NURS11161 *Clinical Nursing Practice 1*

Term 2 - 2018

All details in this unit profile for NURS11161 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit introduces you to the principles of patient safety and quality including physical/psychosocial assessment, asepsis and medication safety. You will have the opportunity to apply these principles in clinical environments. You will be expected to function within the scope of practice of a nursing student in accordance with the Nursing and Midwifery Board of Australia (NMBA) registered nurse standards for practice during the compulsory three (3) day residential school or timetabled internal nursing laboratories as well as 120 hour clinical placement.

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Teaching team

Feedback

Teaching team were happy with the preparation and resources provided prior to teaching into the Unit

Recommendation

Continue with this practice

Feedback from Per phone and email from Industry partners

Feedback

Feedback received from Industry partners was positive. Students were well prepared, well presented and eager to learn

Recommendation

Continue

Feedback from Have your say Student email

Feedback

On reflection, the Unit ran smoothly. Students were given information about the exam but evaluation comments revealed that some students were not prepared

Recommendation

In future offerings, the information will be more explicit and rationale for having an exam will be expanded upon

Feedback from Student email face to face comments

Feedback

Clinical placements. Some students initially felt that having placement in an Aged Care Facility would not enhance learning. Student reflections demonstrated that this was not the case as most students found the placement to be a valuable learning experience

Recommendation

Continue to source placements wherever the learning outcomes for the Unit will be met

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Employ evidence based practice principles to guide the physical and psychosocial assessment, planning, implementation and evaluation of individuals and families at beginning practice level.
2. Use legal and ethical frameworks and cultural awareness principles appropriate to scope of practice when communicating and working in partnership with members of the multidisciplinary team, individuals and families.
3. Provide safe and effective person centred nursing care to individuals undergoing diagnostic and therapeutic interventions/procedures related to a range of acute alterations in health at a beginning nurse level.
4. Function within scope of practice of a beginning nursing student in accordance with the Nursing and Midwifery Board of Australia (NMBA) registered nurse standards for practice.

The learning outcomes are linked to the Australian Nursing and Midwifery Accreditation Council (ANMAC) Standards for registered nurses and the Nursing and Midwifery Board of Australia registered nurse standards for practice.

Assessment Tasks

1 Practical and Written Assessment

Assessment Type
Practical and Written Assessment

Task Description

Assessment 1 has two (2) parts:
Part 1: You will be required to demonstrate your ability in a number of clinical skills in the last clinical on campus
learning session for NURS11161 Clinical Nursing Practice 1. The assessment will require you to play the role of the nurse
in a simulated environment and the assessment criteria will be the skills audit tool from your Clinical Skills text book.You
will be required to document your clinical findings and to perform a clinical handover to your lecturer.
If you do not meet requirements, negotiations will occur to determine the further support and actions required.
Part 2: You will be required to achieve 100% in an online medication administration quiz using the Med+Safe software
program in a computer laboratory in the last session of your residential school . If you score less than 100% in your first
attempt, you will be provided with an additional two (2) opportunities to achieve a Pass. The second attempt will be

before completing your residential school . The third attempt will be required to be completed by the Thursday before
your scheduled clinical placement. If you are one of these students, you will need to contact the unit coordinator for
guidance. If you are not successful on this third attempt, you will not be able to proceed to clinical placement and will be a fail for the Unit

2 Placement

Assessment Type
Professional Practice Placement

Task Description

If you receive an unsatisfactory result for your clinical placement assessment you will not be eligible for supplementary assessment and will receive a fail grade for NURS11161

NURS11161 Clinical Nursing Practice 1 involves 120 hours clinical placement. The clinical placement portfolio and time sheet must be completed during placement and the document is to be uploaded to Moodle within 7 days of completing placement.

Please note: You will receive ongoing feedback during your clinical placement as part of your formative assessment. This is to provide you with an opportunity for further development prior to your summative assessment at the end of your clinical placement. If you are not meeting satisfactory practice standards at any point of the placement, a support plan will be implemented in an effort to assist you to satisfactorily meet requirements. Unsatisfactory behaviours which jeopardise the safety of people in your care or that do not adhere with the NMBA Registered Nurse Standards for Practice, Code of Professional Conduct, Code of Ethics, Professional Boundaries and/or Social Media Policy criteria may result in you being removed from placement. If you do not meet each standard at a satisfactory level you will be a fail for the unit.

A reflection on a learning opportunity that you completed during clinical placement should be uploaded with the clinical portfolio no later than 7 days post completion of placement. You should utelise a reflective cycle, Gibb's reflective cycle is popular with nurses. You may write in first person and referencing is not required as it is your thoughts and feelings that are being discussed. If you use a direct quote a reference will be required.

Word count is 1500 +/- 10% for your reflection. Marking criteria is below:

Pass	Fail
De-identified facility and patient or staff involved in the learning activity	Does not de-identify facility and patient or staff involved in the learning activity
Describes a learning opportunity that was completed on placement	Does not describe a learning opportunity that was completed on placement
Describes knowledge and skills utilised while completing the learning activity	Does not describe knowledge and skills utilised while completing the learning activity
States what worked well and where any deficits lie	Does not state what worked well and where any deficits lie
Discusses what actions were taken to remedy any deficits recognised	Does not discuss what actions were taken to remedy any deficits recognised

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?
A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?
A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?
For academic advice and guidance, the Academic Learning Centre (ALC) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest
If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help
If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work
Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
