General Information

Overview

This unit focuses on skills and methods associated with composing and arranging for small music ensembles. The Composition side of this unit will explore musical forms, melodic construction and harmonic devices. Arrangement studies investigate conventions of notation and require students to develop working arrangements for a variety of musical ensembles relating to their area of speciality. While students are expected to explore their own creativity and orginality, due attention to rigor in the technical, musical and aesthetic aspects of the assigned tasks is required.
