MGMT29008 Supply Chain and e-Logistics

Term 2 - 2024

Profile information current as at 17/05/2024 04:31 pm

All details in this unit profile for MGMT29008 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

The unit prepares you to apply business strategies, analytical methodologies and information technology in supply chain management and e-logistics. Traditionally industries have focused on operation evaluation and performance improvement of mainly the manufacturing process; however, the deficiencies of supply chain coordination result in severe downgrades of business competitiveness. With the advent of information technology, computers not only improve manufacturing operation and management but also strategic decision-making as well. This unit will equip you with an understanding of the systems approach to the planning, analysis, design, development, and evaluation of supply chain and e-logistics management. On completion of this unit, you will have acquired: (a) an understanding of the impact of supply chain management and related issues on the success and profitability of the modern organisation; (b) the major challenges faced in implementing an integrated supply chain management strategy, as well as approaches for meeting these challenges; (c) the information technology, business models, and analytical problem-solving skills to develop solutions for a variety of logistics and supply chain problems; and (d) through real organisational case studies, an understanding of the effective application and the development of logistics and supply chain technology in Indonesian industries.

Details

Career Level: *Postgraduate*

Unit Level: *Level 9*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2024

- Jakarta

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

The content and assessment regime work well for this unit.

Recommendation

Retain the current approaches.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate an advanced and integrated understanding of knowledge of principles, concepts, and methods in the management of supply chain and e-logistics from a systems perspective
2. Assess and resolve human, technical and administrative issues for supply chain management and e-logistics
3. Critically analyse and apply established supply chain techniques and e-logistics strategies at a proficient managerial and leadership level
4. Interpret and successfully transmit knowledge, skills and ideas related to supply chain and e-logistics to a range of internal and external stakeholders.
