and take it with you to your meeting with your supervisor to aid in the discussion of your progress.

Documentation and submission requirements:

Once you have met with your supervisor about your GAPA, you both need to sign and date both assessment documents (your supervisor's assessment and your self-assessment). You need to ensure that each completed assessment form has scores entered in all sections and has **all required information**, including the name, dated signature and registration

number of your assessor as well as your dated signature. (Note that both you and your supervisor must sign a hard copy document. Electronic signatures are not accepted.)

Your supervisor will provide you with a copy of the completed assessment form. You must then scan the supervisor-completed and self-completed GAPA forms and upload the file into the unit Moodle page using the link provided.

You are required to log these assessment meetings in Section 3 of your relevant weekly logs, including the meeting date and a brief summary of the discussion plus the overall score of each assessment.

It is your responsibility to ensure regular access to the technology needed to upload your assessment files by the submission due dates. Recognise that the clinical facility is not responsible for providing you access to computer facilities for your assessments.

If you have a technical issue or personal circumstances that prevent you from being able to accurately complete and upload your file by the standard due date, you **MUST** inform the unit coordinator by the due date and provide just cause. If you miss the due date without just cause OR if your supervisor-completed GAPA or self-completed GAPA is returned to you for correction due to inaccuracies or incompleteness more than twice, you will fail this assessment task.

Assessment Due Dates and Extensions:

If there are extenuating circumstances at the clinical facility that prevent you from being assessed during the required weeks, you must contact the unit coordinator in a timely manner to explain the situation and request an extension.

This is a pass/fail assessment item. In the absence of an approved assessment extension, if you have not met all of the minimum criteria for achieving a score of 'Pass' on this assessment, you will receive a Fail grade for the unit.

Assessment Due Date

First assessment must be completed by end of Week 4, second at the end of Week 8, third at the end of Week 12 and fourth at the end of Week 16 (or your final week). Each completed form must be uploaded within 3 days of the last rostered shift of the week in which the assessment was completed.

Return Date to Students

The unit coordinator will review the uploaded assessment forms and provide feedback within 5 working days of submission of each item.

Weighting

Pass/Fail

Minimum mark or grade

Pass

Assessment Criteria

Non-critical behaviours and attributes:

The assessor will use the stated 1-6 scale to indicate the frequency and extent to which you demonstrate each of those.

Scores and Descriptors for non-critical behaviours and attributes:

NA - No opportunity or insufficient opportunity to assess

1 - Never or hardly ever demonstrated (<10%)

2 - Demonstrated infrequently but less than half of the time

3 - Demonstrated about half of the time (just as likely to happen as not)

4 - Demonstrated much of the time, but still inconsistent

5 - Demonstrated consistently (nearly always, at the level expected of a new graduate practitioner)

6 - Demonstrated consistently and to a high degree (at the level expected of an experienced practitioner).

The minimum required scores for each sections non-critical behaviours and attributes are:

Section 1: Initiative and Communication

- Minimum score of 5
- No more than one score at NA.

Section 2: Responsibility and Demeanour

- Minimum score of 5
- No more than one score at NA.

Section 3: Overall Technical Knowledge and Skill

- Minimum score of 5
- No scores of NA.

Critical behaviour:

The behaviour 'Adheres to site policies on privacy, confidentiality, use of mobile devices and use of social media' is scored separately using the following scale:

- Full compliance
- One incident of non-compliance
- More than one incident of non-compliance.

Note the procedure for non-compliance with Section 4 of the GAPA, as detailed above in Task Description.

To obtain a score of 'Pass' in this assessment task, you must:

- undergo all GAPAs by the due dates listed,
- on the summative GAPA, meet the minimum required scores in all sections, and
- meet the stated standards of documentation completeness and timeliness, such that you have no more than two incidents in total of incompleteness or lateness.

Submission

Online

Learning Outcomes Assessed

- Behave professionally using appropriate interpersonal skills in accordance with CQUniversity's graduate attributes and the profession's Code of Conduct
- Practice in a safe manner with regards to yourself, patients and others
- Employ sound clinical reasoning and critical reflection to practice
- Operate as an effective Medical Imaging team member, including accepting autonomy where granted
- Plan and perform imaging examinations effectively and efficiently whilst ensuring the needs of the patients are met
- Achieve entry to practice technical proficiency in general radiography and two other core areas of practice.

6 Assessment 6 - Reflections

Assessment Type

Reflective Practice Assignment

Task Description

Critical reflection and reflective practice are recognised as being valuable in the development of health professionals. As a student radiographer, you have reflected on your practice many times and this process will continue throughout your career to enable you to become an expert practitioner.

During the 16-week clinical practicum you must complete two (2) different reflections from the list of four (4) choices below:

- Consider identified gaps in your learning and a strategy to remediate them
- Consider your patient care skills and professionalism demonstrated in the workplace and how you plan to develop/enhance these skills
- Consider how you manage the emotional and cognitive demands of performing imaging in high pressure settings, and a strategy to develop/enhance your coping skills
- Consider your understanding and confidence in more specialised areas of practice, together with a strategy to ensure your continued development in your chosen area

Patient and staff confidentiality must always be maintained. Further guidance will be available on the unit Moodle site.

This is a pass/fail assessment item. In the absence of an approved assessment extension, if you have not met all of the minimum criteria for achieving a score of 'Pass' on this assessment, you will receive a Fail grade for the unit.

Assessment Due Date

First reflection due by 4pm Monday of Week 7 of your placement. Second reflection due by 4pm Monday of Week 11 of your placement.

Return Date to Students

The unit coordinator will review the uploaded assessment and provide feedback within two weeks of submission of each item.

Weighting

Pass/Fail

Minimum mark or grade

Pass

Assessment Criteria

Each reflection submission is assessed for:

- correct use of the Gibbs' or Borton's reflective tool proforma,
- critical reflection of an approved topic listed in the Task Description that you have not reflected on in previous clinical placement units,
- detailed analysis of performance,
- critical reflection on areas for improvement,
- detailed action plan relevant to reflection,
- demonstrated evidence of learning and development through reflection,
- use of external resources to support your reflection, that are cited and referenced correctly, and
- clarity and format of writing (including logical flow, spelling, punctuation).

A detailed marking rubric will be posted on the unit Moodle site to specify the 'Pass' requirements for each criterion listed above.

You must meet the minimum 'Pass' requirements for all reflections on their initial submission. No re-submissions are allowed because you should have attained this level of performance in your reflections in the prerequisite clinical placement unit.

If you do not meet the minimum 'Pass' requirements for all reflections on their initial submission, you will fail this assessment and you will receive a Fail grade for the placement unit.

To obtain a score of 'Pass' for this assessment, you must:

- submit the two (2) reflections by the due dates listed, and
- attain a 'requirements met' score for all marking rubric criteria, for both reflections, on their initial submission.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
