MMST12019 3D Computer Graphics

Term 1 - 2025

Profile information current as at 22/11/2024 05:26 am

All details in this unit profile for MMST12019 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit of study provides an introduction to three-dimensional (3D) computer graphics. You will learn how to use a variety of tools and techniques to create 3D assets for use in real-time rendering platforms. You will develop the necessary skills to produce 3D assets for animation, visual effects and games using industry-standard software.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluation comment

Feedback

One student asked for Blender software to be installed on the lab computers.

Recommendation

Using free 3D software like Blender is not a requirement for this unit. However, installing it would be beneficial, as it provides students with an additional tool to accomplish their 3D modelling tasks. The unit coordinator will explore the possibility of installing Blender in the on-campus labs.
