2 Written Assessment: Film scores of the 1980s

Assessment Type

Written Assessment

Task Description

Write an essay of 1500 - 2000 words* on the following topic:

By considering the film scores of films produced in the 1980s, examine ways that composers created innovative film scores. For each of the following music styles find 2 examples of film scores that make use of the following musical elements:

1. Non-Western music elements - instruments, textures, melody and harmony;
2. Synthesized music elements - pure electronic music as well as music created by electronically altering conventional instruments;
3. Popular music elements - including new scores as well as scores using borrowed popular music;
4. Traditional symphonic scores - including new scores as well as scores that incorporated borrowed classical music.

For each of the 8 film scores discussed, provide the **URL of an excerpt of the film** and a **music cue sheet** for each film segment. Discuss the way the music score enhances the film with the use of these musical elements, whether the music is diegetic or non-diegetic, and any other specific purpose that this music might play in the story-telling of the film.

**The word count is considered from the first word of the introduction to the last word of the conclusion. It excludes the cover page, abstract, contents page, reference page and appendices. It includes in-text referencing and direct quotations.*

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
