# MGMT20142 Contemporary Issues in Social Innovation Term 2 - 2018

#### Profile information current as at 04/05/2024 03:26 am

All details in this unit profile for MGMT20142 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

# **General Information**

## Overview

Social innovation includes effective, efficient, sustainable solutions to social problems and aims to improve social wellbeing for society as a whole. This unit will use design thinking and collaboration to develop social empathy that create solutions for social benefit. The unit will include social, environmental and economic sustainability problems. With a focus on action learning and case study analysis, students will develop the ability to assess and design solutions for global social issues. The unit will develop problem-solving skills using critical analysis business models for social innovation and real-life local issues and will equip students with the necessary tools to create a strategy and business model for social innovation projects.

### Details

Career Level: Postgraduate Unit Level: Level 8 Credit Points: 6 Student Contribution Band: 10 Fraction of Full-Time Student Load: 0.125

## Pre-requisites or Co-requisites

#### There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and</u> <u>Procedure (Higher Education Coursework)</u>.

# Offerings For Term 2 - 2018

• Distance

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

# **Class and Assessment Overview**

### **Recommended Student Time Commitment**

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

# **Class Timetable**

Regional Campuses

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

Metropolitan Campuses Adelaide, Brisbane, Melbourne, Perth, Sydney

#### Assessment Overview

Group Work
Weighting: 50%
Portfolio
Weighting: 15%
Practical Assessment
Weighting: 35%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

# **CQUniversity Policies**

#### All University policies are available on the <u>CQUniversity Policy site</u>.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the <u>CQUniversity Policy site</u>.

# **Unit Learning Outcomes**

#### On successful completion of this unit, you will be able to:

- 1. Develop a capacity to define and investigate social change, and to identify a potential social change project.
- 2. Use design-thinking and collaborative processes to consult with stakeholders and develop a social change innovation for a social change project.
- 3. Research using academic and practical sources to assess the need for social change and the complexities of the social problem.
- 4. Critically analyse and formulate a social innovation change strategy using business models to develop a social change project
- 5. Develop a business case for implementation of your social change problem

## 1 Pitching a problem

#### Assessment Type

Group Work

#### **Task Description**

Working in a group, with a minimum of two members, you need to complete a pitch about a social issue of concern to you. This assignment helps you to demonstrate your understanding of the characteristics of social problems. You are also asked to explain traditional approaches to solving this problem, and how social innovation approaches might differ. This will require you to engage with the specialist literature in the area of your challenge/problem, and the social innovation literature (both scholarly and applied). You will create either a 10-minute online video or a podcast, with the Moodle site for the unit providing resources that enable you to do so. The objective of this first assessment item is to identify an issue, determine what is currently being done to address the issue (the intervention/s), evaluate the efficacy of this intervention(s); and compare that overall impact with a possible social innovation approach.

Information on referencing and resources for this assignment will be provided on the Moodle site. To succeed in this unit you will need to interact with the discussion board, follow forums, and communicate with your peers, read the recommended cases, listen/watch/read the materials provided.

#### **Assessment Due Date**

Week 5 Monday (6 Aug 2018) 11:00 pm AEST

#### **Return Date to Students**

Week 6 Thursday (23 Aug 2018)

Weighting 50%

#### Assessment Criteria

#### The following criteria will be used to assess the Assignment:

- Insight. To what degree have you explored the problem and its underlying causes? To what degree does the presentation show insight into the nature of social innovation, and understanding of social innovation theory (30%)
- 2. Evidence: Is this insight linked to evidence drawn from quality sources? (25%)
- 3. **Critical insight/thinking.** Have you identified the strengths and weaknesses of the evidence, and your solutions? Have you demonstrated the strengths and weaknesses of your scholarly and applied sources? (25%)
- 4. **Presentation and communication.** Have you summed up the problem in a clear and compelling way? Does it show good communication skills? Does it show appropriate and accurate (APA) referencing? (20%)

#### **Referencing Style**

#### Submission

Online Group

#### Learning Outcomes Assessed

- Research using academic and practical sources to assess the need for social change and the complexities of the social problem.
- Critically analyse and formulate a social innovation change strategy using business models to develop a social change project

#### **Graduate Attributes**

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management
- Ethical and Professional Responsibility
- Leadership

# 2 Portfolio of readings.

### Assessment Type

Portfolio

#### **Task Description**

This assignment, due at the end of the delivery of the term, is a portfolio of brief reflective pieces (total 1500 words + references) on any six of the the modules (linked to the textbook chapters) presented during the term. The aim is to complete this task as you do your weekly readings. In these (approximately) one page reflective pieces I want you to critically reflect upon one or more ideas, concepts, issues or matters raised in the module that you found particularly interesting, perplexing, confusing, illuminating or otherwise significant. In discussing a reading from each module, you will be asked to source and use at least one additional scholarly reference to illustrate your point or points. Your reflection should not only record your own thoughts and responses but also demonstrate that you have sought out further information and undertaken some research to confirm, challenge or otherwise elaborate on whatever area you choose to focus on for each module.

#### Assessment Due Date

Week 11 Wednesday (26 Sept 2018) 10:00 pm AEST

Return Date to Students Review/Exam Week Monday (8 Oct 2018)

Weighting 15%

#### **Assessment Criteria**

#### The following criteria will be applied to this assessment:

- 1. Insight and reflection. To what degree have you reflected on the topic? (20%)
- 2. **Conceptual and theoretical understanding.** To what degree does the submission represent an understanding of key terms and theories? (20%)
- 3. Imagination. Are your reflections/thoughts about the issue you've raised original and incisive? (20%)
- 4. **Research & Critical Thinking.** Are you able to demonstrate some relevant further reading on the topic? Are your sources good quality/credible/relevant? Have you used a minimum of one additional resource per module to reinforce your reflections? (30%)
- 5. **Presentation and communication**. Have you summed up the your responses to the topic in a clear, professional and concise way? Is your referencing accurate (using APA style)? (10%)

Note in relation to assessment for this unit in general: As postgraduate students you are required to engage in research as per the Australia Quality Framework (AQF) guidelines. Two specific requirements need to be considered. 1. Students need to demonstrate "a body of knowledge that includes the understanding of recent developments in a discipline and/or area of professional practice, and 2. Students must demonstrate "knowledge of research principles and methods applicable to a field of work and/or learning".

Each module in the unit has a number of readings in terms of academic texts, journals and other publications that represent the appropriate body of knowledge and recent developments referred to by the AQF. In order to demonstrate the ability to engage in appropriate research, students should read and utilise these texts and journals and publications. As postgraduate students you are expected to research beyond this minimum standard through additional texts, journals and studies to demonstrate an ability to engage in independent research. Your attention is drawn to the University's stated position on plagiarism. THE WORK OF OTHERS, WHICH IS INCLUDED IN THE ASSIGNMENT MUST BE ATTRIBUTED TO ITS SOURCE (a full list of references must be submitted as part of the assessment).

#### Submission

Online

#### Learning Outcomes Assessed

- Use design-thinking and collaborative processes to consult with stakeholders and develop a social change innovation for a social change project.
- Critically analyse and formulate a social innovation change strategy using business models to develop a social change project
- Develop a business case for implementation of your social change problem

#### **Graduate Attributes**

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management

# 3 Insight project

### Assessment Type

Practical Assessment

#### **Task Description**

For this assignment you are required to take an individual/personal issue (it doesn't have to be a real one, but it must be plausible) and visually map both the problem and solution. This assignment involves a three stage process:

- **Thinking.** For this stage of the assignment, you have to select a 'problem', understand its root causes, engineer a solution, see the shortcomings of that solution, and then address (where possible) those shortcomings.
- **Mapping.** Keep notes on the thinking stage, and then create a visual 'mind map' of how you think the problem and its solution (including its possible hurdles) would develop 'in real life'. How would you measure 'success'?
- **Rethinking:** Refining the original plan to ensure that you've dealt with as many of the possible hurdles as possible.

The Moodle site offers further tools and advice on how to create visual maps of problems, and advice on choosing a topic. Students should include a reference list (APA style) with their submission, although this can be submitted separately.

#### Assessment Due Date

Week 12 Thursday (4 Oct 2018) 11:00 pm AEST

#### **Return Date to Students**

Exam Week Wednesday (17 Oct 2018)

### Weighting

35%

#### Assessment Criteria

#### The following criteria will be used to assess the Assignment:

- 1. **Insight.** To what degree have you explored the underlying causes of the problem? For example, is this really a problem? Or are you/others looking at it the wrong way? Are there any hidden 'advantages' of keeping this problem? (20%)
- 2. **Critical insight/thinking.** Have you identified the weaknesses of your solutions? Have you thought through how these secondary problems could be overcome? (20%)
- 3. **Imagination.** Have you come up with an innovative solution to the problem—something that cuts across normal ways of responding to a problem...that makes change inevitable, or offers positive side-effects while delivering the target change? (20%)
- 4. **Realism.** Are you able to demonstrate your solutions are realistic? Like Assignment 1, formal academic referencing is not necessarily required here, but clear, tidy, consistent indications of your sources. Again remember, quality of your sources is important. So find some way to indicate on your infographic (perhaps in fine print in one corner) where you got your information/evidence from. (20%)
- 5. **Presentation and communication.** Is the way you've summed up the problem and the solution clear and compelling? Does it show good communication skills? (20%)

#### **Referencing Style**

#### Submission

Online

#### Learning Outcomes Assessed

- Develop a capacity to define and investigate social change, and to identify a potential social change project.
- Research using academic and practical sources to assess the need for social change and the complexities of the social problem.
- Critically analyse and formulate a social innovation change strategy using business models to develop a social change project

#### **Graduate Attributes**

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management
- Ethical and Professional Responsibility

# Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the <u>Student Academic</u> <u>Integrity Policy and Procedure</u>. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

#### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

#### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

#### Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

#### What can you do to act with integrity?

#### Be Honest If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
