General Information

Overview

In today's dynamic business landscape, organisations strive for operational excellence and data-driven decision-making. Operations management and business analytics offer a comprehensive exploration of the synergies between efficient operations and the strategic use of data analytics. The unit explores the contemporary principles and practices involved in the management of both service and manufacturing operations. Taking a strategic approach to operations, you will examine fundamental concepts such as process planning, design, control and Six Sigma continuous improvement; quality management and lean thinking; the role of the supply chain in modern operations; capacity and location principles as well as the use of project-based activities in an operational environment. You will utilise business data from a variety of organisational sources including financial, economic and market information and develop mathematical models for more effective operational decisions. The unit also provides you with the opportunity to engage in independent research using evidence-based approaches to identify workplace issues and recommend viable solutions that enhance organisational effectiveness.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

The unit provides a lot of examples and real-world applications.

Recommendation

Keep enriching teaching with real-world examples and interactive methods, fostering a deep understanding of the subject matter. Enhance positivity and inspiration in learning for a truly engaging and rewarding experience.

Feedback from SUTE

Feedback

Maintain the well-explained concepts and things related to Assessments.

Recommendation

Continue to provide comprehensive guidelines for each assessment. Dedicate time during each workshop for a Q&A session regarding the upcoming assessment.

Feedback from SUTE

Feedback

I would suggest incorporating Assessment 1 as a group assessment (instead of an individual) consisting of a written report and PowerPoint presentation.

Recommendation

Possibilities should be explored to determine if there is a benefit in converting Assessment 1 from an individual assessment to a group/team assessment.
