Profile information current as at 06/05/2024 10:11 am

All details in this unit profile for MGMT20133 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Businesses are at the dawn of a fourth industrial revolution, propelled by frontier technologies and robotisation advances that make the product better, cheaper and faster than ever before. This new industrial revolution offers enormous opportunities for businesses to grow and gain sustainable development with potential benefits on a scale that is difficult to imagine. New technologies promise the possibilities of industrial upgrading and leapfrogging. Reconfiguration of world businesses environment, cheaper transportation and communication, coupled with more efficient logistics now help businesses to establish links to new global value chains. Strategic intuitiveness and the ability to quickly manage change is key to gain competitive positioning in the global context. As the capstone unit, you will integrate prior functional and interpersonal knowledge and skills acquired in previous units of the Master of Business Administration and examine international business practices and strategic management processes at an advanced level in different kinds of organisations. You will use your advanced level of knowledge and skills to analyse how organisations develop future business strategies which are influenced by domestic and international pressures. By considering the challenges facing contemporary businesses, you will examine how international business theories, strategic management concepts, frameworks and tools are used by business executives to develop a business plan and implement effective corporate transformation.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

Students enjoyed this unit and always find the workshops and tutorials of great assistance. The case studies are very helpful in applying the theory towards a scenario as a practical activity. The only criticism I would have, is the timing during the work day. As many of us are working, being able to take time out to attend is difficult. Thank you again Quamrul for an excellent course.

Recommendation

Continue with the lecture and workshop model. As most students are part-time and work full-time, an evening class from 6-9 could be considered.

Feedback from Student feedback

Feedback

Students enjoyed the unit contents and the style of delivery.

Recommendation

New cases and recent articles should be used to encourage students to read and learn. As corporate scenarios are changing, contemporary issue-related videos, discussion papers, or reports by McKinsey, Australia Institute, World Economic Forum etc., would be very useful.

Feedback from Unit Coordinator experience and observation

Feedback

Case study discussion at the workshops is very interactive and educational. Students share their practical country-specific and industry-specific experiences. Break-out rooms offer opportunities to discuss and share ideas. Case presentations can be arranged during workshops.

Recommendation

Group activities on contemporary international business and trade issues to facilitate robust discussion. Formation of groups during the workshops to debate on international business topics. This will give students an opportunity to conceptualise the theories and apply them in enhancing their critical thinking and analytical capability.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Critically evaluate concepts and principles of international business, strategic management and corporate transformation
2. Analyse and integrate specialist knowledge pertinent to global business and economic complexity
3. Apply cognitive and technical skills to reflect on and synthesise complex problems and apply strategic frameworks to develop and implement business strategies
4. Communicate corporate strategy highlighting the effects of decisions on business performance
5. Demonstrate business acumen using appropriate strategic and transformative frameworks in a socially responsible manner.

Assessment Tasks

1 Presentation on a Business Case and Submission of a Group Written Report

Assessment Type

Group Work

Task Description

Students are required to form groups consisting of 3-4 members. Each group will be given an existing business case to study. Each group needs to conduct a macro and micro business environment analysis, do research to collect the latest information on that company's business strategy, and market position and list the core competencies by using the five forces model, value chain analysis, and competitors' analysis. Each group member will have to make an individual presentation. Each member will be given marks for his/her presentation. The group members will allocate tasks to each member of the group. The total time for the presentation per member of a group is 10 minutes. Each group is required to write a group report and submit it on the due date along with presentation slides. As aspiring business managers, your task and role need to reflect your understanding, ownership, and leadership.

Weighting 40% weighting of the overall grade.

Individual presentation - 10 minutes (20 marks)

Written group report - (20 marks)

Group report - 2000 words maximum (excluding preliminaries, references, appendices, and tables/diagrams)

One member of a group is required to submit the presentation slides and the written report.

Assessment Due Date

Week 6 Friday (21 Apr 2023) 11:45 pm AEST

Presentation in the workshop. Presentation slides need to be sent to the unit coordinator before the presentation. Report and slides need to be submitted via Moodle by Friday

Return Date to Students

Week 8 Friday (5 May 2023)

Feedback on group report and individual presentation will be provided on Feedback studio

Weighting

Assessment Criteria

The students are required to conduct macroeconomic and industry analysis using international business concepts, theories, and tools. The students need to demonstrate their competency to analyse, evaluate and discuss theoretical concepts and principles of international business strategy. In their presentation and written assignment, the students should be able to articulate their arguments and clearly communicate their understanding of the complex nature of global business and economics. The students should demonstrate that they are able to interpret strategy and the effects of decisions on business performance. The students should be able to identify the product features and marketing strategies and assess the challenges.

Assessment criteria

1. Introduction (A brief history of the case/ organisation, its products and competitors (10%).
2. A macro and micro business environment analysis identifying the competitive position of the company (20%).
3. Identification of the core competencies and capabilities using relevant tools (such as SWOT matrix, VPRO, value chain analysis, and competitors' analysis (20%).
4. Critical analysis of the present strategies (10%)
5. Structure of presentation and report (20%)
6. Presentation style/communication (10%)
7. A full list of at least 10 references used in alphabetical order(10%).

As Master's students, you are required to engage in research consistent with the Australia Quality Framework (AQF) guidelines, that establish the standards for all CQUniversity's Masters's courses. Two specific requirements need to be considered: 1. Students need to demonstrate "a body of knowledge that includes the understanding of recent developments in a discipline and/or area of professional practice", and 2. Students must demonstrate "knowledge of research principles and methods applicable to a field of work and/or learning". Each Master's unit has a number of required readings in terms of academic texts, journals, and business publications that represent the appropriate body of knowledge and recent developments referred to by the AQF. In order to demonstrate the ability to engage in appropriate research, students should read and utilise these texts and journals, and publications.

As post-graduate students, you are expected to research beyond this minimum standard through additional texts, journals, and studies to demonstrate an ability to engage in independent research. Your attention is also drawn to the University's stated position on plagiarism. 2 A STRATEGIC BUSINESS PLAN FOR THE BOARD OF DIRECTORS OF A COMPANY

Assessment Type

Report

Task Description

Each student is required to write a strategic business plan for the board of directors of a company. This is an individual assignment.

Each student should write a business plan for an existing business to expand in a foreign market or a different location within the domestic market addressing the recent domestic and international business environment.

Please note: you are supposed to choose a business case by yourself. Prior permission from your Unit Coordinator is required.

Make sure you have access to the company's website and business reports for collecting relevant information. You are required to include the following points in your business report. This is important as each section of your report will be marked according to the weight (marks) assigned to that specific section (see marking rubric).

Weighting: 60% weighting of the overall grade

Word limit: 2500 words maximum (excluding preliminaries, references, appendices, tables, and diagrams).

Penalties apply for exceeding the word limit in the written part (1% mark will be deducted from the total mark for Assessment 2 for every 100 words over the allowed 2500-word limit).

Please read the detailed assessment guideline and marking rubric available on the unit's Moodle page before commencing work on the assessment.

Please note that you are required to use at least 15 quality references (Academic texts, journal articles, reports, books, etc.). As Masters's students, you are expected to research beyond this minimum standard through additional texts, journals, and studies to demonstrate an ability to engage in independent research. Your attention is also drawn to the University's stated position on plagiarism. THE WORK OF OTHERS, WHICH ARE INCLUDED IN THE ASSIGNMENT MUST BE ATTRIBUTED TO ITS SOURCE (a full list of references must be submitted as part of the assessment).

Assessment Criteria

Weighting 60%.

Assessment Criteria

1. An executive summary of the business plan (5%).
2. An introduction covering the business background and the present strategic position. The purpose/objective of developing the business plan needs to be clearly defined (10%).
3. A market research report on the country of your choice with an interpretation and analysis of industry-specific issues (15%).
4. Evaluation of competencies and present strategies of your company and identify the strengths that you like to utilise for your business expansion (15%).
5. Justification of future strategies for expansion with justification (20%).
6. Implementation policies that include market entry strategy, financial analysis, operational plan, and marketing strategies (15%).
7. Conclusion (10%)
8. References (at least 15) (10%).

As Master's students, you are required to engage in research consistent with the Australia Quality Framework (AQF) guidelines, that establish the standards for all CQUniversity's Masters's courses. Two specific requirements need to be considered: 1. Students need to demonstrate "a body of knowledge that includes the understanding of recent developments in a discipline and/or area of professional practice", and 2. Students must demonstrate "knowledge of research principles and methods applicable to a field of work and/or learning". Each Master's unit has a number of required readings in terms of academic texts, journals, and business publications that represent the appropriate body of knowledge and recent developments referred to by the AQF. In order to demonstrate the ability to engage in appropriate research, students should read and utilise these texts and journals, and publications.

As postgraduate students, you are expected to research beyond this minimum standard through additional texts, journals, and studies to demonstrate an ability to engage in independent research. Your attention is also drawn to the University's stated position on plagiarism. THE WORK OF OTHERS, WHICH ARE INCLUDED IN THE ASSIGNMENT MUST BE ATTRIBUTED TO ITS SOURCE (a full list of references must be submitted as part of the assessment).

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
