All details in this unit profile for MEDS20017 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This graduate clinical unit builds on the sonographic skills, knowledge and attitudes developed during Medical Sonography Clinical Unit 3. You will build on knowledge and attitudes developed during your studies to competently perform diagnostic scans in areas appropriate for an 'Entry Level Sonographer' (as described by the Australasian Sonography Association). You will evaluate findings to formulate a differential diagnosis and initiate further investigation when appropriate. You will solve complex diagnostic problems demonstrating understanding of a broad and coherent core body of sonographic knowledge. You will also behave professionally using interpersonal skills relevant to sonographic practice in accordance with CQUniversity postgraduate attributes and Australian Sonographer Accreditation Registry requirements.
