General Information

Overview

In this unit, you will study the art of audio mixing and mastering, with a focus on the historical, technical and aesthetic aspects of the production process. You will apply concepts of mixing and mastering in the preparation of two production portfolios for digital distribution. You will explore and analyse current and historical industry trends in the distribution of popular music and how these have impacted the listening behaviour of consumers. You will also explore the mechanics of current distribution platforms and examine the copyright, licensing and financial implications of each including sync licensing, publishing and sample libraries.
