General Information

Overview

Businesses are at the dawn of a fourth industrial revolution, propelled by frontier technologies and robotization advances that make the production better, cheaper and faster than ever before. This new industrial revolution offers enormous opportunities for businesses to grow and gain sustainable development with potential benefits on a scale that is difficult to imagine. New technologies promise possibilities of industrial upgrading and leapfrogging. Reconfiguration of world businesses environment, cheaper transportation and communication, coupled with more efficient logistics now help businesses to establish links to new global value chains. Strategic intuitiveness and ability to quickly manage change is key to gain competitive positioning in the global context. As the capstone unit, you will integrate prior functional and interpersonal knowledge and skills acquired in previous units of the Master of Business Administration and examine strategic management processes at an advanced level in different kinds of organisations. You will use your advanced level of knowledge and skills to analyse how organisations develop future strategies which are influenced by internal and external pressures. By examining the challenges facing contemporary businesses, you will examine how strategic management concepts, frameworks and tools are used by business executives to develop a business plan and implement change in organisations. Workplace case studies will be used to demonstrate how business craft strategies and acquire resources to implement strategy and manage change effectively with positive outcomes.

Assessment Tasks

1 Presentation and Group Report

Assessment Type

Group Work

Task Description

Students are required to form groups in consultation with the Unit Coordinator. Each group will be given an existing business case to study. Each group needs to conduct a macro and micro business environment analysis, do research to collect the latest information on that company's business strategy, market position, and list the core competencies by using the five forces model, value chain analysis, and competitors' analysis.

Each group member makes a presentation for 10 minutes and group members will write a short group report. As aspiring business managers, your task and role need to reflect your understanding of the key concepts and strategy tools and apply them in analysing the case. This first assessment will require you to negotiate and assign roles as a group and submit a document responding to each question.

Part A: Presentation (individual) : 10 minutes (15 marks).

Part B: Group report: 1000 words maximum (excluding preliminaries, references, appendices and tables/diagrams). (15 marks)

Groups are required to submit the presentation slides along with the written report on the Assessment Link.

Assessment Criteria

As Master's students, you are required to engage in research consistent with the Australia Quality Framework (AQF) guidelines, that establish the standards for all CQUniversity's Masters courses.

Two specific requirements need to be considered:

1. Students need to demonstrate "a body of knowledge that includes the understanding of recent developments in a discipline and/or area of professional practice", and
2. Students must demonstrate "knowledge of research principles and methods applicable to a field of work and/or learning".

Each Masters unit has a number of required readings in terms of academic texts, journals and business publications that represent the appropriate body of knowledge and recent developments referred to by the AQF. In order to demonstrate the ability to engage in appropriate research, students should read and utilise these texts and journals and publications. As Master's students, you are expected to research beyond this minimum standard through additional texts, journals, and studies to demonstrate an ability to engage in independent research. Your attention is also drawn to the University's stated position on plagiarism. **THE WORK OF OTHERS, WHICH ARE INCLUDED IN THE ASSIGNMENT MUST BE ATTRIBUTED TO ITS SOURCE** (a full list of references must be submitted as part of the assessment).

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
