

NURS11169 Health Across Life Stages

Term 2 - 2022

Profile information current as at 03/05/2024 05:08 pm

All details in this unit profile for NURS11169 have been officially approved by CQUUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will study the stages and milestones of the lifespan and consider the implications of life stages on health and end of life experiences. The uniqueness of people's experiences as they reach milestones will be considered in developing person-centred care. You will have the opportunity to reflect on end of life experiences and the impact this may have on the person, their significant others and yourself as a health professional.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit evaluation

Feedback

Lecture slides don't contain a lot of written information.

Recommendation

Only mini-lectures are offered in this unit. Presentation slides have been prepared to ensure an adequate balance of content to cater to visual and auditory learners.

Feedback from Unit evaluation

Feedback

There was a large volume of reading to complete each week.

Recommendation

Unit content will be revised prior to the commencement of each term to ensure currency and relevance. Where possible, a range of resources will be incorporated to achieve a balance between readings and other mediums.

Feedback from Unit evaluation

Feedback

The learning activities and tutorials closely align with assessments.

Recommendation

Continue to develop learning activities that scaffold unit concepts and assist students to prepare for assessments.

Feedback from Unit evaluation

Feedback

I think the unit coordinators were fantastic in their communication style, very approachable and happy to teach.

Recommendation

Continue to maintain a strong focus on student engagement and retention.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Describe the stages and milestones of the lifespan
2. Identify broad health challenges that may be associated with people at a particular life stage and consider individual differences to be able to ensure person-centred care
3. Discuss individual circumstances that could impact on health outcomes and the provision of care to individuals such as those who may be homeless, identify as Lesbian, Gay, Bisexual, Transgender, Intersex, Queer or Questioning (LGBTIQQ), those impacted by domestic and/or family violence, alcohol and/or other drug use, or disability, those from a Culturally and Linguistically Diverse (CALD) background, religion, refugees or other displaced persons
4. Describe the impact of life stage on end of life experiences on a person, their significant others and yourself as a health professional.

Assessment Tasks

1 Assessment 1: Online Quiz

Assessment Type

Online Quiz(zes)

Task Description

Learning Outcomes Assessed

- Learning outcome 1: Describe the stages and milestones of the lifespan.
- Learning outcome 4: Identify broad health challenges that may be associated with people at a particular life stage and consider individual differences to be able to ensure person-centred care.

Aim

The aim of this assessment is to provide you with an opportunity to demonstrate your knowledge and understanding of the stages and milestones of the lifespan, and broad health challenges that may impact an individual at different life stages.

Instructions

- You will be attempting an online quiz.
- Assessment 1 will assess your knowledge and understanding of materials covered in weeks 1 and 2.
- Assessment 1 will consist of 20 multiple choice questions. Each question is worth 1 mark.
- This is an open book assessment. You can refer to your learning materials at any time during your attempt.
- You have a maximum of 30 minutes to complete each attempt at the quiz. The quiz will automatically close at the end of 30 minutes and will submit your result even if you have not finished.
- Once you have commenced your quiz, you cannot log out. Please do not refresh or reload your screen as this may close your quiz and record your result.

- For any technical issues contact TASAC by phone - (toll free) 1300 666 620. Please take a screenshot or photo of the technical issue. If the issue affects your ability to complete your attempt, please also notify your Unit Coordinator.
- You can have a maximum of two attempts for assessment 1. The highest result will be recorded as your grade.

Requirements

Please ensure that you access the quiz during the following timeframe. Instructions on how to access the quiz can be found under Assessment 1 on the Moodle site.

- Assessment 1 (15%)
- Opens at 9am AEST Monday 25th July to 4pm AEST Friday 29th July 2022 (Week 3)

You will also need:

- Computer access with reliable internet connection.
- Your learning materials available to access during the quiz.

Submission

- You will complete assessment 1 online. Click submit at the end of the quiz and your answers will be automatically submitted.
- Results will be available immediately after the attempt is complete.

Reflective Practice Assignment

Task Description

Learning Outcomes Assessed

- Learning Outcome 1: Describe the stages and milestones of the lifespan.
- Learning Outcome 2: Identify broad health challenges that may be associated with people at a particular life stage and consider individual differences to be able to ensure person-centred care.

- Learning Outcome 3: Discuss individual circumstances that could impact on health outcomes and the provision of care to individuals such as those who may be homeless, identify as Lesbian, Gay, Bisexual, Transgender, Intersex, Queer or Questioning (LGBTIQ), those impacted by domestic and/or family violence, alcohol and/or other drug use, or disability, those from a Culturally and Linguistically Diverse (CALD) background, religion, refugees or other displaced persons.
- Learning Outcome 4: Describe the impact of life stage on end of life experiences on a person, their significant others and yourself as a health professional.

Aim

The aim of this assessment is to demonstrate your understanding of the life span, broad health challenges associated with end of life, and the impact of individual circumstances and life stage on health outcomes and end of life experiences for an individual, their significant others and yourself as a health professional.

Instructions

View the following video in the Assessment tile on the NURS11169 Moodle site.

· 'Meet Juli, always a door open for hope | My Last Days'

You then need to answer the following questions:

1. Identify two (2) individual circumstances for Juli. For EACH individual circumstance:
 - Discuss one impact that the individual circumstance may have on Juli's health outcomes
 - Describe one example of person-centred care you could provide to Juli, and explain how this is relevant to the individual circumstance
2. Identify the life stage that Juli is in according to Erikson's eight stages of development (Harvey, 2021). Explain the impact that this life stage could have on end-of-life experiences for:
 - Juli
 - Juli's significant others (e.g., husband, children – choose one)
3. Identify one (1) broad health challenge that Juli may have experienced at end of life. Explain how this broad health challenge may impact a person at end of life.
4. Juli died at home as a result of breast cancer. Do you think this was a 'good' death or a 'bad' death? Explain your answer.
5. Reflect on what you have learned from Juli's story. Describe how it may impact your practice as a health professional. Use Borton's reflective model (adapted by Rolfe and colleagues (2001) to structure your response.

Literature and references

In this assessment use at least 10 contemporary references (<5 years) to support your discussion. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites.

When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing.

Requirements

- Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 1.5 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Use the headings provided for each question.
- A cover page is not required for this assessment.
- Do not include an introduction and conclusion for this assessment.
- Write in the third-person perspective for your responses to questions 1, 2, 3 and 4.
- You may write in the first-person perspective for question 5 only.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online [APA Referencing Style Guide](#).
- The word count is considered from the first word of your response to question 1 to the last word of your response to question 5. The word count excludes headings and reference list but includes in-text references and direct

quotations.

Resources

- You can use unit provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
- You may like to manage your citations and reference list. Information on how to use academic referencing software (EndNote) is available at the [CQUniversity Library website](#) should you wish to learn how to use it.
- For information on academic writing and referencing please go to the [Academic Learning Centre Moodle site](#). The [Academic Communication section](#) has many helpful resources including information for students with English as a second language.
- Submit a draft before the due date to review your Turnitin Similarity Score before making a final submission. [Instructions are available here.](#)

Assessment Due Date

Week 8 Monday (5 Sept 2022) 11:59 pm AEST

Submit your assessment via the unit Moodle site in Microsoft Word format only.

- Learning Outcome 3: Discuss individual circumstances that could impact on health outcomes and the provision of care to individuals such as those who may be homeless, identify as Lesbian, Gay, Bisexual, Transgender, Intersex, Queer or Questioning (LGBTIQ), those impacted by domestic and/or family violence, alcohol and/or other drug use, or disability, those from a Culturally and Linguistically Diverse (CALD) background, religion, refugees or other displaced persons.
- Learning Outcome 4: Describe the impact of life stage on end of life experiences on a person, their significant others and yourself as a health professional.

Aim

The aim of this assessment is to provide you with an opportunity to demonstrate your knowledge and understanding of the impact of life stage and individual circumstances on health outcomes and the provision of care to individuals throughout the lifespan and at end of life.

Instructions

Using the provided template, discuss:

- one (1) potential impact that this person's individual circumstance could have on their health, and how this links to the life stage of the individual
- one (1) consideration for the provision of person-centred care to address this impact, and how this links to the individual circumstance and life stage.

Provide a discussion for all of the following individuals:

- A) Orla, a fifteen (15) year old Catholic female
- B) Gabriel, a seventy-two (72) year old male with autism at end of life
- C) Brian, a fifty-six (56) year old male experiencing internal displacement after his home was destroyed by flooding

Literature and references

In this assessment use at least 8 contemporary references (<5 years) to support your discussion. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites.

When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing.

Requirements

- Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 1.5 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Provide your answer using the template below.
- Do not include an introduction and conclusion for this assessment. Please use the template provided only.
- Write in the third-person perspective.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online [APA Referencing Style Guide](#).
- The word count excludes the template headings and reference list but includes in-text references and direct quotations

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
