Term 3 - 2022

Profile information current as at 25/04/2024 03:07 pm

All details in this unit profile for MGMT20143 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Think Big is a unit about generating, developing, and evaluating ideas for the introduction of innovative and viable new ventures. Think Big entails a process of discovery designed to develop creation of dynamic and impactful enterprises. You will learn about innovative business concepts and the design of performance-differentiating business models. The unit will assist you to generate new marketable ideas and develop skills in innovative thinking, and market assessment in digital, commercial, service and social contexts. This unit will also introduce you to the concept of ideation and horizon thinking, and explore how creative and innovative ideas are generated through teamwork and by brainstorming or workshopping ideas. You will be able to apply the principles of lean entrepreneurship and appreciate what is involved when starting a business or a social enterprise, as well as how to pitch business ideas to potential investors as part of an entrepreneurial team. The unit has a strong practice and market disruption focus.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Have your say

Feedback

This unit is quite amazing. I have learned great skills and knowledge from this unit with good group discussions during sessions. Moreover, I like the way of discussing the current scenarios.

Recommendation

Each student should actively contribute to the group discussion. The discussion questions should be contemporary allowing students to link theoretical concepts with real-world industry problems and develop new solutions through brainstorming in the group. This will enrich students' contemporary knowledge and teamwork skills. Continuing this approach is recommended to achieve the unit's learning outcomes.

Feedback from Have your say

Feedback

Making videos on further explanations of assessments was very helpful.

Recommendation

Video recording on each assessment item helps students get clarification on the assessment task and key criteria. Continuing this approach is recommended to increase student success rates in this unit.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Develop, through independent research, an advanced and integrated understanding of the key concepts of innovation, business models, and new ventures in commercial, digital, service, and social contexts
2. Critically analyse cases of disruptive innovation by applying lean entrepreneurship principles
3. Generate, evaluate and communicate creative ideas for new ventures to a variety of audiences
4. Research and apply established theories related to ideation processes, business model design principles, and forecasting
5. Critically discuss and reflect on the technical, financial, and organisational constraints for innovative new ventures.

Assessment Tasks

1 Assessment - Business Model Deconstruction

Assessment Type

Practical Assessment

Task Description

This is an **individual assessment**. You are required to prepare a business report that deconstructs a business model of an organisation given on Moodle and identifies the critical success factors that make the business sustainable. Your analysis will demonstrate your critical thinking skills and ability to articulate your findings professionally.

Length: 1500-words

Format: Business Report

Business Model Canvas format: Osterwalder & Pigneur (2010)

To achieve a result that meets your study objectives, please ensure the business report addresses each of the assessment criteria.

Assessment Due Date

Week 5 Friday (16 Dec 2022) 11:55 pm AEST

A late penalty @ 5% per day will be applied

Return Date to Students

Week 7 Friday (6 Jan 2023)

The grades will be released on Moodle

Weighting

30%

Assessment Criteria

- Provide a succinct description of the business, the industry in which it operates, the markets it serves, and the products and or services it provides (10%).
- Deconstruct the business model of the selected business using the nine building blocks in Osterwalder & Pigneur's (2010) business model canvas (30%).
- Explain the key interrelationships that exist across the nine building blocks (30%).
- Identify and discuss the critical success factors the business has to get right to achieve sustainable success (20%).
- Quality of written submission and APA referencing format. A minimum of 6 relevant peer-reviewed academic journals having discussion sufficiently linked with literature along with non-academic references (websites/databases/news etc.) used to gather information on the company (10%).

3 Assessment - Idea Selection and Business Pitch

Assessment Type

Presentation and Written Assessment

Task Description

This is a **group assessment** that builds on the work completed in Assessment 2. The objective of Assessment 3 is to develop skills that enable you to evaluate which idea (from Assessment 2) has the highest chance of success, and then to prepare a pitch that presents a compelling business case to secure financial backing. This facilitates an appreciation of what potential investors will evaluate before they commit to project investment. There are two parts to Assessment 3:

Part A- Group Report (15%): a 1,500-word group business report that compares and then selects which business idea to present from Assessment 2.

Part B- Group Presentation The Pitch (25%): 10- to 12-minute group presentation in class that explains and sells the business idea to potential investors and customers. Each group member will be expected to present their aspects of the pitch in no more than 3-minutes. Your presentation must be delivered professionally and persuasively (i.e., as though you are presenting to a professional investor).

Assessment Due Date

Week 12 Friday (10 Feb 2023) 11:55 pm AEST

A late penalty @ 5% per day will be applied

Return Date to Students

The results will be released on Moodle after grade certification date.

Weighting

40%

Assessment Criteria

Part A- Group Report (15%):

1. Idea Evaluation- Develop an evaluation framework to compare the group member ideas developed individually in Assessment 2. Use the idea evaluation template provided on Moodle and conduct a peer evaluation of group member assessment 2 ideas (20%).
2. Idea Selection- Describe and justify, with evidence, how the best idea was selected for the group (20%).
3. Gap identification- Identify any gaps that need to be addressed before the idea is pitched to an investor (20%).
4. Revised business model canvas- Amend the business model canvas from Assessment 2, to

incorporate the above revisions (20%).
5. Budget and Cash flow projections (20%).

Part B- Group Presentation The Pitch (25%):

1. Overview of the proposed venture idea including the **problem** you are trying to solve or the **opportunity** you are trying to exploit. *What is your 'Think Big - Lean Entrepreneur' solution (value proposition)? (20%)*
2. Explanation of:
 - i. underlying business model and why now? (20%);
 - ii. competition, financial projections and key metrics including assumptions (20%)
 - iii. Go-to-market plan, scalability of idea for commercialisation (10%)
 - iv. what are you seeking from the investor and what are you offering in return (10%)
3. Quality of presentation, equal participation and coordination in the group (20%)

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
