

MPAT12001 *Medical Pathophysiology*

Term 1 - 2018

Profile information current as at 06/05/2024 11:14 pm

All details in this unit profile for MPAT12001 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit builds upon prerequisite units in human anatomy and physiology to develop a conceptual understanding of disease and dysfunction, with emphasis on the effects of disease upon normal physiological systems. The unit content is presented in a way that fosters (a) an understanding of the widespread effects that dysfunction of a particular organ or system of the human body has upon other systems and (b) the ability to critically evaluate symptoms of dysfunction and predict the outcome. Topics include altered cells and tissues, altered cellular proliferation and differentiation, inflammation and tissue repair, and alterations of human body systems.

Details

Career Level: *Undergraduate*

Unit Level: *Level 2*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prerequisites: ALLH11005 Anatomy and Physiology for Health Professionals 1 AND ALLH11004 Anatomy and Physiology for Health Professionals 2 OR BMSC11001 Human Body Systems 1 AND BMSC11002 Human Body Systems 2 This unit is NOT available to students who have only completed BIOH11005 Introductory Anatomy and Physiology AND BIOH11006 Advanced Anatomy and Physiology

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2018

- Distance

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Online Quiz(zes)**

Weighting: Pass/Fail

2. **Portfolio**

Weighting: 50%

3. **Examination**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from “Have your say” student feedback.

Feedback

Some students commented that the weighting of the Concept Map and DAP assessment tasks are low.

Recommendation

Review weighting of CMAP/DAP.

Feedback from “Have your say” student feedback.

Feedback

Some students commented on how much the various assessments, including online quizzes and Concept Map/DAP, aided their understanding.

Recommendation

Develop further questions and introduce new type of questions.

Feedback from “Have your say” student feedback.

Feedback

Some students felt the content is too much, meanwhile other students enjoyed learning about the same amount of content.

Recommendation

Provide more information to students how the content is relevant for their specific course.

Feedback from “Have your say” student feedback.

Feedback

Some students commented on how much they enjoyed the interactive and interesting lectures and tutorials.

Recommendation

Maintain and improve further lecture and tutorial delivery style and quality.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Argue the physiological consequences, symptoms and effects on health of specific dysfunction of organs and systems
2. Explain how the interdependence of human physiological systems can result in disease of one organ having widespread effects
3. Explain the mechanisms that cause altered cells and tissues, altered cellular proliferation and differentiation, inflammation and the consequences of these changes upon health
4. Describe the major causes, symptoms and consequences of dysfunction of the human body systems.

Schedule

Week 1 - 05 Mar 2018

Module/Topic	Chapter	Events and Submissions/Topic
Introduction to Pathophysiology Altered Cells and Tissues	Chapter 1 Chapter 2	Concept Map and Disease Awareness Pamphlet online selection site opens on Week 1, Monday 21:00 AEST (<u>closes</u> on Week 4, Friday, 17:00 AEST)

Week 2 - 12 Mar 2018

Module/Topic	Chapter	Events and Submissions/Topic
Inflammation and Tissue Repair	Chapter 3	

Week 3 - 19 Mar 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Cellular Proliferation and Differentiation	Chapter 7	

Week 4 - 26 Mar 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Fluid, Electrolyte Balance Altered Acid-Base Balance	Chapter 8 Chapter 9	Concept Map and Disease Awareness Pamphlet online submission site opens on Week 4, Friday 17:00 AEST (<u>closes</u> on Week 8, Friday, 17:00 AEST)

Week 5 - 02 Apr 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Neuronal Transmission	Chapter 10	

Vacation Week - 09 Apr 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Week 6 - 16 Apr 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Somatic and Special Sensory Function	Chapter 12	

Week 7 - 23 Apr 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Hormonal and Metabolic Regulation	Chapter 13	

Week 8 - 30 Apr 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Reproductive Function	Chapter 14	Concept Map and Disease Awareness Pamphlet online peer assessment site opens on Week 8, Friday 17:00 AEST (<u>closes</u> on Week 10, Friday, 17:00 AEST) Clinical model assignment Due: Week 8 Friday (4 May 2018) 5:00 pm AEST

Week 9 - 07 May 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Ventilation and Diffusion	Chapter 15	

Week 10 - 14 May 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Perfusion	Chapter 16	

Week 11 - 21 May 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Nutrition	Chapter 17	

Week 12 - 28 May 2018

Module/Topic	Chapter	Events and Submissions/Topic
Altered Elimination	Chapter 18	Pass/Fail quiz Due: Week 12 Friday (1 June 2018) 5:00 pm AEST

Review/Exam Week - 04 Jun 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Exam Week - 11 Jun 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Term Specific Information

In order to pass this unit, students must attain at least 50% overall, and meet the minimum mark specified for each assessment.

Assessment Tasks

1 Pass/Fail quiz

Assessment Type

Online Quiz(zes)

Task Description

1. There will be one Pass/Fail online quiz to assess your knowledge of the unit material.
 2. The quiz will have 60 questions.
 3. The Pass/Fail quiz will open on Week 1 Monday at 09:00am and will close on Week 12 Friday at 17:00pm.
 4. You will be allowed unlimited number of attempts at the quiz.
 5. There is a 24-hour time restriction between attempts.
 6. The highest grade you achieve will serve as your final score for the quiz.
 7. There is a minimum requirement in the Pass/Fail quiz: 50%.
 8. In order to access the Pass/Fail quiz, you need to complete a series of learning activities to satisfactory level.
 9. In the absence of an approved extension, there will be no opportunity to complete the quiz after the due date.
- You will find more details of the Pass/Fail quiz on the unit Moodle site.

- Critical Thinking
- Information Technology Competence

2 Clinical model assignment

Assessment Type

Portfolio

Task Description

You must choose two clinical models on the unit Moodle site: one under Clinical Model Selection for Concept Map, and one under Clinical Model Selection for Disease Awareness Pamphlet. They must be different and from different weekly topics. Your selection is final, you will not be able to change it. The available clinical models are from your textbook and differ in level of difficulty, hence, will have different weights in the marking rubric. First come has first choice. If you do not select the two clinical models by the due date, your unit coordinator will allocate you two clinical models.

The portfolio task has two parts:

Part 1. You must submit online one Concept Map and one Disease Awareness Pamphlet.

Part 2. You must assess online three other Concept Maps and three other Disease Awareness Pamphlets. The assessment is anonymous.

You will find more details of the Clinical Model Assignment on the unit Moodle site.

Assessment Due Date

Week 8 Friday (4 May 2018) 5:00 pm AEST

Concept Map and Disease Awareness Pamphlet submission: Week 8, Friday 17:00 AEST; Concept Map and Disease Awareness Pamphlet assessment: Week 10, Friday 17:00 AEST

Return Date to Students

Review/Exam Week Wednesday (6 June 2018)

Marks will be available upon evaluation phase closure in Review/Exam Week.

Weighting

50%

Minimum mark or grade

50%

Assessment Criteria

The Concept Map and Disease Awareness Pamphlet each are 25% of the total unit marks. There is a minimum requirement of 50%.

Part 1 mark: Your peers will assess your Concept Map according to accuracy, content, interview, reflection, connection, structure, concept presentation, language, format, overall, similarity and content difficulty and your Disease Awareness Pamphlet according to accuracy, content, interview, reflection, presentation (illustrations, text coherence, pop-out effects), language (spelling, grammar, appropriateness for target audience), format, similarity and content difficulty. The marking rubric is available on the unit Moodle site. The final mark for each submission (the Concept Map and Disease Awareness Pamphlet) is the average of the marks given by your peer reviewers. The maximum mark for each submission is 13% (see table below).

Part 2 mark: You will also receive marks for assessing others' submission and the quality of your assessment. Moodle will compare your assessment with your peers' assessments of the same clinical model. Based on how close your assessment is to the average assessment score of the same clinical model you will receive a score (Score 1), between zero and one. You will also receive a score for the quality of your assessments (Score 2), between zero and twelve. The final mark equals Score 1 x Score 2. The maximum mark for the peer assessment is 12% (see table below).

	Concept Map	Disease Awareness Pamphlet
Part 1 mark: Mark of your submission assessed by peers	13%	13%
Part 2 mark: Mark for assessing your peer's submission	12%	12%
Total	25%	25%

Your lecturer will monitor the peer assessment for quality assurance.

You will find more details of the Clinical Model Assignment on the unit Moodle site.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
