As Master's students, you are required to engage in research consistent with the Australia Quality Framework (AQF) guidelines, that establish the standards for all CQUniversity's Masters's courses. Two specific requirements need to be considered: 1. Students need to demonstrate "a body of knowledge that includes the understanding of recent developments in a discipline and/or area of professional practice", and 2. Students must demonstrate "knowledge of research principles and methods applicable to a field of work and/or learning". Each Master's unit has several required readings in terms of academic texts, journals, and business publications that represent the appropriate body of knowledge and recent developments referred to by the AQF. To demonstrate the ability to engage in appropriate research, students should read and utilise these texts and journals, and publications.

As postgraduate students, you are expected to research beyond this minimum standard through additional texts, journals, and studies to demonstrate an ability to engage in independent research. Your attention is also drawn to the University's stated position on plagiarism. **THE WORK OF OTHERS, WHICH ARE INCLUDED IN THE ASSIGNMENT MUST BE ATTRIBUTED TO ITS SOURCE** (a full list of references must be submitted as part of the assessment).

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work
