Assessment Tasks

1 Individual presentation

Assessment Type

Presentation

Task Description

The ability to design and give service marketing presentations is critical to the success of any marketing career. In this assessment task, you as a "**service marketing expert**" will demonstrate your ability in this regard. Your task is to develop a **5-minute marketing pitch presentation** for a **new service product** for a reputed service-providing company in the digital world. You will consider the marketing literature or resources in the real world (e.g. news releases, business press, and consumers' recent feedback/reviews) to understand and outline expected consumer values for the 'service product concept'. The presentation should demonstrate what **value propositions** you are offering to your target market and explain why the 'service product concept' has potential in the digital market.

Be creative! In your pitch, include the following key areas:

- Describe the new service offer – Identify the core and any supplementary elements for the new service.
- Briefly define and justify a target market for the new service.
- Develop an effective positioning strategy and identify your competitive advantage.
- Justify and explain why the new service product concept is innovative and attractive to the market with supporting evidence.
- Provide relevant theories/models/ frameworks to justify your arguments.

This presentation should be made within **5 minutes** and through **5 PowerPoint slides**. The slides should follow the subsequent structure:

1. Student information and presentation title
2. Description of the new service product offer
3. Target Market
4. Positioning Strategy & Value Propositions
5. Reference lists (more than 3 academic references).

In the "**click to add notes**" section of each slide, please provide the corresponding script of that slide.

Hence, in that section, you will need to write out or at least outline what you intend to say in your presentation for that slide.

On-campus students will deliver their presentations in class before, during, or after week 5 depending on their local lecturer/ tutor's scheduling.

Distance education students are required to submit their PowerPoint presentations with voiceover on Moodle by the due date. For hints on how to convert a PowerPoint slide to a presentation with voiceover, please view the link.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
