General Information

Overview

Strategic marketing decision-making and planning plays a critical role in the success of businesses, not-for-profit organisations, governments and individuals or experiences. This unit introduces the central strategic marketing concepts and techniques for achieving sustainable success, and explains how to develop and manage your marketing program in the rapidly changing, competitive environments. This unit aims to take your marketing skills to the next level by developing your strategic thinking capabilities, planning and implementing a marketing plan and your capacity to analyse and integrate marketing metrics. Today's competitive business environment requires Australian and global companies to understand the various opportunities and threats facing their business, along with a considered analysis of the organisation's internal strengths and weaknesses. This unit gives you the opportunity to apply your theoretical knowledge and creativity to a real-world strategic marketing process, developing and implementing marketing strategies that enable organisations to respond to challenging environments.

Feedback

The textbook utilised in 2020 T2 offering of this unit is an excellent source of theories, models, and practical examples for this unit.

Recommendation

This textbook will be continuously adopted in the next offering of this unit, so that students can keep benefitting from this excellent resource.

Feedback from Staff reflection.

Feedback

The 2020 T2 unit offering did not seem to provide students clear assessment tips that can effectively guide students in completing their assessments, which might serve as a contributing factor to the less than ideal success rate of the 2020 T2 unit offering.

Recommendation

It is recommended that future teaching staff of this unit should try to design for their students clear and effective assessments tips or guides, as the strategy to increase future students' success rate in this unit.

Please pay attention to the following details on presentation and submission methods:

- On-campus students will deliver their presentation in class, and submit their PowerPoint file on Moodle.
- Distance education students will record their presentation through PowerPoint's "Record Slide Show" function, and submit their PowerPoint file (with recording) on Moodle.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
