General Information

Overview

This unit provides an insight into medical ultrasound by exploring the role and global scope of practice of the medical sonographer and the use of ultrasound in medical imaging, the types of examinations available and the provision of safe patient care as an allied health professional. The aim of this unit is to provide introductory knowledge and skills that will support your learning throughout the Medical Sonography course. Simulation exercises will enable you to apply theory to practice.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student discussions and SUTE data

Feedback

Students continued to enjoy the residential school in its current two-day format, finding it valuable for hands-on learning and peer interaction.

Recommendation

Where appropriate, maintain the structure of the two-day residential school to support practical skill development and foster student engagement.

Feedback from Student discussions and SUTE data

Feedback

Students appreciated the additional focused tutorials dedicated to each assessment, which helped guide study and provided timely support.

Recommendation

Where feasible, continue offering focused assessment tutorials to provide structured support and clarify expectations in the lead-up to submission dates.

Feedback from SUTE data

Feedback

Students requested the inclusion of a broader range of third-year students from diverse backgrounds to share their experiences managing the demands of full-time study at a question and answer session held during the residential school.

Recommendation

Where possible, invite a diverse panel of third-year students to participate in future residential schools to share their experiences and strategies for managing full-time study alongside personal commitments.
