## General Information

### Overview

Think Big is a unit about generating, developing, and evaluating ideas for the introduction of innovative and viable new ventures. Think Big entails a process of discovery designed to develop creation of dynamic and impactful enterprises. You will learn about innovative business concepts and the design of performance-differentiating business models. The unit will assist you to generate new marketable ideas and develop skills in innovative thinking, and market assessment in digital, commercial, service and social contexts. This unit will also introduce you to the concept of ideation and horizon thinking, and explore how creative and innovative ideas are generated through teamwork and by brainstorming or workshoping ideas. You will be able to apply the principles of lean entrepreneurship and appreciate what is involved when starting a business or a social enterprise, as well as how to pitch business ideas to potential investors as part of an entrepreneurial team. The unit has a strong practice and market disruption focus.

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Have your say

**Feedback**

I learned so many things in this unit which is very useful in the real world.

**Recommendation**

A student centered and work-applied learning and teaching pedagogy furnishes the students skills and knowledge essential to solve real-world problems. Such teaching approach needs to be continued with more passion and enthusiasm.

#### Feedback from Have your say

**Feedback**

The lecture content and the workshop activities were amazing. It helped us get a better idea of how the world works. Our innovation capabilities became better and I could see the bigger picture using the knowledge I grasped from each lecture and workshop. The information in the ppt slides does really help us think big and out of the box and the assessment tasks were perfect to get the whole idea. Enjoyed this unit a lot and it was a necessary unit too.

**Recommendation**

The materials on lecture and workshop need to be continually updated to reflect the latest evidence and most effective practices. The PowerPoint slides need to be revisited.

#### Feedback from Have your say

**Feedback**

The unit possesses a lot of material to learn and think big in the business you wish to do. Showed us some important concepts of business i.e., feasibility analysis, critical risk assessment, interrelationships of business model canvas. And the teaching staff is very supportive in learning these concepts.

**Recommendation**

The emphasis on portfolio careers reinforces the value of identifying opportunities that might be worth commercialising in the future.

#### Feedback from Have your say

**Feedback**

This is a very good unit and I would recommended to anyone who is interested in starting a new business venture.

**Recommendation**

This comment indicates that the unit is achieving learning objectives and and helping improve graduate qualities. As such, application of research and scholarship with profound real-world examples should be continued.

## Unit Learning Outcomes

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

#### **What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

#### **Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

#### **What can you do to act with integrity?**

### **Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

### **Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

### **Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem

### **Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.
