General Information

Overview

This is the capstone unit of the Bachelor of Medical Imaging course. In this unit you will consolidate your technical and behavioural skills to practice holistically as a radiographer. You will demonstrate the ability to work both autonomously and as an effective team member across a range of work environments and procedure areas, operating at the level expected for entry to practice as a registered practitioner.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Medical Imaging Team

Feedback

With increasing student numbers within the CG92 course, it was identified that if Magnetic Resonance Imaging was considered an assessable modality in the Holistic Assessment in Other Procedure Area, this would provide more clinical placement site availabilities, hence supporting student success.

Recommendation

Investigate the addition of Magnetic Resonance Imaging (MRI) modality in the Holistic Assessment in Other Procedure Area.
