General Information

Overview

This unit is designed to equip you with the knowledge and skills necessary to achieve excellence in procurement practices including sourcing, tendering, contract management, buyer-supplier relationship management, and the crucial elements of probity and integrity. You will gain valuable insights into effective strategies and processes, all while maintaining a commitment to ethical governance and sustainable procurement. Unlike traditional units on procurement, we prioritise the often-overlooked aspects of integrity and fairness, alongside harnessing innovative technologies to revolutionise procurement practices, offering a rare chance to develop a holistic understanding of the field. The unit allows you to embrace the evolving landscape of procurement, where fairness and ethical governance are paramount, and you will explore how fair and ethical dealing benefits both public and private sectors. You will also uncover the pivotal role fair dealing plays in accountability, transparency, economic participation, competitiveness, market engagement, buyer-supplier relationships, and innovation partnerships that drive organisational growth and success.
