

MMST11010 *Illustration and Visualisation*

Term 1 - 2022

Profile information current as at 05/05/2024 03:49 am

All details in this unit profile for MMST11010 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will assist students to develop a level of fluency and confidence with sketching, drawing and visualising commensurate with requirements for developing and communicating visual concepts and ideas in creative production team environments, and for presenting visual components of multimedia designs to prospective clients and/or funding bodies. This unit will help you to develop skills in illustration and visualisation using traditional (manual) drawing materials. Learn how to see like an artist by perceiving edges, negative space, perspective, proportion, tone and texture. Develop your drawing ability through the application of these perceptual skills, even if you believe that you have no artistic talent. Explore the legacy of Renaissance art and alternative traditions such as Egyptian, Eastern and modern art. Familiarise yourself with principles of colour theory. Discover how to draw expressive cartoon figures from fundamental shapes and forms. Note: The unit resources are presented online and so access to a computer with an Internet connection is required.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2022

- Brisbane
- Bundaberg
- Cairns
- Mackay
- Online
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Portfolio**

Weighting: 20%

2. **Practical Assessment**

Weighting: 30%

3. **Practical Assessment**

Weighting: 30%

4. **Online Quiz(zes)**

Weighting: 20%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit evaluation

Feedback

Readings and resources should be checked for readability and accessibility, for example, read aloud compatibility.

Recommendation

Check readings and resources for readability and accessibility.

Feedback from Unit evaluation

Feedback

Assessment feedback was brief compared to other units.

Recommendation

Coordinator and teaching team should collaboratively review assessment feedback strategy.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. perceive edges and draw line contour drawings;
2. perceive and draw negative space and chiaroscuro;
3. demonstrate knowledge of the legacy of Renaissance art and alternative traditions such as Egyptian, Eastern and modern art;
4. understand concepts related to perspective and proportion such as the picture plane, the ground plane, the horizon line, vanishing points, one-point perspective, two-point perspective, three-point perspective and perspective grids; sight angles and proportions,
5. draw an informal freehand perspective drawing; draw shapes and forms in one-point and two-point perspective;
6. perceive different tones and textures, and recreate them using crosshatching and shading;
7. draw objects built from fundamental shapes (rectangles, triangles, ellipses) and fundamental forms (cubes, spheres, cones, cylinders);
8. understand principles of harmony and contrast among colours;
9. draw expressive cartoon figures and scenery; and,
10. be able to synthesise and apply these concepts and manual skills in the production of: thumbnail sketches for the development and communication of visual designs; storyboards for conveying multimedia and movie ideas; and comprehensive concept presentation visuals.

IT Resources

You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- A digital camera or a scanner will be needed to record assessment items for online submission
- The use of digital drawing tablet and stylus is optional. If using this technology, you will need access to appropriate drawing software such as Adobe Photoshop in addition to a drawing tablet and stylus.

Referencing Style

All submissions for this unit must use the referencing style: [American Psychological Association 7th Edition \(APA 7th edition\)](#)

For further information, see the Assessment Tasks.

Exam Week - 13 Jun 2022

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Term Specific Information**Drawing materials list for this unit.**

Following is a list of materials, implements, media and accessories that will be required for your tutorials. Please ensure that you have them from Week 1 onwards. Most are available from good stationers and art supply shops.

1/ Pencils

Graphite pencils come in a range of grades. The most common is called an 'HB' ('H' stands for 'hard' and 'B' stands for 'black'. So an 'HB' is a 'hard, black' which is the 'medium' grade. The blacker a pencil grade is the softer its 'lead' is. You should have with you at each tutorial a HB and a B pencil.

Drawing pencils can often be inexpensively bought in a set of six (H, HB, B, 2B, 4B, 6B) sometimes in a plastic or tin container - which is ideal.

2/ A4 or A3 size sketch pad

This should have white, medium texture paper and may be spiral-bound.

3/ Graphite stick

A graphite stick is just a fat pencil, usually not sheathed in wood, but wrapped in paper or plastic to keep your fingers clean when using it. Choose a soft grade. They are usually round, but may also be formed into a square shape. You will use this when you need to shade your paper all over to make a grey background. If you can't find a graphite stick one of your soft pencils on its edge will do.

4/ A 'picture plain aid'

This is a firm piece of clear acrylic or plastic about 3mm thick, and about A4 size. An acrylic clip board is perfect. Apply centred cross hairs drawn with a permanent ink pen on its surface, parallel to the edges, which divide the area evenly into quarters.

5/ Two 'viewfinders'

These are made from approximately A4 size black cardboard. Each has a different size of window cut out from the middle. There are instructions on page 14 of the Edwards (2013) text [eBook p.44]

6/ Two fold-back clips

For clipping the picture plain aid and viewfinder together.

7/ Pencil sharpener

(and/or craft knife with retractable blade). Plus, a small container with a lid for your pencil sharpenings.

8/ Eraser**9/ Fine-tipped black drawing pens**

One permanent and one non-permanent (e.g. whiteboard marker)

9/ Smart phone or tablet for displaying a 'selfie', or a small mirror, for your self-portraits.

Note: the following items will not be required if you will be using an optional digital drawing tablet application (after assessment item 1)

10/ Coloured pencils

A set of 24 good quality coloured pencils will be required for the colour exercises and for assessment item 3.

11/ Supply of lesser grade paper

Inexpensive photocopy, cartridge, or butchers' paper for repetitive cartooning exercises.

Please note:

The use of digital drawing tablet and stylus is optional.

Digital drawing devices **are not to be used for the assessment item 1 drawing exercise portfolio**. These exercises are to be undertaken using pencil and paper.

Pencil drawing and/or digital drawing techniques may be used for assessment items 2 and 3.

Assessment Tasks

1 Drawing exercise portfolio

Assessment Type

Portfolio

Task Description

Assessment item 1 instructions

Students must submit a portfolio of scans or photo images (saved as .jpg or .png files) of the 16 pencil drawings from the tutorial exercises they completed during the first 7 weeks of the course, specifically:

Week 1 exercises:

- 1.1 self portrait;
- 1.2 person drawn from memory;
- 1.3 your hand.

Week 2 exercise:

- 2.2 upside-down drawing.

Week 3 exercises:

- 3.1 pure contour drawing,
- 3.2 modified contour drawing,
- 3.3 modified contour drawing 2.

Week 4 exercise:

- 4.1 negative space drawing of a chair.

Week 5 exercises:

- 5.1 Experiment with informal, one-point and two-point perspective (submit one example),
- 5.2 Two-point perspective drawing.

Week 6 exercises:

- 6.1 Observation of frontal and profile heads and filling in "blanks",
- 6.2 Copying a successful portrait example,
- 6.3 Profile portrait of a person.

Week 7 exercises:

- 7.1 Copying exercise,
- 7.2 Cross-hatching exercise,
- 7.3 Drawing a tonally modelled, volumetric self portrait.

Submission Instructions

Collect sharp and clear copies of the drawings as you go. In an MS Word document create a cover page with the unit name and number, your name and student number, and the assessment item number entered.

Insert one digital image file per page and label it as per the names above. Save the Word file with your surname and 'Ass 1' as the file name.

Upload the Word file, agree to the originality statement and ensure you submit successfully.

Assessment Due Date

Week 8 Tuesday (3 May 2022) 11:45 pm AEST

Return Date to Students

Within 14 days of submission.

Weighting

20%

Assessment Criteria

Because the exercises weeks 1–7 are all practice and development exercises, the assessment is mostly marked on a quantitative, not qualitative basis. However, a qualitative mark will be awarded for exercise 7.3 only.

Students receive one mark per drawing submitted, providing that it is obviously a genuine attempt to follow the instruction, for all exercises except 7.3.

For exercise 7.3 only, up to 5 marks will be awarded for demonstrated proficiency in techniques learned throughout the exercises to achieve the tonally modelled, volumetric self-portrait. As per the text book instructions, the self-portrait may be a "full-face view" or a "three-quarter view".

Total possible for assignment 1: 20 marks.

Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Online

Submission Instructions

Capture clear digital images of your drawing exercises as jpeg or png files. Insert these into a Word document and label each of them with the exercise number. Save or export the Word document to .pdf format and submit this via Assessment link in the Moodle unit web site.

Learning Outcomes Assessed

- perceive edges and draw line contour drawings;
- perceive and draw negative space and chiaroscuro;
- draw an informal freehand perspective drawing; draw shapes and forms in one-point and two-point perspective;
- perceive different tones and textures, and recreate them using crosshatching and shading;

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking

2 Concept visuals

Assessment Type

Practical Assessment

Task Description

Assessment item 2 instructions

Students are to create three monochrome (black and white) visualisations, using graphite pencil on paper or a digital stylus using drawing 'brush' settings in a drawing application.

Each will employ a different viewpoint:

Visual # 1: Informal perspective (using one or more vanishing points),

Visual # 2: Parallel view (where parallel lines stay parallel),

Visual # 3: Abstracted space (organised for the purpose highlighting relationships).

The size of the drawing should fill an A4 page. Each drawing has a set topic. Please pay attention to the details of each brief:

Visual # 1: (Informal perspective). Visualise a real or imagined scene for an advertisement or social media meme that is to feature a chess game that has been disturbed. The setting is up to you, but the scene must also feature a drawing pencil, snapped in two. Be sure to employ perspective (where receding lines converge) and/or foreshortening. There are no people to be seen. The view is to evoke a sense of mystery, foreboding and a dramatic sense of scale. The product or service being advertised has not been specified and so is irrelevant to you. You are also not told what medium the advert is for. The number of chess pieces left in the game is up to you but it must be at least two: one white and one black.

Visual # 2: (Parallel view). Sketch the contents of one bag from your weekly groceries spread out on your kitchen table or bench. There must be a Rapid Antigen Test kit (in or out of packaging) among the items. Remember that in a parallel view, lines (including ellipses) that are parallel in real life stay parallel.

Visual # 3: (Abstracted space).

Visualise an illustration that conveys your impression of the processes involved in seeing - from when light enters your eye and forms an image on your retina, to the conversion of this image into electrical impulses in your optic nerves, to the perception one sees in one's "mind's-eye".

This may be achieved as a series of images if you wish, but not necessarily. You may decide to use a mixture of viewpoints if you wish. The processes you visualise need not be physically or anatomically correct. The objective is to decide on appropriate viewing space(s) to represent what you think is going on at any particular stage and to unify these views into an overall concept and style of visualisation. You must include as part of the composition, the handwritten words:

"The eye sees only what the mind is prepared to comprehend."

- Robertson Davies (1913-1995).

Each drawing should be finished to the level of a concept rough using techniques taught in the course tutorials. The aim should be to make each picture self-explanatory. It should be understood without having to use supporting texts or notes (except for the words prescribed in the requirements for Visual 3).

Submission instructions

If you made pencil drawings scan or digitally photograph them. Save the digital files in .jpg or .png format. In MS word create a cover page with the unit name and number, your name and student number, and the assessment item number entered. Insert one digital image file per page and label it as per the names above.

Save the Word file with your surname and 'Ass 2' as the file name.

Upload the Word file, agree to the originality statement and ensure you submit successfully.

Assessment Due Date

Week 10 Monday (16 May 2022) 11:45 pm AEST

Return Date to Students

Assessment Criteria**Assessment item 2 criteria**

Each drawing will be allocated up to 10 marks according to the following criteria:

- effective use of line and qualities of line (up to 2 marks)
- effective use of positive and negative space (up to 2 marks)
- demonstrated understanding of the specified representational view: e.g. perspective for visual 1; parallel view for visual 2; abstracted logic for visual 3 (up to 2 marks)
- effective use of tonality and texture to achieve shape and form (up to 2 marks)

Plus, the following additional criterion in respect of each of the visuals:

- **For visual # 1:** the creative originality of the concept and the effectiveness of the style and technique employed in conveying the concept (up to 2 marks)
- **For visual # 2:** the impact and balance of the overall composition within the format chosen by the student and the realism (recognisability of the objects for what they are without taking account of labelling) achieved using parallel view (up to 2 marks)
- **For visual # 3:** the appropriateness of the viewing space(s) chosen to represent the prescribed processes, achievement of communication of a concept; the balance achieved with the overall composition (up to 2 marks).

Total possible for assignment 2: 30 marks.

Submission

Online

Submission Instructions

Scan or photograph each image to produce a clear facsimile. Insert the image files into a word document containing your name and student number and the assessment title. Export to pdf for submission. Submit online via the assessment link in the unit Moodle web site.

Learning Outcomes Assessed

- perceive edges and draw line contour drawings;
- perceive and draw negative space and chiaroscuro;
- understand concepts related to perspective and proportion such as the picture plane, the ground plane, the horizon line, vanishing points, one-point perspective, two-point perspective, three-point perspective and perspective grids; sight angles and proportions,
- draw an informal freehand perspective drawing; draw shapes and forms in one-point and two-point perspective;
- perceive different tones and textures, and recreate them using crosshatching and shading;
- draw objects built from fundamental shapes (rectangles, triangles, ellipses) and fundamental forms (cubes, spheres, cones, cylinders);
- draw expressive cartoon figures and scenery; and,
- be able to synthesise and apply these concepts and manual skills in the production of: thumbnail sketches for the development and communication of visual designs; storyboards for conveying multimedia and movie ideas; and comprehensive concept presentation visuals.

3 Comprehensive storyboard visual

Assessment Type

Practical Assessment

Task Description

Assessment item 3 instructions

You are to envisage a cartoon narrative and produce a comprehensive visual using colour pencil, marker visual or similar digital drawing technique, in the form of a storyboard consisting of between 6 and 10 frames. The basic plot is specified in a brief. It involves a character who travels from 'flatland' to '3-D land'.

The brief: Vita3 company is looking for a character along the lines of Mortein's formerly successful 'Louie the Fly' to form the centre-piece of a multimedia campaign for a new multivitamin called 'V³'. See the following link about Louie the Fly: <https://www.facebook.com/louiethefly/>

The character is to be a gender-neutral, capsule-shaped, superhero type with the symbol 'V³' on its uniform front. The idea is that this 'V³' character can lead a person from a tired, drab and flat world (of vitamin deficiency) into a vibrant, vital and three-dimensional state (of good health).

The task is to conceptually develop the overall idea and in the process progress the characterisation of the 'V³' hero. You are to depict the 'V³' character introducing itself to an (unspecified) tired and decrepit looking character, in a setting that is also unspecified except that it is two-dimensional and flat. After shaking hands with 'V³' the tired character is transformed, as is the whole setting, into a vibrant, sparkling and three-dimensional environment. After the transformation, the facial expression and body language of the tired character must have dramatically changed and the colours employed have changed in a manner supportive of the concept. The 'V³' character is to appear obviously proud of having been responsible for the change.

To enable you to produce the detail sufficient for a comprehensive visual it is recommended that each frame approximately fit in A5 size format (1/2 an A4 sheet, or 200 x 140mm).

Capture clear digital images of your storyboard visuals as jpeg or png files. Insert these into a Word document. Save or export this to .pdf format for submission via Moodle unit site.

Assessment Criteria

Assessment item 3 criteria

The assignment will be assessed against the following criteria:

- Overall portrayal of the characters (up to 4 marks)
- Overall portrayal of the mood or atmosphere and effectiveness in contrasting the extremes of the transformation from 'tired' to 'vibrant' (up to 4 marks)
- Overall portrayal of narrative and action (up to 4 marks)
- Characters' facial expressions (up to 2 marks)
- Characters' poses and gestures (up to 2 marks)
- Composition of the scenes (up to 2 marks)
- Effective use of lines (up to 2 marks)
- Effective use of perspective and proportion and/or abstraction (up to 2 marks)
- Proficient use of tone and texture to render shape and form (up to 2 marks)
- Appropriate and effective use of colour (up to 2 marks)
- Overall presentation (up to 2 marks)
- Original contribution to the development of the concept (up to 2 marks)

Total possible for assignment 3: 30 marks

Submission

Online

Submission Instructions

Capture clear digital images of your storyboard visuals as jpeg or png files. Insert these into a Word document. Save or export this to .pdf format for submission via the assessment link on the Moodle unit site.

Learning Outcomes Assessed

- perceive edges and draw line contour drawings;

- perceive and draw negative space and chiaroscuro;
- demonstrate knowledge of the legacy of Renaissance art and alternative traditions such as Egyptian, Eastern and modern art;
- understand concepts related to perspective and proportion such as the picture plane, the ground plane, the horizon line, vanishing points, one-point perspective, two-point perspective, three-point perspective and perspective grids; sight angles and proportions,
- draw an informal freehand perspective drawing; draw shapes and forms in one-point and two-point perspective;
- perceive different tones and textures, and recreate them using crosshatching and shading;
- draw objects built from fundamental shapes (rectangles, triangles, ellipses) and fundamental forms (cubes, spheres, cones, cylinders);
- understand principles of harmony and contrast among colours;
- draw expressive cartoon figures and scenery; and,
- be able to synthesise and apply these concepts and manual skills in the production of: thumbnail sketches for the development and communication of visual designs; storyboards for conveying multimedia and movie ideas; and comprehensive concept presentation visuals.

4 Four online quizzes

Assessment Type

Online Quiz(zes)

Task Description

Assessment item 4 instructions

At approximately three-weekly intervals a new quiz will be opened. There are four real quizzes and 10 questions in each quiz. The questions in each real quiz relate to the unit lectures and required readings in the previous three weeks.

There is also a sample quiz. It has 5 questions. The outcome of this quiz does not count toward assessment.

Each real quiz is worth up to 5 marks, making a total of 20 marks available for assessment item 4.

The quizzes are designed to be undertaken progressively and it is up to each student to decide when they are ready to sit them. Once it is opened each quiz is available to be attempted until 23.00 on the final due date.

Only one attempt is allowed for each real quiz. The time allowed for each real quiz is 2 hours.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
