

# MGMT29007 Legal Aspects of IT and e-Commerce

## Term 1 - 2024

Profile information current as at 01/05/2024 11:34 am

All details in this unit profile for MGMT29007 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

This unit discusses some of the main legal problems generated by recent developments in information technology and e-commerce, and their possible solutions. You will consider topics including copyright, domain name disputes and other intellectual property issues on the Internet, contractual issues of online trading, public key infrastructure and electronic transactions, privacy and data protection. At the completion of this unit, you will have developed an advanced and integrated understanding of the main legal issues arising from the application of information technology and e-commerce. You will be able to apply relevant legal concepts and access professional legal advice and information that will assist in addressing and solving these problems.

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## 2 Presentation

### Assessment Type

Presentation

### Task Description

Students work individually to deliver a presentation on a chosen topic from weeks 6, 7 or 8. The presentation must showcase an understanding of the legal and policy challenges arising for businesses in the fields of intellectual property, domain names, and/or privacy. You are required to engage in research as per the Australia Qualifications Framework (AQF) guidelines. This has a number of required weekly readings in terms of academic texts, journals and business publications that represent the appropriate body of knowledge and recent developments. In order to demonstrate the ability to engage in appropriate research, students should read and utilise these texts and journals and publications, and demonstrate an ability to research beyond this minimum standard through additional texts, journals and studies that demonstrate an ability to engage in independent research. The ability to conduct this project without continually relying on your tutors and lecturers is an important part of the learning process for this unit.

You should ensure that you understand the specific research that is required for each assessment piece and recognise that if you merely meet this minimum requirement, you will receive the minimum grade for demonstrated research. Your attention is drawn to the University's stated position on plagiarism. THE WORK OF OTHERS, WHICH IS INCLUDED IN THE ASSIGNMENT MUST BE ATTRIBUTED TO ITS SOURCE. A full list of references must be submitted as part of the assessment.

### Assessment Due Date

Week 10 Monday (13 May 2024) 11:00 pm AEST

## 3 Report

### Assessment Type

Report

### Task Description

Students work individually to craft a report on legal and policy issues covered in week 9, 10 and 11. The report should demonstrate a critical understanding of challenges for business arising from law and technology. You are required to engage in research as per the Australia Qualifications Framework (AQF) guidelines. This has a number of required weekly readings in terms of academic texts, journals and business publications that represent the appropriate body of knowledge and recent developments. In order to demonstrate the ability to engage in appropriate research, students should read and utilise these texts and journals and publications, and demonstrate an ability to research beyond this minimum standard through additional texts, journals and studies that demonstrate an ability to engage in independent research. ## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
