NURS12164 *Professional Nursing Practice 3*

Term 3 - 2027

Profile information current as at 28/09/2026 08:20 am

All details in this unit profile for NURS12164 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will have the opportunity to practice nursing care for individuals, including the care of a person living with a chronic condition. You will apply the relevant Nursing and Midwifery Board of Australia (NMBA) Professional Standards and the National Safety and Quality Health Service Standards (NSQHS) in your practice as a nursing student. You will be expected to identify risk and recognise and respond appropriately to the needs of the patient in the simulated and clinical environments. You will review the concept of scope of practice using the Decision-Making Framework (DMF) (NMBA, 2020). You are required to participate in a compulsory three (3) day, 24-hour residential school or equivalent prior to attending professional experience placement for this unit. This unit includes a 120 hour block professional experience placement in a clinical care environment. You must meet specific mandatory health, safety and security requirements to be eligible to attend each professional experience placement. Professional experience placements may be limited in your community, and you may be placed in other locations. Please be prepared financially and personally to cover the costs of relocating for placements. Due to the limited availability of placements, some block placements have start and/or end dates that fall outside standard term dates.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE data

Feedback

Several students expressed that the 2-week placement was not long enough.

Recommendation

The new curriculum includes a 3-week clinical placement for this unit.

Feedback from SUTE data

Feedback

A student expressed that their residential school was overwhelming, with a lot of pressure to learn a large amount of content in a short time, and ran out of time

Recommendation

A full restructure of this residential school was implemented to ensure the content comprehensively covered the requirements and learning outcomes. Residential Sim Planner was provided for time management. A lesson plan will be developed for future residential schools to also assist with time management. NURS12164 will also be revised due to the new curriculum.
