

NURS11157 Lifespan Approach to Health and Wellness for Nursing

Term 1 - 2018

Profile information current as at 25/04/2024 01:55 am

All details in this unit profile for NURS11157 have been officially approved by CQUUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit adopts a lifespan approach to introduce you to a variety of developmental theories including biological, psychological and social elements. Illness prevention and health promotion models relevant to registered nurses are also examined. You will have the opportunity to critically analyse and apply these theoretical concepts through interaction with peers and others through a variety of mediums.

Details

- Bundaberg
- Distance
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Overview

1. **Practical and Written Assessment**

Weighting: 50%

2. **Written Assessment**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Have Your Say Survey

Feedback

Unit Moodle site: "The layout of the Moodle page was very easy to navigate especially since this is my first term and made finding everything I needed very easy"

Recommendation

Maintain the enhanced style of Moodle.

Feedback from Have Your Say Survey

Feedback

Staff/student communication and support: "I found the zoom sessions provided [coordinators] very helpful, they mimic the feeling of being in an actual classroom, rather than just a question and answer session I have experienced in other units...[on line sessions] were like a real class room and the interactive aspect made me have to critically think about concepts which I am sure helped me in my assessment and quizzes...I love the zoom sessions, they provide so much help. thankyou for making them so entertaining. [Coordinators] are wonderful and work fantastically together".

Recommendation

Maintain high online presence of coordinators. Continue with the interactive sessions.

Feedback from Have Your Say Survey

Feedback

Feedback:"! Any questions I have posted to lecturers are answered very quickly and when I read forums, I can see the lecturers always respond with great feedback and they do it very quickly, well done! Very enjoyable unit...The quizzes with an instant score at the end...[Coordinators] were fantastic regarding phoning students to provide assistance..."

Recommendation

Maintain fast return of feedback for questions and discussion material.

Feedback from Have Your Say Survey Email and phone responses.

Feedback

The best aspect is how open the communication lines are kept between students and lecturers. The lectures are explained in a clear way and concepts are made easy to understand. Resources provided that enable students to apply what is learnt such as a study guide and the summary sheets each week are incredibly helpful... everything links to the next part..."

Recommendation

Continue to provide varied forms of support resources. Include "search within" types of contemporary resources.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Connect lifespan developmental theories to the nursing care of individuals and families.
2. Within a nursing context apply lifespan developmental theories to inform strategies for health promotion and illness prevention to support individuals and families.
3. Use the principles of cultural awareness to develop strategies to communicate effectively with individuals and families.

The Learning outcomes are linked to the Australian Nursing & Midwifery Accreditation Council (ANMAC) Standards for registered nurses and the Nursing and Midwifery Board of Australia (NMBA) registered nurse practice.

2 Essay (based on choice of scenario provided in Unit Moodle site)

Assessment Type

Written Assessment

Task Description

Length: 2000 words

Details: Please see the Unit Moodle site for the detailed scenario information. ONE scenario is to be selected from options available.

This is an **INDIVIDUAL** assessment task. This assessment task requires students to compose an essay using information from the scenarios provided. Students select **ONE** of four scenarios (located on the unit Moodle site). You are required to position yourself as the nurse. Using theory, terms and concepts encountered throughout NURS11157, explain the bio-psycho-social-spiritual and cultural contexts of the participants involved. Demonstrate the considerations that are required in planning care.

The essay - **MUST** include:

- title/cover page
- abstract
- table of contents
- introduction
- discussion
- conclusion
- reference list

The case study is divided into parts and students are encouraged to use headings throughout the paper to provide structure- the Discussion Sections may be used as a heading.

Discussion Sections	Suggested topic areas to be considered may include:
Introduction to the client	Explore the main person using a lifespan approach. Identify the health concern. What Model of Health requires consideration in planning nursing care?
Factors affecting health decisions and behaviour	Explore how the participants' health decisions are made within complex social environments. Consider the impacts of social influences, inequalities and culture.
Psycho-physiological aspects of health	In relation to the person's stage of the lifespan, explore the relationship between emotions and health, stress and stress management. Identify types of responses that are evident in relation to the participants.
Prevention of illness and promotion of health	Illness prevention and health promotion impacts - propose an intervention to benefits your participant's situation with consideration to their stage of the lifespan and health literacy.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
