

NURS11160 *Fundamentals of Clinical Nursing Practice*

Term 2 - 2018

Profile information current as at 16/05/2024 12:48 am

All details in this unit profile for NURS11160 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will introduce you to foundational nursing care. You will acquire knowledge about the fundamentals of nursing care including communication, beginning assessment and the delivery of safe nursing practice at a beginning level. You will apply this knowledge to the planning, implementation and evaluation of safe nursing practice and will execute these skills in a simulated environment. You will be introduced to the significance of the Nursing and Midwifery Board of Australia (NMBA) registered nurse standards for practice. You will also be introduced to specific National Safety and Quality Health Service Standards which all nurses are expected to adhere to when practicing in Australia. There are compulsory on-campus workshops or residential schools for this unit.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 7

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Students must be enrolled in CQ23.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2018

- Bundaberg
- Distance
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Click here to see your [Residential School Timetable](#).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Online Quiz(zes)**

Weighting: Pass/Fail

2. **Written Assessment**

Weighting: 60%

3. **Practical Assessment**

Weighting: Pass/Fail

4. **Online Quiz(zes)**

Weighting: 40%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback in evaluations

Feedback

The residential schools have been commented to be rushed at times with a lot of content to cover in three days. Additionally the assignment needs to be due after residential schools are complete.

Recommendation

The teaching manual has been revised to further support academic staff teaching into the clinical space which will hopefully enable time management to be improved. Whenever possible we will employ staff who have experience in this unit or in clinical teaching and we strongly advise staff teaching in this unit to stick to the teaching manual. Additionally we have moved the assignment due date back a little to allow for the residential schools to be completed before the written assessment is due.

Feedback from Student feedback through moodle site; in person and in class.

Feedback

The study guide and clinical learning manual need to be able to be typed into.

Recommendation

Both the study guide and the clinical learning manual have been provided in a word document to allow students to type into the documents rather than being encouraged to print them.

Feedback from Student feedback in evaluations

Feedback

Students would like more consistency in feedback they receive from their written assignment from the ALC staff and from the markers.

Recommendation

Firstly, liaise or meet with staff members from the ALC to ensure we have the same expectations of formal essay development. Ensure that all markers attend the moderation meeting and are aware of our expectations regarding assessment feedback. Marking online within grademark/feedback studio assists with the moderation process as the unit coordinators can go in and check on markers comments at any time so this will continue to be used.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Apply the principles from the nursing process to deliver evidenced based, person centred nursing care to individuals and families at novice level.
2. Develop an awareness of cultural, legal and ethical principles required when interacting with individuals, families and other members of the multidisciplinary health care team to facilitate positive health outcomes.
3. Relate the significance of the Nursing Midwifery Board of Australia (NMBA) standards for practice and specific National Safety and Quality Health Service Standards to nursing practice.

Yes, the Learning outcomes are linked to the Australian Nursing & Midwifery Accreditation Council (ANMAC) Standards for registered nurses and the Nursing and Midwifery Board of Australia (NMBA) registered nurse standards for practice.

Schedule

Week 1 - 09 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Commence Module 1 - Refer to Moodle and the Study Guide.	Refer to Module 1 of Study Guide. The activities in the Study Guide will guide you to the set readings in your prescribed texts and direct you to other resources.	<p>Review all unit requirements. Understand what is required of you in this unit.</p> <p>A Holistic Approach, an Introduction to the Clinical Reasoning Cycle, an introduction to nursing and medical terminology, an introduction to mathematics relating to nursing, an introduction to the National Safety and Quality Health Service Standards. Review all assessment pieces. Put dates in diary.</p> <p>Set a plan for the semester.</p> <p>Start your Study Guide Activities including the 'Cultural Awareness Package'.</p> <p>Enroll in residential school (distance students) or on campus clinical learning sessions -refer to your timetable.</p> <p>Check you have the correct dates and times to attend the clinical learning sessions or residential school on your chosen campus - refer to your timetable.</p> <p>View lecture/s in Module 1.</p> <p>Open and log into Med safe, practice simple maths tasks in preparation for the Maths quiz.</p> <p>Open and commence maths quiz. Multiple attempts can be made until you reach 100%. (30/30).</p>

Week 2 - 16 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Module 1 continues Module 2 commences	Complete Module 1 and start Module 2 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities. Techniques for successful interviewing, introduction to health history, confidentiality, informed consent, an Introduction to documentation (SOAP) and reporting (ISBAR), clinical handover, reflection and professional journaling, links to Partnering with Consumers and Communicating for Safety Standard. Start preparing for your written assignment. Refer to the marking criteria. Seek support from ALC and library if needed. Maths online quiz will remain open. Multiple attempts can be made until you receive 100%. Check clinical learning session schedule. Date/s and time/s View lecture/s Module 2.
--	---	---

Week 3 - 23 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Complete Module 2	Complete Module 2 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities including the completion of the 'Hand Hygiene Package'. Start a professional journal. Maths online quiz will remain open. Multiple attempts can be made until you receive 100%. (Closes next week). Continue with your written assignment. Start looking for references. Check clinical learning session schedule. (Date/s and Time/s). View lecture/s.

Week 4 - 30 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Commence Module 3	Start Module 3 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	<u>Final attempt of the maths online quiz with 100% accuracy is on Monday 30th July.</u> Continue your Study Guide Activities. Measures to reduce or eliminate infectious agents, personal protective equipment (PPE), asepsis and aseptic technique, disposal of soiled equipment and supplies, health care acquired infections (HCAI), transmission-based precautions, simple wound dressing, links to Preventing and Controlling Health-care associated Infections. Continue with your written assignment. Contact ALC or the library if needed. Check clinical learning session schedule. (Date/s and time/s) View lecture/s Module 3.

Week 5 - 06 Aug 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Finish Module 3 and start Module 4	Complete Module 3 and start Module 4 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities. Beginning Assessment Skills (Inspection, palpation, percussion, auscultation) Vital Signs, electronic versus manual, variations across the lifespan, respirations, oxygen saturation, blood pressure, pulse/heart rate, body temperature, documentation of vital signs, links to Standard 8 Recognising and Responding to acute deterioration. Continue with your written assignment. Check clinical learning session schedule. (Date/s & time/s). View lecture/s Module 4.
------------------------------------	---	---

Break Week - 13 Aug 2018

Module/Topic	Chapter	Events and Submissions/Topic
TAKE A BREAK	TAKE A BREAK	TAKE A BREAK

Week 6 - 20 Aug 2018

Module/Topic	Chapter	Events and Submissions/Topic
Complete Module 4	Complete Module 4 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities. Continue with your written assignment. You should have a solid draft by now and if required seek support from ALC. (Send them a draft copy for review and comment). Check clinical learning session schedule. Date/s and time/s. View lecture/s.

Week 7 - 27 Aug 2018

Module/Topic	Chapter	Events and Submissions/Topic
Start and complete Module 5	Complete Module 5 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities. Falls and risk assessment, pressure injuries risk assessment, skin tears and risk assessment, assistance with nutrition across the lifespan, fluid balance charts, measuring fluid intake and output, bed making, protected meal times. Links to Standard 5 Comprehensive care. Continue with your written assignment. Proof read, check the assignment against the marking criteria, have the questions been answered? Check clinical learning session schedule. Date/s and time/s View lecture/s Module 5

Week 8 - 03 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Start and complete Module 6	Complete Module 6 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities. Work health & safety legislation, duties of workers, enforcement of legislation, mobility, safe patient handling, patient handling assessment, patient handling equipment, safe patient handling techniques. Refine your written assignment. Check marking criteria ready for submission. Submit as draft via Turnitin. Respond to report and correct assignment if necessary. Check clinical learning session schedule. Date/s and time/s. View lecture/s Module 6.
-----------------------------	--	--

Week 9 - 10 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
Start and complete Module 7	Complete Module 7 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities. Patient hygiene, facilitating elimination, urinary function, bowel function, the Bristol Stool Chart, incontinence, management of incontinence, changing a stoma appliance. Check clinical learning session schedule. Date/s and time/s. View lecture/s Module 7.
Written Assessment Due: Week 9 Friday (14 Sep 2018) 4:00 pm AEST		

Week 10 - 17 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
Start Module 8	Complete to Module 8 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities. Check clinical learning session schedule. Date/s and time/s. View lecture/s Module 8. Prepare for online summative quiz.

Week 11 - 24 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
Finish Module 8	Complete with Module 8 of Study Guide. The activities in the Study Guide will refer you to set readings in your prescribed texts and direct you to other resources.	Continue your Study Guide Activities. Specimen collection, correct patient identification and labeling, urinalysis, stool specimens, bringing it all together, rounding. Specimen collection is linked with Standard 6, communicating for safety. Check clinical learning session schedule. Date/s and time/s. View lecture/s. Prepare for on-line summative quiz.

Week 12 - 01 Oct 2018

Module/Topic	Chapter	Events and Submissions/Topic
Review	Review	Continue your Study Guide Activities. Check clinical learning session schedule. Date/s and time/s. View lecture/s. Prepare for on-line summative quiz.

Review/Exam Week - 08 Oct 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Week 13 Online summative quiz

Online summative quiz will open Friday, Week 13.

It will be open for 24 hours. You have one attempt only. There will be 120 questions covering the entire term's content. The quiz can be done online at home or on a university campus with the expectation that students will abide by 'exam like' conditions.

Online Quiz(zes) Due: Review/Exam Week Friday (12 Oct 2018) 11:45 pm AEST

Exam Week - 15 Oct 2018

Assessment Tasks

1 Online Quiz(zes)

Assessment Type

Online Quiz(zes)

Task Description

Assessment Item One addresses unit learning outcomes One, Two and Three.

1. Apply the principles from the nursing process to deliver evidenced based, person centred nursing care to individuals and families at novice level.
2. Develop an awareness of cultural, legal and ethical principles required when interacting with individuals, families and other members of the multidisciplinary health care team to facilitate positive health outcomes.
3. Relate the significance of the Nursing Midwifery Board of Australia (NMBA) standards for practice and specific National Safety and Quality Health Service Standards to nursing practice.

This quiz will be made available in week 1. You will be required to complete this by Monday 30th July, COB, Week 4. You can have multiple attempts but you must obtain 100% pass rate.

This math quiz is Pass/ Fail and Non-Graded.

Assignment Two- Written Assessment

Assessment Item Two addresses unit learning outcomes one, two and three.

1. Apply the principles from the nursing process to deliver evidenced based, person centred nursing care to individuals and families at novice level.
2. Develop an awareness of cultural, legal and ethical principles required when interacting with individuals, families and other members of the multidisciplinary health care team to facilitate positive health outcomes.
3. Relate the significance of the Nursing Midwifery Board of Australia (NMBA) standards for practice and specific National Safety and Quality Health Service Standards to nursing practice.

Course Name	Fundamentals of Clinical Nursing Practice
Course No.	NURS: 11160
Coordinator	Jenny Bassett/Kate Crowley/Mark Prance
Assess No.	Two
Type	Written
Due date	Friday 14 th September, Week 9.
Word Limit	1800-2000 words
Total Percentage	60%

Details : The following written assignment is based on a scenario of Mr Alan Rogers.

The video of the scenario is available on the Moodle site and is called 'Alan Rogers and you as a first year nursing student'. (There video is broken up into 3 parts specific to your assignment).

You cannot complete this assignment without referring to the video.

In preparation for the assignment, you will need to download the following documents:

· Fluid Balance chart, · QADDS chart, · Nursing Progress Notes.

These will be available in the assignment section on the Moodle site. You are then to read the assignment task set out below and watch the video in all 3 parts. This assignment has a focus on patient assessment, fluid balance charts, vital signs, stoma assessment and professional communication.

Each of these are linked to the National Safety and Quality Health Service Standards.

Setting the scene for your assignment

You are a first year nursing student on your first clinical placement. You are on the Rehabilitation ward at CQUniversity Hospital. It is the morning shift and you have been assigned the responsibility of looking after Mr Alan Rogers.

Who is Alan?

The following are Alan's demographic details taken from his patient chart.

This is important information that you will require when completing patient charts for your assignment.

· Patient's full name: Alan Rogers · Date of birth: 24.7.1947 · UR number: 305987 · Address: 13 Omeo Street, Ulma, Queensland · Hospital name/ ward: CQU Hospital, Ward A, bed 6 · Doctor: Dr William Down · Weight: 85kgs · Height: 172cm

It is 0700hrs and you have just started your shift. Clinical handover has begun. You receive the following information at Alan's bedside from the nurse who is about to go off duty. The nurse refers to Alan's care plan in the process of delivering the information to you.

Situation: Mr Alan Rogers was transferred from the surgical ward to the rehabilitation ward yesterday after experiencing an episode of dizziness at home one week prior.

Background: Mr Rogers has a history of chest pain, a painful left knee, bowel cancer and Prostrate Cancer, for which he had an operation called a Trans Urethral Resection of the Prostrate (TURP). He has a stoma and wears a urinary pad, as he experiences some incontinence following a complication of his TURP. He lives alone after his wife passed away two years ago. Mr Rogers is currently taking an anti-hypertensive, one tablet mane.

Assessment: Mr Rogers has a walking stick and is mobilising with it when he remembers. He is high risk for falls. He needs assistance with his stoma care and will ask for help when required. He will ask for urinary pads when he needs them. He is currently scoring zero on his QADDS chart. Mr Rogers's pain score is 0 at rest but on movement he says it is a '2.'

Recommendations: Standard precautions are in place. Alan is on a fluid balance chart and we are measuring all input and output. Alan requires vital signs observations 4/24. He requires full assistance with activities of daily living and is A 1 for mobilization. He requires falls prevention and pressure injury prevention care. The medical team will review Alan this morning at 1000hrs but Notify Dr Crane if you have any concerns.

Your responsibilities in looking after Alan whilst under the supervision of the registered nurse includes: · attending to his hygiene and toileting needs; · assisting with meals; · mobilising Alan safely; · pressure injury and falls prevention; · monitoring his vital signs and · maintaining his fluid balance chart.

What do you need to do next?

Title page and general instructions

Create a title page for the assignment and include all relevant information including student name, number, unit name and number, assignment number & word count.

Ensure you use 12 point font and double line spacing. Please also ensure you include a contents page.

The first part of your assignment Open your assignment with an introduction then move into the required tasks as per instructions (**allow 200 words**).

The second part of this assignment Prior to caring for Alan, you are conscious that you need to maintain hand hygiene. Complete the hand hygiene package. Please refer to online hand hygiene package available at www.hha.org.au/home/student-health-practitioners.aspx.

Once completed you will need to print off the certificate.

You will need to submit this in Appendix 1 of your assignment.

The third part of this assignment

You are also aware, based on the clinical handover, that Alan has a walking aid and is at risk of falls. You are to briefly explain:

- What puts Alan at risk of falls injuries and
- What is the nurse's responsibility in assessing, managing and documenting that risk.

You should allow 500 words for this.

Please back up your information with quality references.

The fourth part of the assignment

Your shift progresses. You attend to alan's care. It is now 1130 in the morning. You realize that you have not completed the fluid balance chart so you go to Alan to ask about his intake and output. Download the fluid balance chart from the Moodle site and document all input and output from 0800hrs until 1130hrs according to what Alan tells you in the video.

This completed fluid balance chart will be Appendix 2 of your assignment.

The fifth part of the assignment

Continue watching the video. At 1255hrs you go into Alan's room and he is sitting on the side of the bed. He states to you "my stoma is running fast". Alan appears embarrassed and upset. You ask alan permission to look at his stoma bag and on examination it is full of runny brown faeces. you empty the stoma bag into the measuring jug and it measures 250mls of faeces. You note it has an unusually pungent smell to it. Alan apologises and states that it "smells awful and that it does usually smell like that".

You then take Alan's vital signs.

It is 1200hrs and your findings are as follows.

· Respiration 16 · Pulse 115 and irregular · Blood pressure 120/80 (usual BP 110/70) · Temperature 37.5 · Oxygen saturation 99% · Oxygen flow rate 0- Mode Room air · Conscious state - Alert

Document the vital signs on the Adult QADD's chart you downloaded from the Moodle site. Include all points of identification on the chart. You are to add the score and complete ALL the documentation on the QADDS chart.. You will need to submit this as Appendix 3.

In the written section of your assignment you then need to explain,

- what action should be taken based on the criteria of the score you calculated.
- what nursing action you would take in regards to his reported stoma changes.

You should allow 200 words for this.

The sixth part of your assignment

Based on the above scenario you have sought the assistance of the registered nurse. It is 1230hrs and you are to apply ISBAR in communicating alan's current situation to the registered nurse.

In the written part of your paper you are to include the communication you gave under the ISBAR framework.**You should allow 300 words for this.**

Explain in the written part of your assignment:

- What clinical handover is and how it relates to Standard 6 'Communicating for Safety',
- describe what the nurse should do when providing the handover to the oncoming staff,
- describe what the nurse should do who is receiving the handover.

You should allow 500 words for this part. Please back up your information with quality references.

The final part of your assignment

You are now required to enter what has occurred in the nursing progress notes. Enter the situation assuming the time is now 1400hrs and the date is Tuesday 28/08/2018.

Your documentation can commence from the point of Alan advising you that his stoma is "running fast". All events unfolding from that point should be documented on the downloaded nursing progress notes adhering to the principles of professional documentation. You will submit this as Appendix 4 with your assignment. You should close your assignment with a conclusion (**allow 150-200 words**).

Summarising what you need to do:

View the scenario of Alan Rogers *and your written assignment* on the Moodle site.

Open your assignment with an introduction then move into the required tasks as per instructions.

Complete the hand hygiene package. Please refer to online hand hygiene package available at www.hha.org.au/home/student-health-practitioners.aspx.

Briefly explain in the written part of your assignment the following: *why alan is at risk of falls injuries and what is the nurses responsibility in assessing and documenting that risk.*

Download the fluid balance chart from the Moodle site and document all input and output from 0800hrs until 1430hrs.

Record the vital signs on the Adult QADD's chart as downloaded from the Moodle site. Include all points of identification on the chart. You are to add the score and include appropriate interventions. Ensure you complete ALL the required documentation from the information you have about Alan in this scenario.

In the written section of your assignment you then need to explain what action should be taken based on the criteria of the score you calculated.

In the written part of your paper you are to include the communication you gave under the ISBAR framework.

Explain in the written part of your assignment the following,

What clinical handover is and;

what steps should the nurse take at the bedside when providing the handover to the on coming staff and

What steps should the nurse take who is receiving the handover.

You are now required to enter what has occurred in the nursing progress notes.

Make sure you have a conclusion at the end of your paper.

Assessment Due Date

Week 9 Friday (14 Sept 2018) 4:00 pm AEST

To be submitted through turnitin. All instructions are on the unit moodle pages.

Return Date to Students

Week 12 Friday (5 Oct 2018)

Results will be made available online through grademark.

Assessment Criteria

Student Name: Marker:

HD 85-100%	D 75-84%	C 65-74%	P 50-64%	F <50%	Marks
Structure -15%					
Excellent presentation of assignment with inclusion of all correct components, double line spaced, 12 point font, page numbers, word count, well-structured academic abstract and a contents page. Consistently accurate with spelling, grammar and paragraph structure. Appendices correctly submitted. Assignment submitted through Turnitin.	Well-presented assignment, double line spaced, 12 point font, page numbers, concise abstract, word count and a contents page, 1 or 2 errors in spelling, grammar or paragraph structure. . Appendices correctly submitted and assignment submitted through Turnitin with minor error.	Well-presented assignment, double line spaced, 12 point font, page numbers, abstract, word count and a contents page, 3 or 4 consistent errors with spelling, grammar or paragraph structure. . Appendices correctly submitted and assignment submitted through Turnitin with 3-4 errors. .	Adequate assignment presentation, double line spaced with 12 point font. No abstract, word count or contents page included or page numbers, 5-6 consistent errors with spelling, grammar or paragraph structure. Appendices correctly submitted and assignment submitted through Turnitin with 5-6 errors.	Poorly presented assignment. Double spacing not used, 12 point font not used. No abstract, word count or contents page included. Many inaccuracies in spelling, grammar or paragraph structure. Appendices not correctly submitted. Assignment not submitted through Turnitin or with < 7errors.	
Clear and succinct introduction that introduces the topic and outlines the direction of the paper and an excellent conclusion that summarises the paper.	Clear and appropriate introduction that introduces the topic and outlines the direction of the paper. Conclusion summarises the paper.	Appropriate introduction that introduces the topic and outlines the direction of the paper. Conclusion attempts to summarise the paper.	Introduction is apparent although consists only of a list of the contents of the paper. Topic not clearly introduced. Conclusion apparent though incomplete.	No recognisable introduction— the topic is not introduced and/or there is no direction offered in respect of the paper. No conclusion or very inadequate.	/15
Organisation and structure is clear and easy to follow. Content is clearly relevant to the topic, the approach clearly and comprehensively addresses the topic and the argument proceeds logically. Well linked to supporting literature.	Organisation and structure is clear. Content is relevant to the topic, the approach clearly addresses the topic and the argument proceeds logically. Supporting literature is used appropriately.	Organisation and structure is appropriate. Content is appropriate and addresses the topic and the argument for the most part proceeds logically. Minimal omissions in links to supporting literature.	Organisation and structure allows misinterpretation of the meaning of the content. Content addresses the topic and the argument is at times repetitive or lacks cohesion. Frequent omissions in links to supporting literature.	Organisation and structure detract from the meaning of the content. Content is irrelevant and or does not address the topic. There is a lack of cohesion. Little to no links to supporting literature.	
Approach and Argument (70%)					
Content is clearly relevant to the topic. The approach comprehensively answers the question and the argument proceeds logically. Clear links to the NSQHSS. Consistently accurate completion of all documentation including fluid balance chart, ADD's and nursing progress notes.	Content is relevant to the topic, the approach clearly answers the question and the argument proceeds logically. Links to the NSQHSS. Generally accurate (1-2 inaccuracies) with all documentation including fluid balance chart, ADD's and nursing progress notes.	Content is appropriate and answers the question and the argument for the most part proceeds logically. Some links to the NSQHSS. Occasional inaccuracies (3-4) with all documentation including fluid balance chart, ADD's and nursing progress notes.	Content answers the question although the argument is at times repetitive or lacks cohesion. Attempt at linking to the NSQHSS. Frequent inaccuracies (5-6) with all documentation including fluid balance chart, ADD's and nursing progress notes.	Content does not address all aspects of the assessment task. Inadequate description of required content. Little or no discernible critical thought. Little or no links to the NSQHSS. Many inaccuracies (>7) with all documentation including fluid balance chart, ADD's and nursing progress notes.	/35

Excellent explanation of the clinical handover, fluid balance chart, pressure injuries, falls and the nurses actions relating to the correct ADD's score, urinary complaint and ISBAR handover. All content relates to Alan Rogers.	Relevant explanation of the clinical handover, fluid balance chart, pressure injuries, falls and the nurses actions relating to the correct ADD's score, urinary complaint and ISBAR handover. All content relates to Alan Rogers.	Basic explanation of the clinical handover, fluid balance chart, pressure injuries, falls and the nurses actions relating to the correct ADD's score, urinary complaint and ISBAR handover. Most content relates to Alan Rogers.	Limited explanation of the clinical handover, fluid balance chart, pressure injuries, falls and the nurses actions relating to the correct ADD's score, urinary complaint and ISBAR handover. Some content relates to Alan Rogers.	Inadequate explanation the clinical handover, fluid balance chart pressure injuries, falls, and the nurses actions relating to the correct ADD's score, urinary complaint and ISBAR handover. Most content does not relate to Alan Rogers.

3 Practical Assessment

Assessment Type

Practical Assessment

Task Description

Assessment Item Three addresses unit learning outcomes one, two and three.

1. Apply the principles from the nursing process to deliver evidenced based, person centred nursing care to individuals and families at novice level.
2. Develop an awareness of cultural, legal and ethical principles required when interacting with individuals, families and other members of the multidisciplinary health care team to facilitate positive health outcomes.
3. Relate the significance of the Nursing Midwifery Board of Australia (NMBA) standards for practice and specific

National Safety and Quality Health Service Standards to nursing practice.

The simulation assessment activity will occur on the last day of your residential school or weekly clinical learning sessions.

The skill audit is non graded as pass/fail. The skills that will be assessed include:

1. Hand hygiene
2. Taking and accurately recording vital signs including: respiration, pulse, temperature, blood pressure and pulse oxygenation.
3. Ten safety questions

Students can use their Berman (2017) *Skills in Clinical Nursing* text book as a guide when performing the skills. (Multiple attempts are permitted).

Assessment Due Date

The simulation assessment activity will occur on the last day of your residential school or weekly clinical learning sessions.

Return Date to Students

The lecturers will inform you of your results on the day of assessment.

This is the summative quiz relating to the content of the entire 12 week unit. This quiz is compulsory for all students.

This quiz is worth 40% of the grade and will be open for students to access on Friday of Week 13. The quiz will be open for a 24 hour period only but once you commence the quiz you will have two hours to complete it. The quiz can be done online at home or on a university campus with the expectation that students will abide by 'exam like' conditions.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
