## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student evaluation of unit through Moodle

##### **Feedback**

The lectures were hard to stay focused on due to the same level of tone and speed throughout the whole recording. One week's lectures (7 or 8) was from 2018 and they gave information about a particular disability support service that "isn't available until next year, it doesn't come out until 2019" which was disappointing

##### **Recommendation**

Some of the lectures were re-recorded this year to update content. It was not possible to re-do this every week. This unit will not run in the new Bachelor of Nursing in 2021.

#### Feedback from Student evaluation of unit through Moodle

##### **Feedback**

Assessment feedback was not returned in a timely manner, and everyone got their marks at different times regardless of student received extensions or handed them in on time.

##### **Recommendation**

Grades were returned within the 2 week return period despite staff illness. This unit will not run in the new Bachelor of Nursing in 2021.

#### Feedback from Student evaluation of unit through Moodle

##### **Feedback**

The open communication between the lecturers and students was great, and the lecturers were very approachable as they treated the students as equals. The lecturers were very involved which was great to see. Lots of great info supplied and the ALC perspective was very helpful.

##### **Recommendation**

This unit will not run in the new Bachelor of Nursing in 2021.

#### Feedback from Student evaluation of unit through Moodle

##### **Feedback**

This unit has been very enjoyable and interesting, I love the lectures and how much information, detail and help is provided to allow us to have the best learning experience. The feedback and resources has helped me very much, which definitely has benefitted my learning. Thank you for all you've done in these tough times.

##### **Recommendation**

This unit will not run in the new Bachelor of Nursing in 2021.

You must correctly reference your essay using [APA referencing style \(7<sup>th</sup> ed.\)](#).

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
